2004 CATALOG

Mordam Records was started in 1983 as a group of record labels and publishers that sell their music and magazines together. To this day, this arrangement honors the autonomy of each label while supporting the group. When you buy any of the items from Mordam Records, you are in effect, buying directly from the labels as Mordam Records honors the prices each label sets. The people, labels, music, bands, writers, thoughts and ideas in this catalog are the group's main concern as well as availability, affordability and support of customers and fans.

We sell to distributors, one stops, stores and mail order sites worldwide and on our web site. Please contact Mordam Records if you ever want to buy from us or need information about the labels, bands or publishers. If you are interested in more info, we are happy to get you in touch with these labels directly. We urge you to contact us with any questions or suggestions.

We send out monthly new release books and we produce catalog updates, prices lists and inventory checklists for customers. We also have release updates and promotional flyers available to regular customers by fax and email.

Thanks.

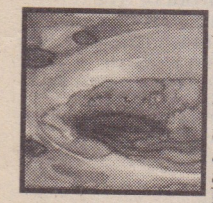
TAROT BOLERO- *"Romance"*

ACE 002 7"

Debut 7" by this obscure and fiercely unique band. Haunting circus dirges by ex-members of SLANT 6, ANTIOCH ARROW and HEROIN that should have been the soundtrack for *City of Lost Children*. The only recording with the band's original singer.

ALL SCARS - *"Bushu"*



ACE 003 7"

One of the most underrated art-punk bands to emerge in the late 90s. This Washington DC group, featuring Jerry Buscher and James Canty (MAKE UP/NATION OF ULYSSES), have challenged THE MINUTEMEN with equally aggressive and political lyrics as well as jagged and punching instrumentation. Recorded by Brendan Canty (Fugazi).

HEARTWORMS/CALIFORNIA STADIUM- *"split"*

ACE 004 7" split

CALIFORNIA STADIUM features the solipsistic four-tracking expertise and the sardonic humor of Boston based musician, Andrew Basile. Think SENTRIDOH meets WEEN and you're pretty damn close. HEARTWORMS features Archie Moore of VELOCITY GIRL.

TAROT BOLERO- *"Vaudeville Rising"*

ACE 005 CD

This wonderfully misunderstood band garnered quite a legacy within their short and precarious two-year existence. This CD captures the absurdity and intrigue of their live shows, as it's full of campy charm, spite and devilish mockery.

TIGHT BROS FROM WAY BACK WHEN/CHAMPS *"split"*

ACE 006 7" split

Popular split record featuring a outtakes from the **TIGHT BROS** (featuring members of KARP) first recording session and also a sarcastic and sugary fist pumping anthem by the (FUCKING) **CHAMPS** (featuring Tim Green of NATION OF ULYSSES) that will no doubt resurrect thoughts of THE SCORPIONS and BLACK SABBATH.

PINBACK - *"Pinback"*

ACE 007 CD

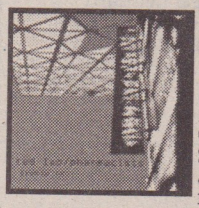
Debut release by this duo of astounding musicians which combines ethereal pop harmonies with tranquil rhythms and beautifully hypnotic vocals. Marrying the stylistic expertise of Rob Crow (THINGY, HEAVY VEGETABLE, OPTIGANALLY YOURS) and Armistead B. Smith IV (THREE MILE PILOT) this band's music is extremely touching and dreamy.

PINBACK - *"Loro"*

ACE 008 7" COLOR

Beautiful 7" by the lauded PINBACK that features one album cut "Loro" and one unreleased B-side. Definitely worth possessing and certainly worth framing on your wall. LTD GREEN VINYL

TEO LEO/PHARMACISTS *"Treble in Trouble"*



ACE 009 CD

Unlike his previous bands which were more collaborative efforts, this time Ted is the sole songwriter on this record, with backing help from James Canty (of the MAKE UP, NATION OF ULYSSES), Jody Buonanno (of SECRET STARS), and Amy Farina (of THE WARMERS), all of whom comprise THE PHARMACISTS, the music is edgy, raw, and highly emotive.

VARIOUS ARTISTS - *"Keep Left Vol. 1 A Benefit"*

ACE 010 CD

Contains UNRELEASED studio tracks by BUILT TO SPILL, OLIVIA TREMOR CONTROL, FRIENDS OF DEAN MARTINEZ, ELLIOTT SHARP, LOREN MAZZACANE CONNORS and unreleased live tracks by PERE UBU, KRONOS QUARTET and WINDY AND CARL. Liner Notes by HOWARD ZINN and liner comments by NOAM CHOMSKY.

DIVING BELL - *"Diving Bell"*

ACE 011 CD

There are seldom instances when sound and silence become equal forces both holding real estate in your ears. Yet when this happens we take a different approach to the product of "music." DIVING BELL use throbbing drones as an ominous curtain of sound that drifts gently through you and swathes your mind with tones. Think WINDY AND CARL.

EX MODELS - *"Ex Models"*

ACE 012 CD

Debut release by Brooklyn's best intellectual spazz punk band. 13 songs and 24 minutes of aggressive artistic pounding which carries the musical torch of such greats as DEVO, TALKING HEADS and THE JESUS LIZARD.

THE EAVES - *"The Eaves"*

ACE 020 CD

Brilliantly orchestrated pop songs, flawlessly melodious guitars and vocals scintillate and mesh, leaving a swath of harmony and brightness in their wake. Think MARY TIMONY singing for THE GO-BETWEENS. Blistering no-wave beats and rolling ENTWISTLE - meets - BEEGEES basslines merely serve as an anchor for the key strengths of **THE EAVES'** sound.

OLIVE GRAIN - *"Olive Grain"*

ACE 013 CD

OLIVE GRAIN mix primitive music with 20th century composition. Growing out of their live performances of extended sound installations, **OLIVE GRAIN** use textured instrumentation, pensive melodies and ethereal vocal patterns to create brooding and thoughtful sound-scape music. Released: May 29, 2001

THE SOUNDTRAK - *"The Soundtrak"*

ACE 022 CD EP

THE SOUNDTRAK first saw the light of day in August, 2001 as the songwriting vehicle of ex-INK & DAGGER guitarist Jorge. Rather than continue with the lacerating goth-hardcore of that band, however, he chose instead to let melody and song craft take the reins. Ace Fu is proud to release the result in the form of **THE SOUNDTRAK**'s debut EP.

PINBACK - *"Blue Screen Life"*

ACE 015 LP DBL/CD

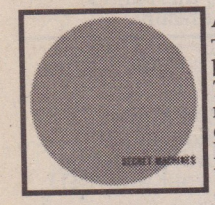
PINBACK's (ex HEAVY VEGETABLE and THREE MILE PILOT) classic second full length is an ardently crafted piece, showcasing the band in an intensely ambitious and new direction. With this release, **PINBACK** demonstrate a more versatile and ambitious approach to songwriting than one would come to expect from these San Diego kids.

AN ALBATROSS - *"We Are the Lazer Viking"*

ACE 023 12" EP/CD EP

AN ALBATROSS typically give themselves 40-60 seconds to make their point. Rather than condense sounds into a brick of maximum sonic density, they instead take on the challenge of making their minute-long missives sprawl. When was the last time you heard a band and thought, "So this is what electricity sounds like?" Limited Edition 1,000 piece colored vinyl.

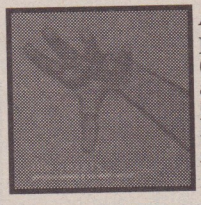
SECRET MACHINES - *"September 000"*



ACE 016 CD

This debut from the **SECRET MACHINES**, is both grand and minimal. One half *Dark Side of The Moon* one half STEREOLAB, and classic rock in every sense. At first **their** disposition is calm and reserved, but it later expands, layer by layer, until their musical terrain becomes laden with colorful melodies, counter harmonies and coyly poignant lyrics.

THE VEXERS - *"Gangland Ballads"*



ACE 024 CD EP

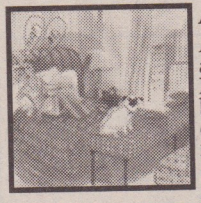
Immediately following their self-titled debut LP (released Written and honed in front of live audiences during The Vexers' full USA tour, (Spring 2003) this dark, chaotic masterpiece is a highly anticipated, stripped down work of absolute utilitarianism. Mixed and Engineered by underground legend, WHARTON TIERS (PUSSY GALORE, SONIC YOUTH, etc.)

THE SUCKA MCs - *"Da Album"*

ACE 017 CD

THE SUCKA MCs are undoubtedly the greatest rappers who have ever referenced Leonard Cohen, Wheezy Jefferson, Leo Tolstoy, Ridley Scott, The Olson Twins, and The Telletubbies. They are also quite possibly the greatest rappers who have ever existed. Straight outta' Iowa City, Iowa.

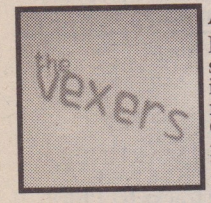
MAN MAN - *"Man Man"*



ACE 025 CD SINGLE

Ace Fu Records heartily greets the newest addition to its roster: Philadelphia's **MAN MAN**, a four-person tilt-a-whirl teeming with brassy carnivalia and bell-tone seduction. The diverse array of instruments used here includes xylophone, trumpet, dual keys, bongos, and on one song, a chorus of kindergartners! Unsettling, romantic, sophisticated, and unpretentious.

THE VEXERS - *"The Vexers"*



ACE 018 CD

Philadelphia's **VEXERS** have a vision for songwriting that reaches far and deep for its influences. The music is tight and fast and has a raw energy similar to legends such as THE GUN CLUB and THE VIBRATORS. Pure energy. Pure mania. Features members of THE LILYS, THE ROPERS, JUNIPER, and THE MONDO CRESCENDO.

RUNNER AND THE THERMODYNAMICS - *"s/t"*

ACE 026 CD

Proof that the virtuosity, groove and songwriting smarts of classic rock's heavy hitters can be more than imitated by our generation - they can be -- and have been -- inherited. THE JAMES GANG, BIG STAR, THE WHO, FREE, THE JAM, GRAND FUNK, **RUNNER AND THE THERMODYNAMICS**

OFFICER MAY- *"Smoking in A Minor"*

ACE 019 CD

OFFICER MAY have a reckless energy and an unbridled vision in their music. The songs sway back and forth between aggression, desperation and indifference but the theme is always brutal honesty and unnerving power. Fans of DRIVE LIKE JEHU, NIRVANA, THE REPLACEMENTS, SCRATCH ACID, GREEN RIVER, and SHELLAC will love this band.

SYSTEMS OFFICER - *"Self Titled"*

ACE 027 CD EP

Assuming the name **SYSTEMS OFFICER**, Zach (PINBACK) is the sole instrumentalist and arranger for this, his debut as a solo artist. The result is breathtakingly moving music which explores a range of emotions, both beautiful and sad, and engulfs your entire essence in the torrents of an emotional earthquake.

Acute

Reissuing and recontextualizing long-lost and obscure post punk, new and no wave gems…and other oldies.

THEORETICAL GIRLS - *"Theoretical Record"*

ACT 001 **CD**

This seminal New York City no-wave group from the late 70s created songs and sounds that helped shape what we know today as alternative or indie rock. **THE THEORETICAL GIRLS** (Glenn Branca, Margaret Dewys, Wharton Tiers and Jeffery Lohn) were a mainstay on the New York downtown scene and were a big influence on bands like SONIC YOUTH.

GLENN BRANCA - *"The Ascension"*

ACT 002 **CD**

GLENN BRANCA had all the critics agreeing on one thing: *The Ascension* was (and is) truly awesome. This release features an extra video clip of Glenn Branca performing live in Soho in 1978, new liner notes by Lee Ranaldo and additional artwork by Robert Longo. *The Ascension* is remixed and remastered by Weasel Walter of THE FLYING LUTTENBACHERS.

METAL URBAIN - *"Anarchy in Paris!"*

ACT 003 **CD**

While most people were just discovering punk, **METAL URBAIN** were trail-blazing what would become known as "post-punk", with a sound so distinct, Rough Trade would make them their first ever release. Echoes of **METAL URBAIN** can be heard in 80s bands like BIG BLACK, but only now, almost 30 years later, can their genius and foresight be fully appreciated.

METAL BOYS - *"Tokio Airport"*

ACT 004 **CD**

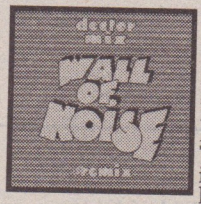
Paris's METAL URBAIN re-grouped and, with the addition of a female vocalist, take their processed electronics aesthetic even further as the **METAL BOYS**. Their mash-up of sounds and styles makes them difficult to pigeon-hole, but punk, rockabilly, GAINSBOURG-esque song, dub, industrial, and new wave all appear.

GLENN BRANCA - *"Lesson No. 1"*

ACT 005 **CD**

Upon its initial release as the first record on the influential 99 Records (LIQUID LIQUID, ESG, et.al.), *Lesson No. 1* was paired with "Dissonance", a more daring experiment that explodes sonic dissonance with rock and roll energy. For this reissue, Acute Records has added "Bad Smells" and an 18 minute quicktime video of "Symphony #5", recorded in 1984.

DR. MIX AND THE REMIX - *"Wall of Noise"*



ACT 006 **CD**

Trading in the electro-punk of METAL URBAIN for true *Metal Machine Music* in 1979, Paris's Eric Debris, now known as **DR. MIX**, unleashed his new concept, **DR. MIX AND THE REMIX**. Acute compiles the complete **DR. MIX AND THE REMIX** recordings for the first time on CD including the seminal *Wall of Noise* LP and many lost and rare tracks.

THE BRIAN JONESTOWN *"Their Majesty's 2nd Request"*

TAN 1026 **CD**

Satanic Majesties was probably the STONES least commercial album, filled with weird eastern drones and psychedelia- drenched chantings. Most people quickly forget it, but not these guys. THE DEAD BOYS - *"Night of the Dead Boys"*

BCD 4017 LP/CD

First released back in 1981, two years after the show it immortalized, *Night of the Living Dead Boys* is everything you'd expect it to be - chaotic, tumultuous, obscenely loud, and utterly divorced from all the emotions you'd expect to find at the last-ever show by a much-loved institution. A barrage of punk purity!

STIV BATORS - *" Collector Edition"*

BCD 4043 CD

STIV's first solo album after leaving the DEAD BOYS (1980) opened up a new territory he'd long wanted to invade: a more pop-oriented approach he'd never felt the freedom to take with his previous band. This CD "collector edition" includes live bonus tracks. The 10" leaves off the bonus tracks.

THE MODERN LOVERS - *'The Original Modern Lovers"*

BCD 4021 CD

When this seminal band issued their debut album in 1977, they were already veterans of more than five years on the Boston scene. Having been long out of print, the album is now back and should take its place on the shelf of everybody who loves this legendary band. Produced by KIM FOWLEY.

STIV BATORS - *"LA, LA"*

BCD 4046 CD

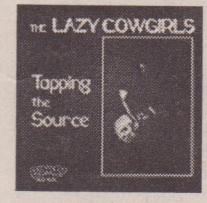
LAZY COWGIRLS - *"Tapping The Source"*



BCD 4025 CD

This band should need no introduction; for a decade they've been among the most consistently powerful bands carrying on a certain punk tradition best exemplified by bands like the RAMONES and REAL KIDS. This album captured them at their early best, and remains the classic.

IGGY AND THE STOOGES - *"Rough Power"*

BCD 4049 10"/CD

Ever since the **STOOGES**' third album *Raw Power* appeared, there has been some question about the contribution made by its producer, DAVID BOWIE. THE ZEROS - *"Don't Push Me Around"*

BCD 4035 CD

The **ZEROS** were one of the original pioneers of the West Coast punk scene. THE BRIAN JONESTOWN *"Take It from the Man"*

BCD 4055 CD

This is no oldie-fest; the derivative elements are structural and spiritual; the music is thoroughly contemporary. *Take It from the Man* presents a different facet of the group's style, a country-blues driven groove with clear nods to the STONES, BEATLES, JESUS & MARY CHAIN and (some say) even the STONE ROSES.

THE BRIAN JONESTOWN *"Give It Back"*

BCD 4068 CD

This brilliant sixth album brings together all the elements you've loved in their past work. Includes a stunning version of their live tour-de-force "Five Buck Sue." Another standout is "Not If You Were the Last Dandy on Earth", a sendup of their good buddies THE DANDY WARHOLS.

THE BRIAN JONESTOWN *"Thank God For Mental*

BCD 4061 CD

There is a strong country flavor to much of the main portion of the album, with a couple of songs that bring to mind the best work of HANK WILLIAMS, but there's also plenty of the choice '60s-based rock the band has become known for. Includes a pile of bonus songs which include some of the group's best work ever.

VARIOUS ARTISTS - *"What Records? 1977 - 1980"*

BCD 4071 CD

SONGS FOR EMMA. The second album 2 years down the line. Few bands get angrier and more raw with age. Well, here's one that did! It's red-n-black rocknroll, with no buzz-clip, no happy-face video, no product behind a middle class promoter... just some very tense and angry workers.

FEEDERZ - *"Feel Like Killing Your Boss?"*

FM KNIVES- *"Useless and Modern"*

SKIP 102 **LP/CD**

FM KNIVES are a spring-loaded punk band with a healthy dose of pop circa 1977-1979, from good ol' Sacramento. **FM KNIVES** play a brand of punk that has a definite BUZZCOCKS / BOYS / UNDERTONES feel. This record sounds as authentic as all the classics it's influenced by, and that's no joke.

THE GITS - *"Frenching the Bully"*

SKIP 103 **CD**

Out of print since 1994, this is the long anticipated re-release of **THE GITS'** debut album. *Frenching the Bully* introduced Seattle's **GITS** to the world in 1992. SLEEPING DOGS started in NYC in the early 80's playing their purely original brand of punk damaged, political rock with an artistic slant. After a move to San Francisco **SLEEPING DOGS** ended up recording a 7" for the Crass Records label in 1982. They were one of only 2 American based bands to have such an honor.

OPERATION S - *"Operation S"*

SKIP 108 **LP/CD**

OPERATION S is from Paris, France and have been together 2 years. Their record sounds like a long lost late 70's punk/new wave band. Think Dirtnap style or think BRIEFS with female vocals. The recordings have a rough punk guitar sound with great vocals by Cecilia (NO TALENTS) and cool not wimpy keyboards.

:Fusing the experimental pop sensibilities of the digital and analog world since 1999.

JAKE MANDELL - *"The Placekick EP"*

CRPK 001 CD EP

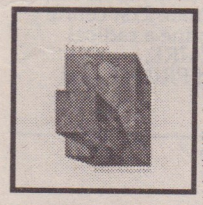
JAKE MANDELL was raised by a society of hyper-evolved humanoid "cats" in the tunnels and stockrooms of the deserted mining ship Red Dwarf. **JAKE** took to writing music, and after three million years of isolation, beer milkshakes and curries (he was kept alive through the help of the ship's senile AI, Holly), his music took on quite a unique perspective (to put it mildly).

KID 606 - *"The Soccergirl EP"*

CRPK 006 CD EP

With this recording, Mr. **606** makes a departure from many of his previous recordings. Those thinking punk inspired mayhem or glitchity/cutty style will be in for a big surprise. Instead, *The Soccergirl EP* offers six tracks of melody-suffused ambient electronics in a style reminiscent of early KRAFTWERK or TO ROCCOCO ROT. This is definitely

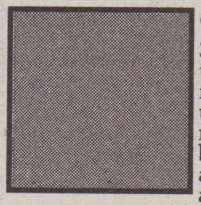
MARUMARI - *"Ballad of the Round Ball"*



CRPK 002 LP/CD

Originally from the planet Earth before emigrating to Zebes, **MARUMARI'S** career began as a young man reading *Omni Magazine* in upstate New York. From there, he acquired the scientific skills of a certified space hunter and hence initiated his travels throughout the galaxy. Interceptors have called the sounds herein "electronic pop music."

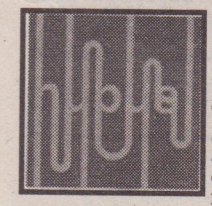
SO TAKAHASHI - *"30/30"*



CRPK 007 CD

30 minutes of audio for 30 empty rooms; this is the theme of **SO TAKAHASHI'S** new *30/30* cd for Carpark. Given 30 photos of empty or unused rooms, **SO** has playfully constructed narrative and memory within. The photos, taken by Fumiko Nozawa, were displayed in galleries and clubs throughout North America and Europe as the 30 minute audio piece played out.

SO TAKAHASHI - *"Nubus"*



CRPK 003 LP/CD

Utilizing his collection of vintage Roland drum machines, some guitars, a theremin, and sounds from his kitchen and fax machine, **SO TAKAHASHI** has constructed in *Nubus* a new audio plateaux resting somewhere in between ambient melodicism and structured noise. SO is continually trying to reconcile his love of club music with more "non-body" musics.

JAKE MANDELL - *"Love Songs for Machines"*

CRPK 008 LP/CD

JAKE MANDELL has confessed his previously repressed true love for computers and machines. Fortunately for us, **JAKE** has gotten it out of his system in the form of a beautiful new album *Love Songs For Machines*. Once set in motion, these songs express what words cannot: the ineffable sensations accorded to desire and attachment.

MARUMARI - *"The Wolves Hollow"*

CRPK 004 LP/CD

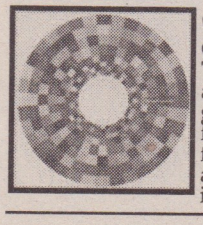
With this, **MARUMARI'S** 3rd full length (2nd for carpark), we find our young space traveler in a state of transition. The second half of *The Wolves Hollow* finds **MARUMARI** pursuing new ideas. Here he is less concerned with the song than with layers (I hate to use the word tracks) listened as a whole. It is a masterful statement sure to please all those in tune with the

MARUMARI - *"Supermogadon"*

CRPK 009 LP/CD

Dare we call *Supermogadon* more "mature" even though **MARUMARI** is ageless? Our boy has taken elements of smooth jazz, 80s alt. rock, and 70s american radio hits and given them a more playful digital interpretation. Sadly for marketing departments around the world, this is dance music that fits no existing dance genre. His 4th full length (3rd for Carpark).

SO TAKAHASHI - *"So Takahashi"*



CRPK 005.6 12"

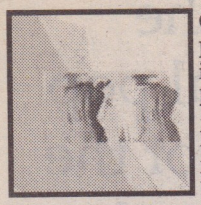
Carpark is repressing the first **SO TAKAHASHI** 12"! We are keeping the attractive record sleeve and the 31 locked grooves, but **SO** presents a new ambient track for the a-side. The new a-side is quite different from the old one. While still retaining the ambient feel of the original track, **SO** has introduced percussion elements into this

TAGAKI MASAKATSU - *"Pia"*

CRPK 010 CD DBL

TAGAKI MASAKATSU is a video maker who creates music. **TAGAKI MASAKATSU** is a musician who creates video. Or maybe **TAGAKI MASAKATSU** is a documentary filmmaker. Which ever one you prefer, **TAGAKI** is an artist who is wholly dedicated to exposing and preserving the human experience at the start of our burgeoning new century.

MISS DINKY - *"Kill the Bass Kick EP"*



CRPK 011 12"EP

MISS DINKY has a sharp sense of how to interweave melodic lines into simple drum patterns to create what we like to call "the **DINKY** sound", as accessible and enjoyable in the bedroom as on the dancefloor. If you like listening to Paul Hardcastle and old Factory records while doing the dishes, we think we've given you a reason to wash that big crystal dish

GREG DAVIS - *"Arbor"*

CRPK 012 LP/CD

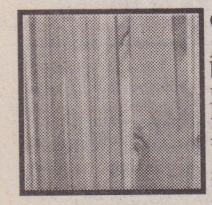
In structural and aesthetic terms, think of a mix between John Fahey's early acoustic records, FENNESZ'S *Endless Summer*, and Jim O'Rourke's solo work. Carpark is certain that *Arbor* is the harbinger of a new type of music we like to think of as "laptop folk." If it isn't already obvious, laptop IS the new folk.

MARUMARI - *"The Remixes"*

CRPK 014 CD

The list of remixers reads like a who's who of **MARUMARI'S** IM buddy list: ELECTRIC COMPANY & STARS AS EYES (Tigerbeat6), ROBERT LIPPOK (TO ROCCOCO ROT), CASINO VS. JAPAN (Wobblyhead, City Centre Offices), LACKLUSTER (Defocus), CEX (Tigerbeat6/Jade Tree), L'USINE (Isophlux, Hymen), OCTOPUS INC. (Kracfive) and more!

OGURUSU NORIHIDE - *"Humour"*



CRPK 015 CD

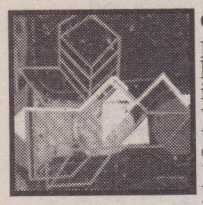
Humour, **OGURUSU'S** debut for Carpark, blends aspects of pop, techno, and japanese folk using an array of instruments like guitar, bass, keyboard, powerbook, recorder and percussion. *Humour* takes in an astonishing range of sound. Listening to it conjures up comparisons to such seemingly disparate artists as the Beatles, Brian Eno, Jorge Ben, and Taylor Deupree.

TAGAKI MASAKATSU - *"Opus Pia"*

CRPK 016 DVD

Along with the *Opus Pia* audio cd, this DVD (a first for Carpark) realizes one of **TAGAKI MASAKATSU'S** core beliefs: tiny miracles in daily life. Only 23 years old, **TAGAKI MASAKATSU** has presented his sound and video works in art galleries and clubs throughout Japan, America, and Europe. *Opus Pia* is the beginning of one of his lifelong projects.

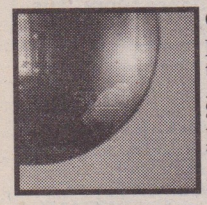
CASINO VERSUS JAPAN - *"Whole Numbers Play the Basics"*



CRPK 018 CD

Hip-hop beats, dark tones, airy melodies, and hearty bass patterns show off a musical mind informed by sources ranging from the classic works of DAVID AXELROD and PINK FLOYD to more contemporary heroes like BOARDS OF CANADA and MY BLOODY VALENTINE. *Whole Numbers Play the Basics* is a true feast for lovers of sound.

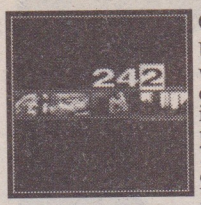
SIGNER - *"Low Light Dreams"*



CRPK 020 LP DBL/CD

Not an "electronic" record in the purest sense, though not an "indie" record either, *Low Light Dreams*, from SIGNER (New Zealander Bevan Smith), incorporates elements from first-wave post-rockers like SEEFEEL, dub-influenced techno, and some of the more blissed-out items from the Kranky records' catalog.

242.PILOTS - *"Live in Bruxelles"*



CRPK 021 DVD

Utilizing their own custom software created with the innovative nato.0+55 programming environment, **242.PILOTS** expressively improvise rich, layered works in real-time. THE PINKOS- *"The Pinkos"*

MTR 388 LP/CD

THE PINKOS (Vocalist/guitarist Vanessa (BELL) and drummer/vocalist Steve (GITS)) are a snotty, acoustic-punk duo who believe that just because the "personal is political,"doesn't mean you can't take the political personally. Songs about bad love, failure, disgrace and damaged democracy.

DEAD MOON- *"Trash And Burn"*

MTR 390 LP/CD

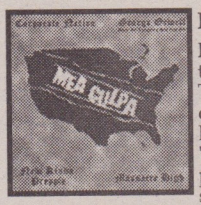
Yes, finally a new DEAD MOON album! If you don't know who DEAD MOON is yet, you've been missing out on one of the most rockin' bands in the country for the last 15 years. Hailing from Clackamas, OR, DEAD MOON is fronted by Fred Cole, a living rock-n-roll legend (check out THE LOLLIPOP SHOPPE on the Nuggets comp from Rhino), and this is one of their best!

THE LOST SOUNDS - *"Black Wave"*

MTR 392 LP DBL/CD

Absurd yet gorgeous second album featuring Jay (REATARDS) and Alicjia (THE CLEARS), sounding like Three Imaginary Boys era- CURE by way of THE SCREAMERS by way of EMPEROR by way of THE SEEDS by way of totally believable, timeless aggression. Yes, THE LOST SOUNDS' aggression is totally timeless, and it's hard to make aggression timeless.

MEA CULPA - *"Corporate Nation"*



MTR 393 7"

MEA CULPA is a politically driven punk rock slap in the face that has been rocking Seattle, Washington. The band's influences are wide, but the political bent of lyrics come from bands like THE CLASH, BILLY BRAGG, and the DEAD KENNEDYS. With their song "Whose Streets?" the band is able to nicely couple a protest chant from the streets with a punk rock sing-a-long.

THE MIDNIGHT THUNDER EXPRESS- *" Midnight Thunder Express"*

MTR 394 LP/CD

Twin guitar madness courtesy of Stu Miller's CHUCK BERRY rhythm style mixies perfectly with Brian's scorching leads. Imagine the swagger of the NEW YORK DOLLS, T. REX, and '70s STONES poured on top of heavy rock a la AC/DC or the MC5.

THE GLORYHOLES - *"Knock You Up"*

MTR 395 LP/CD

"**THE GLORYHOLES** are snottified, blasted out, amped up, garage-ripped rock n' roll with a squelching, caterwauling lead vocalist and ear bashing, lo-fi, screeching guitar attack."- *Vinyl A-Go-Go*

THE LOST SOUNDS - *"Rat's Brains and Microchips"*

MTR 397 LP/CD

With their 3rd album, Memphis' **LOST SOUNDS** have added "Malevolent Metalese" to an already crowded linguistic repertoire that included "Sick Sike" and "Dystopian Darkwave." With feet planted firmly in the synth-heavy, rooster do'd pop of yesterwave, they strain with sinewy arms toward a dark tomorrow. Ex - REATARDS and CLEARS.

MEA CULPA - *"They Put You in a Mask"*

MTR 398 LP/CD

The debut LP by the Seattle 4-piece **MEA CULPA**. Drawing from a diverse grab-bag of styles and genres and filtering them through a megaphone cranked to 11, They blast out 13 tracks of socially aware punk with a journalist's eye for complexity, a romantic's sense of compassion and the ferocious rage of a drunken, rabid badger.

THE CURSES - *"#&$%"*

MTR 400 LP/CD

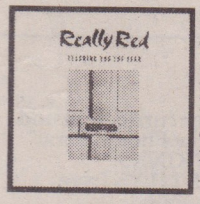
Hailing from the Boston liquor store circiut, THE CURSES are hitting the street like a 6am bar crowd--glassy-eyed, wild and ready to go to work. Wailing drums and crappy guitars rule the day. Imagine a little Kinks, a little Undertones and a little Zep.

DESTRUCTION UNIT - *"Self-Destruction of a Man"*

MTR 401 LP/CD

All it takes is one. One man/woman/human can shatter your world. **DESTRUCTION UNIT** is that one. Developed by Ryan Wong in the Arizona desert sometime in the past, **THE UNIT** unleashed the "My Disease" recording on Discos Cagados. The out-of-control beat met with electronic keys, a deafening guitar and damaged vocals that wanted you dead.

REALLY RED - *"Teaching You The Fear"*



MTR 402 LP/CD

The explosive and turbulent Texas of the late 70s produced a wealth of great hardcore with the likes of THE DICKS and THE BIG BOYS, right up there was Houston's **REALLY RED** spitting out their own brand of political hardcore. This is their long out of print 1981 debut release.

MOUSE ROCKET - *"Mouse Rocket"*

MTR 403 LP/CD

MOUSE ROCKET, the newest project from Memphis art-core luminary, Alicja Trout (Lost Sounds, Destruction Unit)combines the native intensity of the Lost Sounds with delicate and haunting pop sensibilities reminiscent of Yo La Tengo's best work. Mouse Rocket's debut LP is a record driven by a proto-punk engine but enslaved to a sad and beautiful melody.

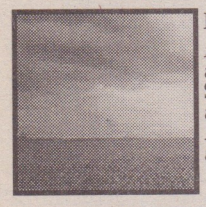
Catch fire and burn.

A Chicago sound system.

Fucking right on.

Since 1989.

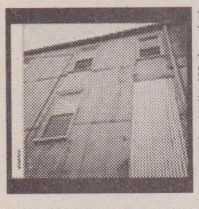
ANTARCTICA - *23:03*



FT 25 CD EP

ANTARCTICA builds upon the dark overtones and the gloomy pop of THE CURE and SLOWDIVE while taking epic steps into new aesthetics. These three songs gesture to **ANTARCTICA'S** ability to blend melancholy and joy in epic structure.

ANTARCTICA- *"81:03"*



FT 29 CD DBL

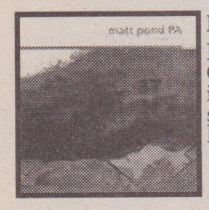
ANTARCTICA blends the swooning syncopated pop of NEW ORDER and the deep hypnotics of UNDERWORLD with their indie heritage. The ambiance that distinguishes **ANTARCTICA** is captured on this double CD for generations of the inverse world to come.

THUMBNAIL - *"That Static"*

FT 30 CD

Unquestionably an essential piece of File 13's history, Thumbnail's 3rd full-length becomes available nearly three years after its conception. Having left their legacy to indie lore and legend after dissipating in '98, That Static breathes a thick, sonic fire into the bellies of starved fans of an era passed.
Pre-ATOMBOMBPOCKETKNIFE (Southern).

MATT POND PA- *"Measure"*



FT 31 CD

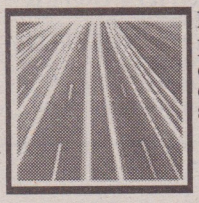
Evoking the earnest craftsmanship of PETER GABRIEL and JEREMY ENIGK, *Measure* bites its teeth on the bone of sincerity. **POND** delivers songs that, though literary and complex, are hook-laden and instantly singable.

LENOLA- *"Treat Me To Some Life"*

FT 32 CD

The twelve songs on **LENOLA**'s full-length, emanate warm rays of fulfillment and beg you to bask in the goodness. Between **LENOLA**'s inception as a four-track project in 1995 and self-releasing three full-lengths on their Tappersize label, they've made impressionable leeway with both fans and critics alike.

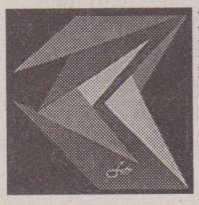
NATIONAL SKYLINE- *"Exit Now"*



FT 33 CD EP

Playful loops and synth tones complement organic drums, acoustic guitar, and Garber's expansive vocals, creating a new, pop **SKYLINE** stimulus.

LILYS- *"Selected"*



FT 34 12"EP/CD EP

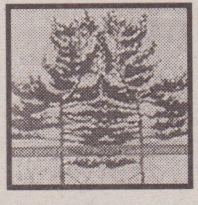
From the post-*Loveless* shoegazer curriculum and indie slacker chic of "Eccsame the Photon Band" and throughout the ZOMBIES/KINKS revivalism of "The 3 Way," **THE LILYS** have etched a tradition of meticulous sound interpretations and maniacally realized pop.

NATIONAL SKYLINE- *"This = Everything"*

FT 36 LP/CD

NATIONAL SKYLINE formed in the autumn of 1996 as Jeff Dimpsey (HUM) and Jeff Garber's (CASTOR) response to their post-rock pasts. With tasteful sequencing, effected guitars, and Garber's sinewy vocals, their chilling soundscapes parallel ENO's synthesized exploration on the *Apollo: Atmospheres and Soundtracks* and *Music for Airports*.

MATT POND PA- *"Thought You Were Sleeping"*



FT 37 CD EP

At odds with the recording of **MATT POND PA**'s follow-up to *Measure*, **MATT POND**, the central conspirator of the Pennsylvania music collective, found the light. He has left the life of "rock" to pursue an aching, orchestral pop vision. Strings and French horn solemnly waltzing around arpeggio guitars and familiar melodies.

NEED NEW BODY - *"Need New Body"*

FT 41 CD

NEED NEW BODY, risen from the ruins of N.Jersey psych / art-rock pranksters BENT LEG FATIMA, is about as unpredictable as they come. The five members swirl organ, drums, sax, bass, pots and pans, banjos, good and evil spirits into a wicked hurdy gurdy.

ATOM AND HIS *"Hamburgers"*

FT 42 CD EP

Hardest working geek in indie rock? **ATOM AND HIS PACKAGE** offers five new anthems for his adoring cult on the *Hamburgers* EP (FT 42). HUMAN LEAGUE beats crunched between VAN HALEN riffs, and sing along choruses of home owning and law defying dilemmas make for a humorously twisted pop affair.

ATOMBOMBPOCKETKNIFE *"Lack and Pattern"*

FT 49 CD

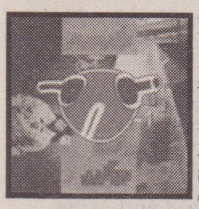
Since 2001's *God Save the ABPK*, the group has toured and appeared on compilations, singles, radio and television throughout the U.S. and Europe. **ABPK'S** sound has undoubtedly progressed and the result is more natural but complicated arrangements, uncompromising production, and an unprecedented dark mood.

STERLING - *"Sterling"*

FT 43 CD

STERLING is Chicago's finest avant-garde instrumental rock quartet. Founded in 1998 and inspired by a rich background in music composition blended with proper art and aesthetic, **STERLING** is well known for their moody and bombastic soundtrack performances. This is **STERLING's** self-titled second album.

NEED NEW BODY - *"UFO"*



FT 44 LP/CD

UFO is the long-awaited follow up to this Philadelphia collective's dazzling and bewildering debut album on File 13 [Self-Titled FT 41]. Rising from the ashes of BENT LEG FATIMA, **NEED NEW BODY** breathes new young life into sounds comparable to CAN, SUN CITY GIRLS, FAUST, TOM WAITS, and CAPTAIN BEEFHEART.

TRS-80 - *"Shake Hands With Danger"*

FT 45 CD

One of Chicago's most innovative, **TRS-80** mixes breakbeat, IDM, old school hip-hop, and electro rhythms with analogue synths, samples and sounds. After three successful albums on Invisible Records, **TRS-80** returns on File 13 with *Shake Hands With Danger*.

MARTIN REV - *"To Live"*

FT 46 CD

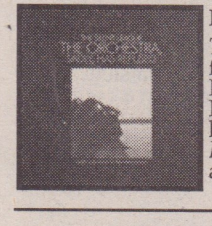
As the instrumentalist of duo SUICIDE, and as a prolific solo artist, MARTIN'S sinister beats and swells have been praised since SUICIDE'S legendary 1977 debut album. **MARTIN REV'S** new album *To Live* is perhaps his most innovative and accessible as it mixes his signature pulses, filters, and noise with more melodic and entrancing vocals.

THE DISHES - *"3"*

FT 47 CD

Chicago's **THE DISHES** have recently emerged as one of the most exciting new rock bands. Garage-punk legend Tim Kerr produced 3, and Bill Skibbe, SHELLAC'S sound engineer, engineered and mixed the album. Fans of THE STOOGES, THE YEAH YEAH YEAHS and SLEATER KINNEY will love THE DISHES unique contributions to garage rock.

THE SILENT LEAGUE - *"The Orchestra Has Refused"*



FT 48 CD

The Orchestra, Sadly, Has Refused is the debut from Brooklyn NY's **THE SILENT LEAGUE**. Founded by keyboardist/singer Justin Russo, Russo wrote this album while on tour as the keyboardist for MERCURY REV during the *Deserter Songs* and *All Is Dream* tours [Russo also plays in Hopewell and Grand Mal].

FRONTIER

Founded in 1980, FRONTIER was one of the first independent labels to document the nascent hard-core punk rock scene of Los Angeles, before branching out into other scenes and sounds such as the Paisley Underground and (always) guitar-based bands.

ADOLESCENTS - *"Welcome to Reality"*

FRO 101 **7"**

We've re-issued a limited, numbered quantity of this classic three-song 7" on purple vinyl with fold-over picture sleeve. Also includes the tunes "Things Start Moving" and "Losing Battle."

BEFOUR THREE O'CLOCK - *"Happen Happened"*

FRO 31008 **LP**

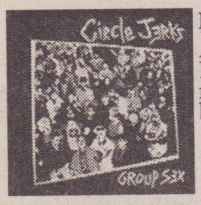
CIRCLE JERKS - *"Group Sex"*



FRO 31002 **LP/CD**

An undisputed classic, the very cornerstone of LA hardcore punk. Fifteen songs in as many minutes (the program repeats) with each one more brilliant than the last!

RIKK AGNEW- *"All by Myself"*

FRO 31009 **LP/CD**

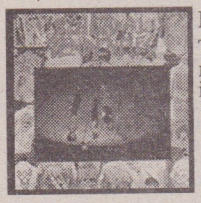
RIKK AGNEW (ADOLESCENTS, CHRISTIAN DEATH) wrote, sang and played every ferocious note on this, his first solo LP. First released in October 1982, the vinyl has been out-of-print since the mid-'80s, then reappeared as bonus tracks on the ADOLESCENTS self-titled CD up until 2000.

ADOLESCENTS - *"Adolescents"*

FRO 31003 **LP/CD**

The original Orange County hardcore kids whose classic hooks and teenage angst ("Amoeba" and "Kids of the Black Hole") paved the way for the mainstream success of OFFSPRING and GREEN DAY. The CD also contains their three-song EP, *Welcome To Reality*.

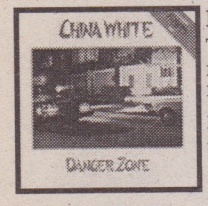
SUICIDAL TENDENCIES - *"Suicidal Tendencies"*



FRO 31011 **LP/CD**

The real deal. THE hardcore punk/heavy metal/skateboard monument that contains the immortal "Institutionalized."

CHINA WHITE/FLYBOYS - *"Dangerzone/Flyboys"*



FRO 31005 **CD**

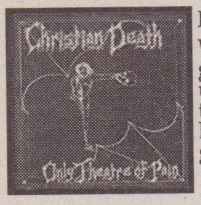
Together on one CD are two of Frontier's earliest releases: the **FLYBOYS** punky pop EP (think male GO-GO's) and **CHINA WHITE**'s *Dangerzone* EP, a legendary snarl of O.C. punk-metal produced by Thom Wilson (OFFSPRING).

THREE O'CLOCK - *"16 Tambourines"*

FRO 31012 **CD**

Michael Quercio, besides writing and singing great songs, coined the very term Paisley Underground! CD contains *Baroque Hoedown* plus a previously unreleased track, "Around the World."

CHRISTIAN DEATH - *"Only Theatre of Pain"*



FRO 31007 **LP/CD**

When singer/poet ROZZ WILLIAMS (RIP) and guitar innovator RIKK AGNEW combined their unholy talents to forge *Only Theatre Of Pain*, they inadvertently spawned the goth movement. Disturbing, disturbed and about as dark as music gets. CD contains bonus tracks.

LONG RYDERS - *"Native Sons"*

FRO 31013 **CD**

Debut album from LA's best-known Paisley Underground act. Country and rock in a completely original way.

THIN WHITE ROPE - *"Exploring the Axis"*

FRO 31015 CD

FINALLY AVAILABLE AGAIN ON CD! THIN WHITE ROPE's debut casts light on the band that's swiftly becoming a legend. Some country-influenced rock and some long, intricate, and devastating songs like the title track. Unclassifiable. CD contains bonus material.

VARIOUS ARTISTS - *"Dangerhouse Vol. 1"*

FRO 31039 LP/CD

Either the A-side or B-side from each of the bands appearing on the long-defunct and most collectable LA punk indie label. With **THE BAGS, X, BLACK RANDY, DEADBEATS, WEIRDOS**, etc.

REDD KROSS - *"Born Innocent"*

FRO 31018 LP/CD

Junque-rock icons **REDD KROSS** re-release an early milestone. The formative years between their punk phase and their ABBA phase. Any TV culture is fair game from Charlie to Linda Blair… You'll never be able to hear again!

WEIRDOS - *"Weird World Volume 1"*

FRO 31040 LP/CD

An absolutely essential collection that proves why the **WEIRDOS** are LA's most important punk band. Every song is either previously unreleased or a different mix even if it's from a 45 or EP. Brilliant!

THIN WHITE ROPE - *"Moonhead"*

FRO 31020 CD

FINALLY AVAILABLE AGAIN ON CD!!... Moonhead is often cited as the definitive **TWR** album. More insanely wiggly guitars and troubled lives. "Crawl, piss, freeze" never seemed more appropriate than it does today.

BEFOUR THREE O'CLOCK *"Happen Happened"*

FRO 31049 CD

Originally released under the name SALVATION ARMY, this was essentially the debut album by Michael Quercio and THE THREE O'CLOCK. The *Happen Happened* CD (FRO 31049) includes the SALVATION ARMY LP, demos and the original versions of their *New Alliance* 45, *Happen Happened* and *Mind Gardens*.

YOUNG FRESH FELLOWS - *"The Men Who Loved Music"*

FRO 31021 CD

PopLlama Products give us our first **YFF** album (the band's third, actually). Super go-go rock with the college radio faves "Hank, Karen and Elvis," "Get Outta My Cave," and "Amy Grant." This CD has the out-of-print *Refreshments* EP plus many other foolishments.

VARIOUS ARTISTS - *"Dangerhouse Volume 2"*

FRO 31050 CD

More classics from the Dangerhouse label's vaults. Also contains previously unreleased songs. Bands include **BAGS, EYES, BLACK RANDY, X, AVENGERS, DILS**, etc.

THIN WHITE ROPE - *"In the Spanish Cave"*

FRO 31027 CD

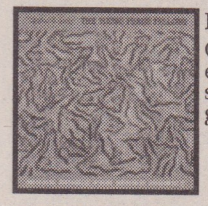
FINALLY AVAILABLE AGAIN ON CD!!... TWR's third effort. Somewhere further along with a few horns, a girl and a synth (uh oh…). Songs that will define their trademark sound such as "Red Sun" and "It's OK" never fail to astound.

HEATMISER - *"Dead Air"*

FRO 31057 LP/CD

Portland, Oregon has been good to us! Punk with soul, melody, two different lead singers and points of view? It is too good to be true. Features ELLIOTT SMITH.

YOUNG FRESH FELLOWS - *"Totally Lost"*



FRO 31028 CD

Chuck Carroll's last stand and the (temporary) end of their "silly" period. The direction is sometimes totally lost, but everything turns out great!

HEATMISER - *"Yellow No. 5"*

FRO 31062 CD EP

An extra special surprise that consists of all non-LP material. "Wake" is re-mixed from the *Cavity Search* single, and the next four are cool as cool can be. Ditto for the cover! Features ELLIOTT SMITH.

YOUNG FRESH FELLOWS - *"This One's for the Ladies"*

FRO 31034 CD

Many people's fave **YFF** album. All that aside, adding guitarist Kurt Bloch sure gave them a new lease on life. With "Taco Wagon" and "Carrothead."

HEATMISER - *"Cop and Speeder"*

FRO 31063 LP/CD

The second **HEATMISER** album is a little sadder but wiser than their debut. Though ELLIOT SMITH and NEIL GUST write from different perspectives, their songs are still brimming with beefy guitars, choppy breaks, and catchy melodies.

MUMMYDOGS - *"Mummydogs"*

FRO 31074 CD

The return of THIN WHITE ROPE's Guy Kyser should be greeted with a frenzied anticipation akin to the second coming of Christ. The **MUMMYDOGS**' sound meanders through BARRY WHITE, ENNIO MORRICONE, delta blues and cracker country, and grungy melodic pop laced with maracas and feedback.

WEIRDOS - *"We Got the Neutron Bomb"*

FRO 31075 LP/CD

In early 1977 the WEIRDOS' mighty sound and singular style were the Big Bang igniting the L.A. punk scene. *We Got the Neutron Bomb* is a collection of rare studio and live recordings from their own private bomb shelter celebrating WEIRDO year 26, proof that great things come to those who wait. There is time, and there is Timeless…

Since 1992 GERN BLANDSTEN RECORDS has been releasing fine musical products for the socially unaccepted.

GARDEN VARIETY - *"Garden Variety"*

GERN 010 CD

This debut full length proves that there are still people listening to bands like MOVING TARGETS, SKUNK and THE REPLACEMENTS. This Long Island 3-piece uses these influences as a base for their own original song structuring and excellent musicianship. The CD also contains their first 7".

CHISEL - *"Nothing New"*

GERN 019 CD

This eight song EP is the bridge that connects the band's early, more frantic years with the song writing powerhouse they were later. Classic tracks established them as forerunners of the most recent mod revival, pleasing punks, mods, emo kids, indie rockers and everything in between. CD contains the *Sunburn* 7" and live tracks.

WESTON - *"A Story Of Teenage*

GERN 013 CD

The biggest selling record on Gern Blandsten is still getting bigger. **WESTON** has toured so many times with every big band imaginable (BOUNCING SOULS, YOUTH BRIGADE, AVAIL, etc.) and they just keep getting bigger. Heavy doses of pop punk mixed with small doses of bands like THE ONLY ONES and NILS.

CHISEL - *"8AM All Day"*

GERN 021 CD

With their direction firmly set, **CHISEL** produced this 14 song classic that drew comparisons with greats of the poppier side of the pantheon, while, due in part to their honest lyrics and riotous live show, managing to retain the full support of their original punk following.

RORSCHACH - *"Autopsy"*

GERN 014 CD

31 songs & 71 minutes of head pounding hardcore. Two LPs, a 7", two split 7"s and some compilation tracks make up the discography of what has become a most influential band in the hardcore/metalcore community.

NATIVE NOD - *"Today Puberty "*

GERN 022 CD

All three 7"s and a comp track compile the existence of a band that some people have claimed were on the fore front of a musical style and started a fire under the asses of many future bands. All that and at the age of only 16. Members went on to do THE VAN PELT, THE LAPSE and THE HOLY CHILDHOOD.

MEREL - *"Discography"*

GERN 016 CD

A 7", a LP, a split 7" and some comp tracks make up the 16 song discography of this early '90s hardcore outfit. Some say they were the forerunners of a musical style, others say NATION OF ULYSSES mixed with some NEOS. Members went on to form RYE COALITION.

WESTON - *"Spiltsville"*

GERN 023 CD

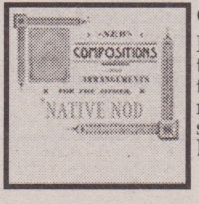
If you only liked the **WESTON** songs on all those split 7"s, or you don't like turning a record over every three minutes or perhaps you don't even own a record player. We have made it simple by compiling all the **WESTON** songs from those four split 7"s, some comps and a cover song or two onto one simple to use CD.

1.6 BAND - *"Broke Up"*

GERN 017 CD

2 7"s, an LP (recorded by WHARTON TIERS, whose previous work includes SONIC YOUTH and BORN AGAINST) and some comp tracks. **1.6 BAND** were the definition of "precise hardcore." Mix DAG NASTY and VICTIMS FAMILY and throw in the singer from legendary NY Hardcore outfit BEYOND.

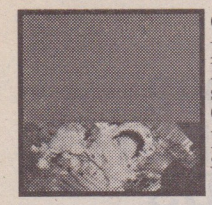
NATIVE NOD - *"Lower G.I. Bleed"*



GERN 024 7"

For the vinyl junkies, Gern Blandsten put these two songs on this limited to 2000 7". Two songs that were written before the *Bread* 7", but recorded after it. This pioneer young emo band spawned members of THE VAN PELT, THE LAPSE and THE HOLY CHILDHOOD.

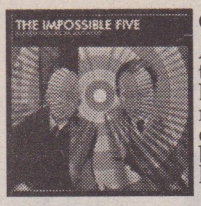
THE VAN PELT - *"Stealing From Thieves"*



GERN 025 CD

Following the demise of two highly influential New Jersey punk rock bands, NATIVE NOD's singer guitar player Chris Leo and GREYHOUSE drummer Neil O'Brien decided to put together THE VAN PELT. THE VAN PELT, a thinking man's VAN HALEN or a punk rock VAN MORRISON?

IMPOSSIBLE FIVE - *"Eleven Hours In Antwerp"*



GERN 032 LP/CD

A healthy concoction of varied influences makes these DC adolescents such a pleasant surprise. Bits of early CURE, RITES OF SPRING, spy music and lounge are all thrown into the mix. The end result is a debut effort that's so strong you'll be scratching your head wondering why you hadn't heard of these guys yet.

THE WORLD/INFERNO FRIENDSHIP SOCIETY- *"Models And Mannequins"*

GERN 026 7"

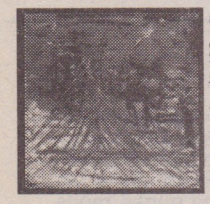
The sounds of **THE INFERNO** are manic, articulate, insistent, and is in NO WAY "rock and roll." The music is ringing, putting traditional instruments into predicaments you never expected they would be in. How will the piano keep up with that time signature? Is that a banjo tuned like a sitar or a broken auto-harp?

CHISEL - *"Set You Free"*

GERN 033 LP/CD

Laden with the hooks you've come to expect from **CHISEL**, but a more complete artistic statement, and a more challenging album than the punk/indie world had seen in a long time. 17 songs!

ALL NATURAL LEMON & *"All Natural Flavors"*



GERN 027 7"

Some might describe this band as a cross between MY BLOODY VALENTINE and STEREOLAB. Varying parts head music, indie, space rock, new wave, post rrrrrr, these are essentially rhythmic songs which do not need to rely on distortion and a myriad of pedals to create an energetic and mesmerizing effect.

THE YAH MOS - *"Undefeated"*

GERN 034 LP/CD

Extra! Extra! It's here! All the screaming kids can zip it. The postumous YAH MOS Undefeated LP/CD is here. This began in 1995-'96, when THE YAH MOS (pre- OUT HUD and !!!) met secretly with Gern Blandsten. Their last recorded material before they all died of mysterious circumstances.

THE WORLD/INFERNO FRIENDSHIP SOCIETY.- *"Our Candidate"*

GERN 028 7"

THE WORLD/INFERNO FRIENDSHIP SOCIETY is here to remind you that Hitler was elected, Democracy breeds bad taste and that no matter who wins, voting makes you complicit in your own chumpdom. Understand? No? All right then, bring on the marching band.

THE WORLD/INFERNO FRIENDSHIP SOCIETY.- *"The True Story "*

GERN 035 LP/CD

THE INFERNO teams up with the Squatter Repetory Theatre Collective of Asheville, North Carolina to write and produce this music. Eight songs plus dialog clips tell the story of an astrally projecting youth crime gang operating out of Central New Jersey during the Reagan administration.

RYE COALITION - *"Hee Saw Dhuh Kaet "*

GERN 029 LP/CD

A glorious result of a rather misspent adolescence which kept **RYE COALITION** on the road and out of school, where they learned to drink, smoke, be irresponsible and avoid getting any type of decent job. Think JESUS LIZARD/BIRTHDAY PARTY/LED ZEPPELIN!!!

ALL NATURAL LEMON & LIME *"Turning Into Small"*

GERN 036 LP/CD

Varying parts head music, indie, space rock, new wave, post shoegaze, these are essentially rhythmic songs which do not need to rely on distortion and a myriad of pedals to create an energetic and mesmerizing effect. Members are now forging ahead in JETT BRANDO and THENTEN.

VAN PELT - *"Sultans Of Sentiment"*

GERN 030 LP/CD

What needs to be said of a band that was begun with former members of NATIVE NOD, GREYHOUSE and BLONDE REDHEAD and since it's demise has had members play in JETS TO BRAZIL, THE LAPSE, and BUTTERFLIES OF LOVE? Well I guess only time will tell, but **THE VAN PELT** made its mark.

THE LAPSE - *"Betrayal!"*

GERN 037 CD

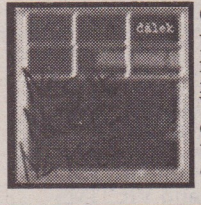
Chris Leo (NATIVE NOD) and Toko Yasuda (BLONDE REDHEAD) of THE VAN PELT create a different and unique voice. Utilizing the talents of Dave Leto (RYE COALITION), the pretty, lush sounds associated with THE VAN PELT don't appear much until the end of the album.

CHISEL - *"Guns Of Meridian Hill"*

GERN 031 7"

Sounding not unlike THE IMPRESSIONS or THE SMALL FACES, with its heart stopping organ riffage and straight—up soul vocals. It's a triumph of sorts, for them and their aesthetic, where in the soul learned from Steve Marriot and Curtis Mayfield, finds communion with legendary punk.

DALEK - *"Negro, Necros, Nekros"*



GERN 038 LP/CD

DALEK offers an alternative by creating a medium of interaction never before experienced, fusing the sounds of groups like FAUST or VELVET UNDERGROUND with the raw energy of ERIC B. & RAKIM. **DALEK** challenges those content with simply head nodding to listen, and be moved.

COMPUTER COUGAR - *"Computer Cougar"*

GERN 039 **7"**

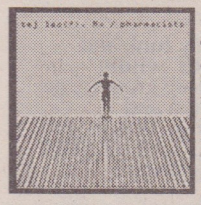
Straying from their previous efforts (RORSCHACH, BORN AGAINST, RADIO TO SATURN, GREYHOUSE) **COMPUTER COUGAR** has set its sights on music that has passed the test of time as a means of influence (THE CLASH, THE POP GROUP, MINUTEMEN, BIG BOYS, THE SOFT BOYS).

RYE COALITION - *"The Lipstick Game"*

GERN 040 **LP/CD**

Rock. That's all that really needs to be said, but for the uninformed I'll dig a little deeper. It's from the hips, dirty sex, LED ZEPPELIN, rolling bass, sharp ear bleeding guitars, BIRTHDAY PARTY (not like a party for you, but the band called the B-DAY PARTY) and low guttural animal like all come to mind.

TEJ LEO/RX PHARMACISTS *"Tej Leo/Rx Pharmacists"*



GERN 041 **LP/CD**

TEJ LEO (CHISEL, THE SIN-EATERS, SPINANES) wrote and recorded a 19 song, hour-long symphony of melody and noise. Picking up where CHISEL left off, **TEJ** goes further into stretching the boundaries of a hook, obscuring it without letting go of it and produces a record that somehow maintains a cohesiveness.

RADIO 4 - *"Radio 4"*

GERN 042 **7"**

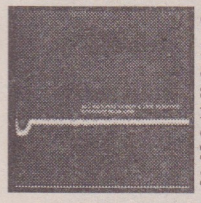
By far the best re-invention of late '70s-early '80s pop-rock-punk. Their music is MISSION OF BURMA-ish, THE REPLACEMENTS-ish, THE STRANGLERS -ish, CURE-ish as well as totally now sounding. Impressive to say the least. Former members of GARDEN VARIETY, MILHOUSE and SLEEPASAURUS.

THE WORLD/INFERNO *"It's Pumpkin Time"*

GERN 043 **7"**

What Is **THE WORLD/INFERNO**? They are your friends! They are your band! With ten standing members playing any range of beautiful instruments, the odds are that you will be able to relate to at least one of them! They do this to make you happy! Popular music needs a deity and that deity is the Great Pumpkin!

ALL NATURAL LEMON & LIME FLAVORS- *"Straight Blue Line"*



GERN 044 **CD**

Straight Blue Line is a compilation of their 3 7"s and a few extra tracks, building lush soundscapes, ambient noise, and beautiful vocal melody, **THE FLAVORS** were ofttimes compared to MY BLOODY VALENTINE, STEREOLAB, PRAM, and other such groundbreaking shoegazer type bands.

THE WORLD/INFERNO *"East Coast Super Sound "*

GERN 045 **CD**

CD collection of the group's four well- received vinyl EPs. The thirteen musicians of **THE WORLD/INFERNO FRIENDSHIP SOCIETY** are all very physically attractive and photograph well. They also possess great personal charm and are well connected in the entertainment field.

JETT BRANDO - *"The Movement Toward You"*

GERN 046 **LP/CD**

An intelligent blend of timeless pop and **BRANDO**'s bold move to perform "remixed" versions of the album's songs live by incorporating "sampling" into the group, while straying away from the tired cliches of modern electronica.

RADIO 4 - *"The New Song And Dance"*

GERN 047 **LP/CD**

RADIO 4 takes cues from the late '70s early '80s post punk scene (AU PAIRS, GANG OF FOUR, MISSION OF BURMA, THE CURE) and combines it with a modern dose of inspiration and style. The music is edgy, melodic and danceable all at once. Produced by Tim O'Heir (SEBADOH, BUFFALO TOM, J. MASCIS).

HOLY CHILDHOOD - *"Up With What I'm Down With"*

GERN 048 **LP/CD**

Up With What I'm Down With, indeed. This debut LP is brimming with what's been brewing in this amoebic ensemble's collective cauldron. They explode the grid with the guilty liberty of Scrabble veterans indulging in an afternoon of Upwords. These songs exalt their own bottoming out like the blues and raise you up like a 'lude.

THE TRANS MEGETTI - *"Fading Left To Completely On"*

GERN 049 **LP/CD**

A torrid night of drinking with THE STOOGES, RADIOHEAD and ELVIS COSTELLO produced the bastard lovechild**THE TRANS MEGETTI**. After Gina, the album's fourth track, with its Clash-ish dub bass and overwhelmingly catchy chorus, you'll probably be thinking that it can't get any better. Go put on some new underwear because it does.

VARIOUS ARTISTS - *"Gern Blandsten:1992-2001"*

GERN 050 **CD**

The best (voted on by the bands) of Gern Blandsten Records 1992-2001 "The First 49." "What is the sound of Gern Blandsten Records?" **THE TRANS MEGETTI, ALL NATURAL LEMON & LIME FLAVORS, WORLD/ INFERNO FRIENDSHIP SOCIETY, WESTON, CHISEL, GARDEN VARIETY, RORSCHACH**, etc...

ALL NATURAL LEMON & LIME...- *"All Natural Flavors CD"*

GERN 051 **CD**

These are the first "official" recordings from 1995. The long-awaited return of **L&L**'s self-released debut, shows "shoegaze"as less of an intrusive specter, with bands like THE SUNDAYS & THE BOO RADLEYS as more prominent influences. Many consider this collection to be their best work.

PILOT TO GUNNER- *"Games At High Speeds"*

GERN 052 **LP/CD**

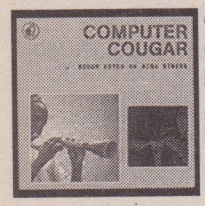
NYC's **Pilot to Gunner** employ chaotic layers of jet-engine guitars and a charged rhythm section to create jagged, complex melodies and charged rock . This debut album ups the ante on its predecessors, making good and blowing apart comparisons to WIRE, MISSION OF BURMA, POLVO, BLUETIP, NATION OF ULLYSSES, and JAWBOX.

RADIO 4- *"Dance To The Underground"*

GERN 053 CD EP

Following the success of **RADIO 4**'s debut LP/CD, *The New Song and Dance*, comes this EP, *Dance To The Underground*. Representing a funkier, more rhythmic side of the band, it's the product of constant touring, writing and rehearsing. Along with *Sink So Low* and *Caroline*, this EP shows the evolution of **RADIO 4**'s sound.

COMPUTER COUGAR - *"Rough Notes On High Stress"*



GERN 054 LP/CD

COMPUTER COUGAR contains members of RORSCHACH, THE TEEN BEATERS, THE BEAUTIFUL SKIN, BORN AGAINST, and GREYHOUSE. Remarked as starting the "New New Wave Wave", they get compared to MISSION OF BURMA, BIG FLAME, PERE UBU, WIRE etc. How good is this record? We're shipping out diapers with every CD and LP.

RORSCHACH - *"Live In Italy 6/18/92"*

GERN 058 CD

RORSCHACH featured future members of DEAD GUY, BEAUTIFUL SKIN, COMPUTER COUGAR, KISS IT GOODBYE, RADIO TO SATURN, AMBUSH, etc. and played a significant role in the shaping of hardcore today. This is a very rare recording of a 1992 live show in Italy. 16 hits and a cover of BLACK FLAG's "My War". See GERN 014 for discography.

ODDATEEE - *"Steely Darkglasses"*

GERN 060 LP/CD

Phenomenal debut from this Bronx born and raised poet/lyricist. In the vein of groups like GANG STARR and TRIBE CALLED QUEST, **ODDATEEE** mixes original beats with intelligent and insightful lyrics.

RADIO 4 - *"Gotham"*

GERN 061 LP/CD

RADIO 4 returns with their sophomore album, *Gotham*. With looping bass lines, scratchy guitars and throbbing beats, **RADIO 4** has made a record akin to the work of PRIMAL SCREAM, JOY DIVISION, and PUBLIC IMAGE LIMITED; a rock-dance hybrid with an agitated heart beating underneath.

THE WORLD/INFERNO FRIENDSHIP SOCIETY- *"Just The Best Party"*

GERN 062 CD

THE WORLD/INFERNO FRIENDSHIP SOCIETY is not a rock band with a horn section; it's a fully-integrated orchestra of young men and women performing for you songs of the wine, freedom and foibles which make life more than waking up and going to work every day.

BIG BOYS - *"Wreck Collection"*

GERN 063 LP DBL/CD

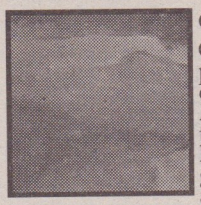
One of the most influential and creative bands to skate its way out of the early 80's Texas underground. This long out-of-print record is a career spanning look at the musical inventiveness of this daring band including outtakes, comp tracks, and live recordings. Featuures new cover art by singer"Biscuit" And lots of bonus material.

CANYON - *"Empty Rooms"*

GERN 064 LP/CD

Lap steel, Hammond organ, harmonica, accordion, and psychedelic guitars are not something you tend to expect from a band based in DC. With subtle winks and nods towards early PINK FLOYD and 70's NEIL YOUNG, the overall sum evokes a giant cinematic background with earnest, direct songwriting in the middle. Ex BLUETIP & BOYS LIFE.

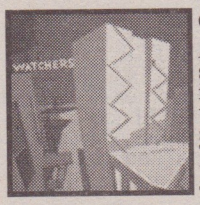
CANYON - *"Canyon"*



GERN 065 CD

CANYON's self-titled debut puts some of the pushpins on the map as to the roads they went down to get to where they are today. Similar to *Empty Rooms*, but decidedly more understated, the band stumble through the hazy back roads looking for signs and stars. Slide and lap steel guitars, accordian, fender rhodes, harmonium and friends light the way.

WATCHERS - *"To The Rooftops"*



GERN 066 LP/CD

An incendiary blast of soul, punk, funk and subterranean rock, **WATCHERS'** wildly inventive debut combines mile-deep grooves, no wave skronk, dub experimentation and soul-drenched strings into a full-on dance party. Think TRENCHMOUTH, A CERTAIN RATIO, POP GROUP, and *Remain In Light*-era TALKING HEADS.

THE MOVIES - *"In One Era Out the Other"*

GERN 067 LP/CD

Hailing from Los Angeles and featuring ex-members of THE VEHICLE BIRTH and PINES OF NOWHERE (*Pines of Nowhere* released on Slowdime). HEROIN - *"Heroin"*

GRAVITY 1 **7"**

Gravity's first release, a 7" by the San Diego, CA band HEROIN. Four hardcore songs. The covers are made from grocery bags. HEROIN has a previous 7" on Vinyl Communications.

HEROIN - *"Heroin"*

GRAVITY 7 **LP**

YOUNG GINNS - *"Young Ginns"*

GRAVITY 3 **7"EP**

A 6-song 7" from this Olympia, WA band featuring Tim Green of NATION OF ULYSSES, Justin and Brandt of UNWOUND and some other guy singing. Not so obviously, it's a bit of mid-period BLACK FLAG with Darby Crash-ish vocals.

ANTIOCH ARROW - *"In Love with Jetts"*

GRAVITY 11 **LP**

Bombastic and dramatic hardcore. Producer Jeff Forrest describes it as a semi sliding down the freeway on its side. This record achieved critical acclaim. The craftily hand-painted, silk-screened cover art is absent on this pressing because, frankly, it's too much of a pain to make.

ANTIOCH ARROW - *"The Lady is a Cat"*

GRAVITY 4 **12"EP**

ANTIOCH ARROW's first release, a furious display of musik non-stop, non-stop. "I'm sorry, but I can't stand still." Covers spraypainted too.

ANGEL HAIR - *"Angel Hair"*

GRAVITY 14 **7"**

Boulder, CO's ANGEL HAIR do four songs on this self-titled 7"EP. Singer Sonny does his best to be heard over the piercing guitars and wailing drums as he cries, "...I sell ice to Eskimos and ass to assholes."

BORN AGAINST/U.O.A. - *"split"*

GRAVITY 5 **7"EP split**

Two good bands do two songs each for this 7"EP split. BORN AGAINST recorded at Bankers Hill while on tour and UNIVERSAL ORDER OF ARMAGEDDON recorded at home.

UNWOUND - *"Unwound"*

GRAVITY 6 **7" etch**

3-song 7"EP from Olympia's UNWOUND of Kill Rock Stars fame. These pre-Sara songs are a bit more raw and straightforward than the UNWOUND of today. The back side painstakingly etched with typewriter keys for that added gimmick.

CLIKATAT IKATOWI - *"Orchestrated and Conducted by..."*

A puzzle made from missing pieces. **CLIKATAT IKATOWI** take things different and make them fit. Members of 411 and HEROIN.

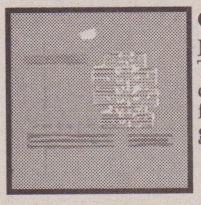
MEN'S RECOVERY PROJECT - *"Normal Man"*

GRAVITY 21* 7"EP

Adam and Brooks of YOUNG PIONEERS help **MRP** complete their transition from an artsy-sophisticate synth act to a shitty European-style thrash outfit. Brutal yesteryear hardcore. Keyboards, no. Songs about Reagan, El Salvador...

THREE MILE PILOT - *"Three Mile Pilot"*



GRAVITY 31 12"EP/CD EP

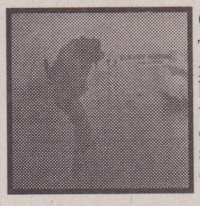
New 4-song EP by the veteran San Diego band. They actually have a unique sound—a sound driven in most part by bass, accompanied by free-flowing drums, good vocals plus minimal guitar and piano, too.

MAN IS THE BASTARD - *"Thoughtless"*

GRAVITY 22* CD

MITB mix tracks of West Coast power-violence with excursions into pure noise. Hunchbacks hissing, loud intricate double bass, mechanical pounding and oscillators by AMPS FOR CHRIST. Andy from NO COMMENT adds vox this time.

CLIKATAT IKATOWI - *"Clikatat Ikatowi"*



GRAVITY 32 12"/CD EP

This post-mortem **CLIKATAT IKATOWI** EP release has five or so good songs done a while back. It was recorded during the band's peak, when they were at their most inspired and original. GSL 63 7"

San Diego trio **KILL ME TOMORROW** play a haunting game of post-punk hide and seek on this new single. Fans of atmospheric dissonance like that of early DEATH IN JUNE and JOY DIVISION will certainly not be disappointed, but **KMT** are far from being a "retro" band - more a unique cross-section of old and new ideas, sort of contemporary and revivalist.

OMEGA CINCO - *"En Su Casa o En La Mia "*

GSL 64 7" EP

Barcelona hardcore quintet fronted by the gravel-throated former E-150 vocalist, Italiano, play a steamroller breed of intelligent hardcore informed by the likes of HEROIN, LOS CRUDOS, AT THE DRIVE-IN and THE LOCUST, replete with Spanish lyrics.

JAGA JAZZIST - *"Animal Chin"*

GSL 65 12"EP/CD EP

The debut U.S. release from Oslo, Norway's critically-acclaimed **JAGA JAZZIST**. The band's sound is a minefield of contrasting textures and styles; the comparisons that come up often include MILES DAVIS, SQUAREPUSHER, TORTOISE, TALK TALK, AND KID 606.

THE VANISHING - *"Songs for Children"*

GSL 66 LP/CD

Early-eighties gothic punk with synth-driven dance rhythms create the most memorable "new wave" hybrid this side of THE FAINT. Born from the ashes of earlier bands like SUBTONIX , THE LIES and ONETECH **they** have rapidly become a SF favorite . 30-plus minutes of high-fidelity, uptempo shock therapy to exorcise even the most stubborn dancefloor demon in you.

JR EWING- *"Ride Paranoia"*

GSL 67 LP/CD

JR EWING are five restless young men from Oslo, Norway. Comparable to bands like DRIVE LIKE JEHU, ANTIOCH ARROW, THE WHO, SHELLAC, etc. with an updated, technically-minded twist, JR EWING's second album, *Ride Paranoia*, is an intense record with a clear and distinct sound, an assault on mainstream "emo" vomit and redundant hardcore.

VAZ - *"Dying to Meet You"*

GSL 68 LP/CD

Pummel-minded NYC duo VAZ unleash their long-rumored GSL debut, *Dying to Meet You*. Recorded over the course of the past two years, mostly in Los Angeles, *Dying to Meet You* is a true monster of an album, packed to the gills with thunderous, unrelenting two-minute traumas to the head. Both members of **VAZ** played in the mid 90s Am Rep band HAMMERHEAD.

A LUNA RED - *"ELKTRK!"*

GSL 69 7"

A LUNA RED hail from Vancouver, BC and wield a shimmering, icy form of electropunk inspired by SKINNY PUPPY, BIG BLACK, COIL, and THE VSS. ALR has earned a reputation as an explosive live act whose convincing rhythms and electronic dance-panic mayhem keeps the kids' perspiring, and coming back for more.

THE STARVATIONS - *"Get Well Soon"*

GSL 70 LP/CD

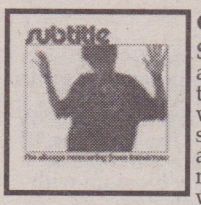
Recalling fellow L.A.-area bands of yesterday like X, THE GUN CLUB, and even the early VANDALS, the band charge through 13 wicked tracks of melancholy, whiskey-stained punk twang on this, their second album. The vivid, end-of-his-rope lyrical aesthetic casts a moody shadow over the band's otherwise raucous noise.

KILL ME TOMORROW - *"Skin's Getting Weird"*

GSL 71 12"EP/CD EP

KILL ME TOMORROW are back with an all-new EP of their propulsive, percussive now-wave. Instantly-recognizable vocalist and standing drummer Zack Wentz wields a soft, almost unbearably relaxed voice reminiscent of the SWANS' Michael Gira, but from the neck down he has more in common with the likes of Keith Moon;

SUBTITLE - *"I'm Always Recovering "*



GSL 72 12" EP/CD EP

SUBTITLE is to hip hop what THE LOCUST are to punk rock - that is, fucking-shit-up, from the inside out. He's spent the last 12 months in a windowless, 8' X 8' storage closet shotgunning soda and bong-hits, crafting beats and samples and basically shunning every established cliche, norm and standard practice relative to what we'd typically call "hip hop".

GOGOGO AIRHEART - *"Love My Life"*

GSL 73 CD

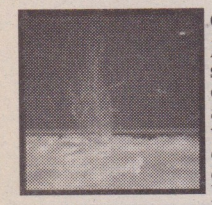
GGGAH's 2nd VC-released album, 1998's *Love My Life, Hate My Friends*, is considered by many to be the band's first great collection of pop-oriented songs, infused with the uppity postpunk angst that has characterized each of the band's varied recordings. Out of print for over two years, GSL is now reissuing this great album.

PLEASURE FOREVER - *"Alter"*

GSL 74 LP ONLY

Alter is the second full-length evolved from their earlier incarnation, SLAVES, and prior to that, THE VSS. Their influences range from classic rock prerequisite such as THE DOORS, LOVE and BLACK SABBATH to flamboyant post-punk like CRIME AND THE CITY SOLUTION and THE SMITHS.

THE MARS VOLTA - *"De-Loused "*



GSL 75 LP DBL COLOR

De-Loused in the Comatorium is a sixty-minute story of fantasy and fiction in which the main character is Cerpin Taxt. He falls into a coma and has an adventure through the different worlds and planets of his subconscious - the dark and the light. Inspired by the life and times of the band's childhood friend Julio Venegas. Produced by Rick Rubin and Omar Rodriguez.

KRMTX (CHROMATICS) - *"Ice Hatchets/Curtains"*

GSL 76 7"

KRMTX is CHROMATICS, short and simple. The change in name reflects an abbreviation in lineup to a duo. The production manages to emulate "dub" without patronizing it, something of a feat in and of itself; meanwhile, the songs retain an acute attention to pop, in spite of their gloomy bass tones, overtly simple rhythms, and at times, unintelligible vocal.

KILL ME TOMORROW - *"Garbageman and Prostitute"*

GSL 77 LP/CD

KILL ME TOMORROW produce what you might call "noir wave": a sort of new wave/no wave, gothic-tinged, industrial, electro-post punk. **KILL ME TOMORROW** have frequently been lauded by critics for their hyper-futuristic, experimental approach to composition and style, influenced by dub, hip-hop and noise as well as the sparsest elements of pop.

SUNSHINE - *"Necromance"*

GSL 78 CD

Czech trio **SUNSHINE** return to GSL for the North American release of their most recent full-length album, *Necromance*. Originally issued in mid-2001 on Europe's Day After Records, *Necromance* has previously been available as an import-only title. This CD also includes 4 bonus tracks - previously available on vinyl only as GSL19 *Astral Love Remixes EP*.

CHROMATICS - *"Plaster Hounds"*

GSL 79 LP/CD

For this full-length release, the dark, ever-turbulent combo have temporarily recruited reknowned percussionist Ron Avila (of GET HUSTLE, HOLY MOLAR, ANTIOCH ARROW and FINAL CONFLICT fame). The resulting 10 tracks, recorded in July 2003 are often-bleak post-punk dirges that frequently blossom with unexpected melody and sophistication.

RHYTHM OF BLACK *"Human Hand, Animal Band"*

GSL 80 CD

GSL is proud to announce the unveiling of the fifth release by Austin, TX's **RHYTHM OF BLACK LINES**, *Human Hand, Animal Band*. The quartet originally formed in 1998, and have been compared to artists ranging from BLONDE REDHEAD and THREE MILE PILOT to RADIOHEAD and PINK FLOYD.

400 BLOWS - *"The Sore Thumb"*

GSL 81 7"

Two new tracks recorded by Frances Miranda (VAZ, THE ICARUS LINE, etc.) in the **400 BLOWS** tradition: taut, relentless grooves, sprinkled with manic, nasal babble... oh yeah! Fans of stuff like ARAB ON RADAR and KARP should check out **400 BLOWS**. Did we mention they were named "Best Punk/Hardcore Band of 2003" by the L.A. Weekly?!

THE HOLY KISS - *"Rising"*

GSL 82 7" DBL

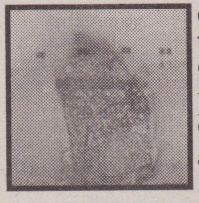
San Francisco's **THE HOLY KISS** consists of three lost souls whose main concern is tapping the blue note at its most eternal. With an unhallowed and sardonic perspective, they search the blues for an answer while giving rock n' roll a well-deserved shot to the head... Their sound has been compared to NICK CAVE AND THE BAD SEEDS and GET HUSTLE.

SUBTITLE (w/OMID)/FREE MORAL AGENTS - *"Leave Home"*

GSL 83 12"EP

L.A.'s **SUBTITLE** strikes back with a warm-up track for his forthcoming full-length assault - this time joining forces with **OMID** (Mush Records). **FREE MORAL AGENTS**, meanwhile, is what organ maestro Ikey Owens from THE MARS VOLTA and DE FACTO does with his free time, creating inspired hip-hop with a distinct jazz-influenced downtempo vibe.

YEAR FUTURE - *"Year Future"*



GSL 84 12"EP/CD EP

YEAR FUTURE is a Los Angeles-based quartet comprised of vocalist Sonny Kay (THE VSS, ANGEL HAIR), guitarist Rockey Crane (DEAD AND GONE, CREEPS ON CANDY), bassist Sam Ott (THE FUCKING ANGELS), and drummer Jim Anderson (THE PATTERN, BLACKFORK, TALK IS POISON).

FREE MORAL AGENTS - *"Everybody's Favorite "*

GSL 85 CD

Isaiah "Ikey" Owens is familiar to many as the flamboyant, boisterous keyboard maestro in THE MARS VOLTA, and DE FACTO. His track record speaks volumes, having also performed in SUBLIME and LONG BEACH DUB ALLSTARS. *Everybody's Favorite Weapon* is a vibrant, colorful journey through the rainbow of sounds lurking within Ikey's brain.

THE RED EYED LEGENDS *"The High I Feel "*

GSL 86 12"EP/CD EP

THE RED EYED LEGENDS is fronted by vocalist Chris Thomson (formerly of CIRCUS LUPUS, MONORCHID, and SKULL CONTROL fame/disdain). Description in one sentence: Waved-out punk meets art damage in the parking lot of a heavy metal show with the treble cranked.

THE VANISHING/SIXTEENS - *"Split"*

GSL 87 12"EP

THE VANISHING'S two new songs are back-to-back with the GSL debut of Berkeley's **SIXTEENS**, also a trio with an affinity for the darker side of life. Comparable to a synth-happy CHRISTIAN DEATH by way of SUICIDE, **SIXTEENS** have been playing around the Bay Area for the past few years, self-releasing a full-length album in the process.

IR 57 CD EP

Art rock hard rock? Is there such a thing? We say it can, and **HARKONEN** alone are the captains of this journey.

PETER SEARCY - *"Couch Songs"*

IR 61 CD

Nearly twenty years ago **PETER SEARCY** was the singer of one of the most important and influential punk bands to come out of Louisville, and the 80's for that matter, SQUIRREL BAIT. *Couch Songs* presents one of the best and most unmistakable voices of the last twenty years of rock music in its most honest and natural state.

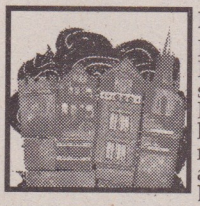
LORDS - *"The House That Lords Built"*



IR 63 CD

From the rotten underbelly of Louisville, Kentucky, **LORDS** has risen. The blasphemous sound erupts from a frenzy of Gibson guitars, Marshall amps, and thunderous pawnshop liberated drums, piloted by four scruffy miscreants. Their songs barely last a minute and a half - rather than getting right to the point **LORDS** runs circles around it.

PAULSON - *"Variations"*

IR 64 CD

No matter what your musical background, you'll find something to love about PAULSON. There's technical innovation, smart lyrics and a list of obscure influences a mile long. A combination of the six songs from Variations (which previously sold over 2,000 as a self-release) plus four new songs, the record is poised to catapult them from the NJ Turnpike to coordinates unknown.

JADE TREE

JADE TREE— putting out punk rock records since 1990.

4 WALLS FALLING - *"Culture Shock"*

JT 1001 **CD**

Our first ever release is more than just a trip down memory lane; it's a politically charged collection of hardcore punk anthems whose relevance never seems to dissipate, even ten years later. There are hundreds of records that "you had to be there" for, but This isn't one of them. A classic.

J CHURCH - *"The Precession of Simulacra "*

JT 1019 **CD**

It seemed like almost every other label in the world had released something **J CHURCH**, and, hey, that's not surprising. Who could pass up releasing new music by one of the Bay Area's longest-running and most-respected pop punk bands? Here is JT's 10" record and they twisted their arm into three exclusive tracks for the CD.

SWIZ - *"With Dave"*

JT 1004 **7"EP**

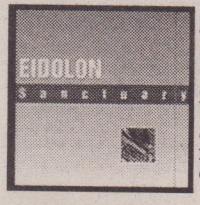
Somewhere in the middle of cementing their place as one of Washington D.C.'s most revered and seminal artists, **SWIZ** managed to churn out this EP for Jade Tree as their final output. And what a way to go. Raspy, abrasive, chaotic post-punk from the Capitol City--the kind that made them famous, only with Dave.

DAMNATION A.D. - *"No More Dreams "*

JT 1020 **LP/CD**

Right when you thought you'd figured out "the Jade Tree sound," they threw this lethal wrench into the machine. Darkness, aggression, sheer adrenaline, and unapologetic muscular riffing sans the machismo, and **DAMNATION** ushered in an updated and skillfully corrupted version of a familiar sound through uncharted territory.

EIDOLON - *"Sanctuary"*



JT 1005 **CD**

Long before the letter E stood for a three-letter curse word that some of your favorite bands still can't manage to utter, it stood for **EIDOLON**, a Boston-based group that was blending hardcore aesthetics with a pop sensibility years before the rest of the world caught on. It's not too late to catch up.

LIFETIME - *"Hello Bastards"*

JT 1021 **CD**

While the majority of bands who comprised early '90s hardcore began disbanding or creatively spent, **LIFETIME** deftly reinvented their sound, style, and substance, made a new home for themselves at Jade Tree, then proceeded to release one of the most influential punk albums of the decade. All that in just a little over a half-hour?

SWIZ - *"No Punches Pulled"*

JT 1009 **CD**

SWIZ blazed a path for future post-punk flag-wavers in only 32 songs and a handful of records, and here, for the first time in one place. Elaborate packaging by **SWIZ** guitarist and respected graphic designer Jason Farrell, countless photos, complete lyrics, and of course, all of the band's classic recordings on one disc.

DAMNATION A.D. - *"Misericordia"*

JT 1025 **CD**

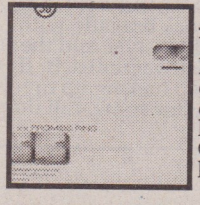
Going for a modified approach to their debut album, **DAMNATION**'s *Misericordia*, is a collection of music that takes its cue from punk rock's pioneers, replacing their metallic sheen with raw power. The CD version has four tracks recorded live for radio before proceeding to tackle a rendition of the GBH classic "Maniac."

UNIVERSAL ORDER OF ARMAGEDDON- *"Symptom"*

JT 1013 **7"EP**

Long out-of-print first pressings of this record were so raw and vicious that even our jaded ears were damaged. Even after remastering, repackaging, and repressing this three-song coup d'etat for an unsuspecting public, and remains the frantic and fucked-up work of art that propelled **UOA** into the basements of America's disenfranchised youth.

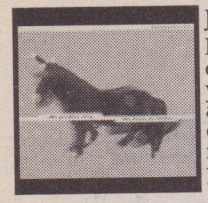
THE PROMISE RING - *"30° Everywhere"*



JT 1026 **LP/CD**

When you're hot, you're hot, and **THE PROMISE RING** were on an unstoppable creative roll as they prepped to release their debut album for Jade Tree and third release in less than a year. This album which gave "Cherry Coke" and "John Taylor" entry into the post-punk lexicon.

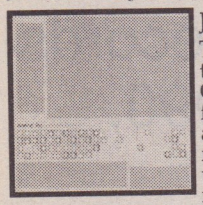
THE PROMISE RING - *"The Horse Latitudes"*



JT 1031 CD

Is a less-than two year existence entirely too early to release an anthology CD? Not when you're **THE PROMISE RING** and you've already chalked up two singles, a split 7", and a couple of new songs that you're just dying to release because it's been only a few months since your debut full-length.

JOAN OF ARC - *"A Portable Model Of"*



JT 1033 CD

The first of several high-flying conceptual works to come from the **JOAN OF ARC** compound. Organic and electronic, ironic and earnest, familiar, yet wholly irregular. It's a balance that allows this Chicago-based group to walk on the fringe without being swallowed by it. You'll end up scratching your head as much as you are nodding it.

LIFETIME - *"Jersey's Best Dancers"*

JT 1034 LP/CD

The final release by one of hardcore's most renowned artists, recreating the invincible formula of their breakthrough album while refining and retaining the progressive and uplifting edge that launched their legend. Every so often there's a band that reminds us how invigorating and relevant the genre can be with passion and sincerity.

THE PROMISE RING - *"Nothing Feels Good"*

JT 1035 LP/CD

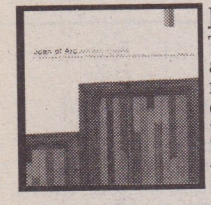
Everyone from *SPIN* Magazine to MTV's Matt Pinfield was marveling over this record. **THE PROMISE RING** themselves were catapulted from the tiny basement scene into the, erm, bigger basement and club scene. And Jade Tree sold millions of records and never had to work again. Well, okay, that isn't true, but, it should be.

CAP'N JAZZ - *"Analphabetapolothology"*

JT 1036 CD DBL

With one full-length album, a handful of singles and compilation tracks, **CAP'N JAZZ's**, *Analphabetapolothology*, compiles 34 songs over two compact discs and spans the band's entire history, six tracks of which are previously unreleased.

JOAN OF ARC - *"How Memory Works"*



JT 1037 LP/CD

The second full-length for this Chicago avant-rock troupe is a diverse collection of material that brings the band dabbling in electro-ambient and finding new inspiration in the studio-as-instrument concept. The startling "This Life Cumulative" and "God Bless America" just plain rock the old fashioned way.

JETS TO BRAZIL - *"Orange Rhyming Dictionary"*

JT 1038 LP DBL/CD

Members of JAWBREAKER, TEXAS IS THE RESAON, and HANDSOME hash out a riveting debut record, braiding punk-rock bravado with a pop consciousness, post-modern style, and the poetic literary flair of Blake Schwarzenbach. If the climactic refrain of "You keep fucking up my life!" doesn't send a shiver to your spine, call the medics.

KID DYNAMITE - *"Kid Dynamite"*

JT 1039 CD

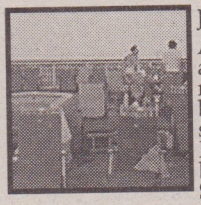
KID DYNAMITE's eponymous debut wants to party like it's 1982. Refined for a post-punk generation, these LIFETIME and INK & DAGGER alumni keep it relevant with a perspective of the past 20 some-odd years, the wisdom of maturity, and a progressive lyrical approach that carries as much responsibility as it does rage.

THE PROMISE RING - *"Boys & Girls"*

JT 1040 7"/CD EP

Three new tracks, including the ever popular, "Tell Everyone We're Dead." A delicate departure from previous efforts, this EP bridges the post-punk **THE PROMISE RING** with the unexceptionable power pop incarnation they had yet to unveil--a tasty mélange that is extraordinary in its own right.

EUPHONE - *"The Calendar of Unlucky*



JT 1041 LP/CD

After a pair of releases, Chicago's **EUPHONE** arrive at Jade Tree with a versatile album so rhythmically heady and intricate, it was hard to believe they were only a duo. As the rhythm section for HEROIC DOSES, drummer Ryan Rapsys and bassist Nick Macri provide a solid backbone for the guitar aerobics of FIVE STYLE's Bill Dolan.

JOAN OF ARC - *"Live in Chicago, 1999"*

JT 1042 LP DBL/CD

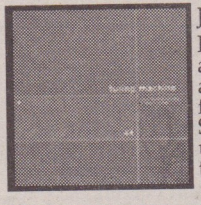
It's not really a live album, but it's certainly an experience. Four months of studio time culminate in thirteen interwoven tracks that ultimately find Tim Kinsella's inceptive lyrical style and primarily acoustic backdrop breathing comfortably alongside the band's well-documented fetish for electronic embellishment. And the album artwork?

THE PROMISE RING - *"Very Emergency"*

JT 1043 LP/CD

The **THE PROMISE RING** usher in over half a decade as a band. They also bring a new noise, using a palette of inspiration that renders depth and revelation to their already distinguished character. *Very Emergency* delivers an appreciation for songcraft and the realization that a great pop record can be both simple and smart.

TURING MACHINE - *"A New Machine For Living"*



JT 1044 LP/CD

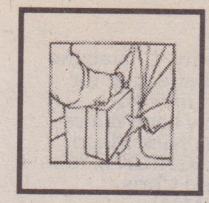
Ex-members of PITCHBLENDE band together for a debut album that pits kraut rock-vs-hard rock and calls it a draw. There's no shortage of fuzzboxes and feistiness over these 7 epic tracks. Sounds as self-contained as it sounds unrestrained. Forget about math rock; the only thing you'll be calculating is the volume.

KID DYNAMITE - *"Shorter, Faster, Louder"*

JT 1045 LP/CD

If they had named their record something else, Jade Tree would tell you how **KID DYNAMITE**'s second and final album is like their first only *Shorter, Faster, and Louder*. But, they beat us to it and now we need to come up with new adjectives for a gloriously no-frills hardcore album so straightforward, precise, and skillfully executed.

PEDRO THE LION - *"Winners Never Quit"*



JT 1046 LP/CD

Following a critically acclaimed debut album, singer/songwriter David Bazan returned to his Seattle home studio to craft *Winners Never Quit*. Stripped down to a voice and a guitar, Bazan is a modern-day folk champion. With a band he loses his timidity and commands attention with an impassioned voice.

JOAN OF ARC - *"The Gap"*

JT 1053 LP/CD

Eight months in the crafting in Casey Rice's (EUPHONE, THE SEA AND CAKE, SUNNY DAY REAL ESTATE) home studio, we find the band juxtaposing more traditional acoustic arrangements against artificial future sounds. With *The Gap* we witness a band evolving and crafting beautiful new territory.

EXPLOSION - *"The Explosion"*

JT 1047 CD SINGLE

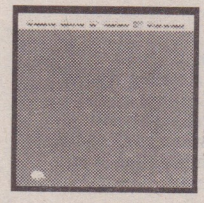
It would probably be cheesy to say these guys "exploded" onto the scene with a style of punk so brash and bratty, you could practically see a snarled lip underneath the musical malcontent. Boston's **EXPLOSION** pack more filth and fury into this six-song call-to-arms than just about any old Oi! Compilation.

EUPHONE - *"Hashin' It Out"*

JT 1054 LP/CD

They're still a duo, but this time, **EUPHONE** bring in the talented guests, Jeremy Jacobsen (THE LONESOME ORGANIST, FIVE STYLE), Tim Kinsella (JOAN OF ARC), and Dan Bitney (ISOTOPE 217, TORTOISE), to augment their unpredictable combination of dub, jazz, rock, electro, and fusion. Horns to synths to Ryan's first-ever vocal.

THE PROMISE RING - *"Electric Pink"*



JT 1048 CD SINGLE

Four new songs by Milwaukee's patron saints of prolificness. "Strictly Television," though originally recorded for the *Very Emergency* sessions, harks back to **THE PROMISE RING** sound of yore, while the remaining three tracks continue in their current power pop tradition.

ZERO ZERO- *"AM Gold"*

JT 1056 LP/CD

ZERO ZERO features three members of LIFETIME: Ari Katz (Vocals), Dave Idea (Guitar), and Scott Golley (Drums). Also the talents of local legend Johnny X (Guitar), John Chladnicek (Bass) and Miss TK (Organ, Vocals). Recorded at their practice space/studio in NJ and produced by the mighty team of James Murphy and Tim Goldsworthy.

TURNING POINT - *"1988-1991"*

JT 1049 CD

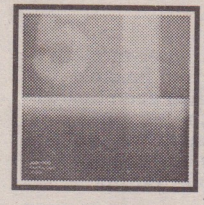
This 39-song discography combines all of **TURNING POINT**'s recorded output, bootlegs, live shows, and compilation material onto one compact disc. If you were there, you'll probably throw on your hoodie and dance around your bedroom like the good ol' days. If you weren't, you'll probably wish you had been.

JOAN OF ARC- *"How Can Any Thing So .."*

JT 1057 CD EP

With the help of Casey Rice (TORTOISE, SEA AND CAKE, EUPHONE) Tim pieced together the last fragments of JOAN OF ARC songs half or barely started during the sessions for The Gap. This EP is the best **JOAN OF ARC** record in many ways.Also see JOA back catalog (JT1053, JT1042, JT1037, JT1033, JT1028) and JT1036 CAP'N JAZZ.

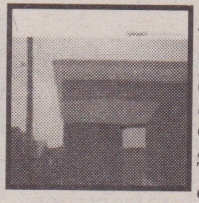
VARIOUS ARTISTS - *"First Five Years"*



JT 1050 CD DBL

After 10 years and 50 records, Jade Tree pays homage to these eleven singles that came when our mailorder catalog was a xeroxed one-sheet and our website was still rumination for science fiction fodder. **GRAVEL, JONES VERY, RAILHED, PITCHBLENDE, EGGS, LESLIE,UNIVERSAL ORDER OF ARMAGEDDON, WALLEYE**, and **EDSEL**.

NEW END ORIGINAL - *"Lukewarm"*



JT 1058 CD SINGLE

Featuring Jonah (ONELINEDRAWING, FAR), Norman, Scott (TEXAS IS THE REASON) and Charlie (CHAMBERLAIN). With their stellar combination of personnel and pop-inspired raw emotional rock, the band wowed audiences across the world, fast becoming one of Jade Tree's most beloved bands and selling upwards of 25,000 records worldwide.

THE EXPLOSION - *"Flash Flash Flash"*

JT 1051 LP/CD

It's more than a record; it's a sonic revolt. Fourteen brand new tracks by Boston's fiercest street punk band since CHOKE was JACK and SPRINGA went metal. The anti-establishment just found their musical middle finger.

OWLS - *"Owls"*

JT 1059 LP/CD

After several years apart, the original lineup of the revered CAP'N JAZZ have reunited to form Chicago's newest art-funk post-rock groove outfit, OWLS. Featuring Tim & Mike Kinsella, Victor Villarreall, and Sam Zurick , OWLS retain the obtuse structures of previous bands while stripping down to rock basics. Recorded by Steve Albini at Electrical Audio.

JETS TO BRAZIL - *"Four Cornered Night"*

JT 1052 LP DBL/CD

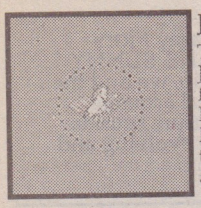
Jade Tree loved *Orange Rhyming Dictionary*, but we dropped our jaws when this one showed up on our doorstep. Along with adding guitarist Brian Maryansky (VAN PELT) to the fold, add dimension, savoir faire, and one hell of a grand piano with a breathtaking new direction, encapsulating classic rock'n'roll with a nod to the Mods underneath a matchless lyrical gift.

STRIKE ANYWHERE - *"Change Is A Sound"*

JT 1060 LP/CD

Richmond, Virginia's **STRIKE ANYWHERE** delivers melodic hardcore with punk rock soul. Fast, catchy, emotional HC and sing-a-long punk in the traditions of FOUR WALLS FALLING, 7 SECONDS, BAD BRAINS, and DAG NASTY.

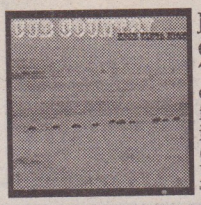
MILEMARKER - *"Anaesthetic"*



JT 1061 LP/CD

The unstoppable **MILEMARKER** return with their Jade Tree debut, their 4th studio album, and second full length recorded with engineer/producer Brian McTernan (CAVE IN, HOT WATER MUSIC, THE EXPLOSION). This new LP pushes their new wave tendencies, and this is their most complex, yet most accessible, album to date.

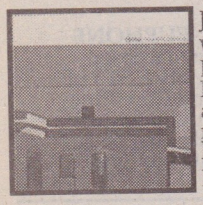
CUB COUNTRY - *"High Uinta High"*



JT 1068 LP/CD

CUB COUNTRY showcases Jeremy Chatelaine 's (JETS TO BRAZIL) talents and affection for country-tinged rock blues. *High Uinta High* features guests including his fellow band mates in JETS TO BRAZIL, J MAJESTY, Nick Macri (EUPHONE), Theo Kogan (LUNACHICKS), John Herguth (THE LOVE SCENE), and Chris Traynor (HELMET, ORANGE 9MM).

NEW END ORIGINAL - *"Thriller"*



JT 1062 LP DBL/CD

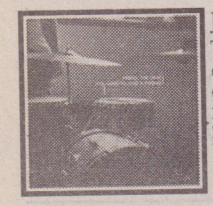
Wildly popular debut album from Jonah of ONE LINE DRAWING and FAR; TEXAS IS THE REASON's Norman Arenas & Scott Winegard; and Charles Walker of CHAMBERLAIN. As raw as it is calculated, *Thriller* Shuffles from high energy hard rock to meticulously crafted pop songs and VELVETS-styled melancholy.

MILEMARKER - *"Frigid Form Sells"*

JT 1069 CD

MILEMARKER'S third album and the one that finally realized the full-scope of the band's potential. **MILEMARKER** combines poignant lyrics and a refined technique that features not only the expected guitar/bass/drum kit, but also carefully crafted keyboard and electronic sections accented by haunting, yet lilting, male and female vocals.

PEDRO THE LION - *"It's Hard to Find a Friend"*



JT 1063 CD

The re-release of PTL's critically acclaimed debut album, originally issued on the now defunct Made In Mexico label. IHTFAF topped many critics lists and was named as one of both Spin and Magnet magazines "10 Best Records You Didn't Hear in 1998". Now remixed, remastered, and repackaged with a brand new layout and lyrics for the first time!

TRIAL BY FIRE - *"Ringing In The Dawn"*

JT 1070 LP/CD

Washington, DC's **TRIAL BY FIRE** play uncomplicated, no frills hardcore of a caliber that is without equal in today's too often stagnant and unimaginative scene. Fervent musical angst and shrewd lyrical observation which harken back to the days when punk meant something more than who has the tightest t-shirt or coolest haircut.

PEDRO THE LION - *"The Only Reason I Feel Secure"*

JT 1064 CD EP

The follow-up EP to PTL's 1998 debut album was originally released in 1999 on the now defunct Made in Mexico label. Remixed, remastered, and repackaged, a new layout and lyrics for the first time.

MY MORNING JACKET/SONGS: OHIA - *"Split"*

JT 1071 CD EP split

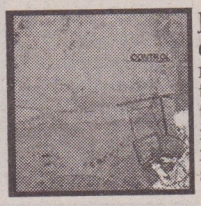
MY MORNING JACKET'S brand of country-rock tent-revival styled jams are so earnestly played that they make a lasting impression-one that sears the songs deep into the soul of the listener. **SONGS: OHIA** performs a 10-minute, two-part song with a dark lord doo-wop coda, and Molina's trademark vocals.

GOOD RIDDANCE/KILL YOUR IDOLS - *"Split"*

JT 1065 CD EP

Jade Tree kicks off its new split CD EP series by pairing two distinguished ambassadors of east and west coast hardcore punk, GOOD RIDDANCE and KILL YOUR IDOLS. 4 songs from GOOD RIDDANCE showcase their rarely heard harder edged side while NYC's KILL YOUR IDOLS provide 3 songs of blazing hardcore with an expanded penchant for melody.

PEDRO THE LION - *"Control"*



JT 1072 LP/CD

Control is the loose, raw tale of a hyper-modern marriage gone wrong. Fans will find Bazan's trademark lyrical wrangling pushed even further to the side of heartache, cheating, misery and fear. The song "Unoriginal", a nasty betrayal is revealed and critics might finally be persuaded to stop labeling the band a quiet, folky outfit.

MIIGHTY FLASHLIGHT - *"Miighty Flashlight"*

JT 1066 LP/CD

Changing a habit of lending his talent to others (ROYAL TRUX, SILVER JEWS, WILL OLDHAM, SMOG), MIIGHTY FLASHLIGHT (aka Mike Fellows/ex RITES OF SPRING) armed himself with an acoustic guitar and his powerbook, evoking an odd and engaging combination of NEIL YOUNG and CHRIS + COSEY.

DENALI - *"Denali"*

DENALI crafts beautifully dark lullabies to sear the soul. This debut album was produced by Mark Linkous & Allen Weatherhead of Sparklehorse.

GIRLS AGAINST BOYS - *"You Can't Fight "*

JT 1074 LP/CD

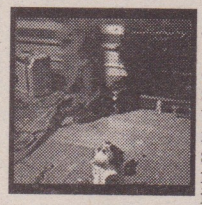
You Can't Fight What You Can't See is the seventh album for **GIRLS AGAINST BOYS**, their first full-length release for Jade Tree and their latest since 1998's lauded *Freak*on*ica* (Geffen). The album's stripped-down, bare-assed rock is as dark, abrasive, and strangely compelling as the band has ever been.

VARIOUS ARTISTS - *"Location Is Everything 1"*

JT 1075 CD DBL

16 of the CD's 23 tracks dip into Jade Tree's catalog of recent and forthcoming releases with songs by JETS TO BRAZIL, DENALI, ONELINEDRAWING (Jonah of NEW END ORIGINAL's solo outfit), STRIKE ANYWHERE, TRIAL BY FIRE, OWLS, EUPHONE and more. Also includes 6 never before released tracks.

ONELINEDRAWING - *"Visitor"*



JT 1076 LP/CD

Visitor continues **ONELINEDRAWING**'s explorations into private music - making the sounds as if you're in the artist's bedroom witnessing a personalized performance made from voice, guitar, bass, feedback, and found sounds. Simultaneously full of joy and marked by melancholy, the music of **ONELINEDRAWING** is ultimately uplifting.

FURY - *"Resurrection"*

JT 1077 CD EP

FURY existed in Washington, DC circa 1989 and featured members of IGNITION, SKULL KONTROL, CIRCUS LUPUS, MONORCHID and SWIZ. Years after the band's demise these songs were released as a limited 7"EP by THD records and are finally available on CD for the first time.

JETS TO BRAZIL - *"Perfecting Loneliness"*

JT 1079 LP DBL/CD

Perfecting Loneliness is the first album from **JETS TO BRAZIL** in over two years. The album is a mirrorball of sound that reflects a clearer, more focused **JETS TO BRAZIL**. *Perfecting Loneliness* represents not so much a continuation of the band's previous gestures, but a better understanding of them.

PAINT IT BLACK - *"CVA"*

JT 1080 LP/CD

The duo of Dan Yemin and Dave Wagenschutz (GOOD RIDDANCE) has helped lead the charge of more than one Philadelphia wave, first in the mid-'90s in the legendary LIFETIME and then again with KID DYNAMITE. Now, reunited in PAINT IT BLACK, the duo is kicking off yet another chapter of passionate and threatening music.

JOAN OF ARC - *"So Much Staying Alive "*

JT 1081 LP/CD

Tim Kinsella (CAP'N JAZZ, OWLS), **JOAN OF ARC**'s lead man, has amassed a collection of songs culled from a variety of sources - home -recorded sketches, collaborations with kindred spirits, odds, sods, and half-fleshed creations - and given them life with help from members of Califone, Isotope 217, and Edith Frost.

ESTER DRANG - *"infinite keys"*

JT 1082 CD

Oklahoma's **ESTER DRANG** has produced a precise and delicate album on their second full-length and Jade Tree debut, *Infinite Keys*. Cinematically inspired and atmospheric, it is a spectral wall of sound that reaches out in several directions at once without losing its central focus, emanating a feeling of timelessness that melds well with its psychedelic elements.

STATISTICS - *"Statistics"*

JT 1083 CD EP

Omaha, NE's all-star **STATISTICS** features DESAPARECIDOS founder, main songwriter and guitarist Denver Dalley. Percolating, hushed electro-pop melded with power-rock dynamics and pure, timeless hooks. Recommended for fans of all things Omaha, SMASHING PUMPKINS, PIXIES and, of course, DESAPARECIDOS.

THESE ARMS ARE *"This is Meant to Hurt"*

JT 1084 CD

Seattle, WA's THESE ARMS ARE SNAKES are poised to spread their venom far and wide. With members who have participated in such Northwestern luminaries as BOTCH, NINEIRONSPITFIRE, and KILL SADIE, THESE ARMS ARE SNAKES' pedigree is only but a touchstone for the band's progressive aggression and passionate chaos.

Titled Jackson, this single features "Ben" and "I'll Be There"..better known as two of Michael Jackson's finer cuts.

STRIKE ANYWHERE - *"Exit English"*

JT 1087 LP/CD

On their second full-length, Richmond's **STRIKE ANYWHERE** completes its formal transition into one of the most compelling and exemplary bands of their era. Rarely does a band challenge its listeners to become part of its collective consciousness with a musical rally to discourse inclusive of direct pop explosions, folk imbued hardcore mantras, and piercing punk manifestos.

FROM ASHES RISE - *"Nightmares"*

JT 1088 LP/CD

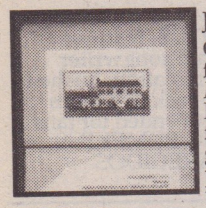
Three full lengths into their career, Portland via Tennessee subversives **FROM ASHES RISE** unleash their most harrowing dissention yet. Armed with anger and backed by achingly severe riffs, unforgiving beats, and ramrod snarls, the band wades through the protests, the thievery, the disillusion, and the ultimate tragedy of the modern world.

DENALI - *"The Instinct"*

JT 1089 LP/CD

Gone are the cold, reserved, atmospheres of the first album, as Richmond's **DENALI** is reborn through more evolved, immediate, impassioned, and enveloping compositions. Recorded at Tarquin Studios with Peter Katis (INTERPOL, MERCURY REV) engineering. **DENALI'S** previous record has sold over 15,000 copies worldwide.

CEX - *"Maryland Mansions"*



JT 1090 CD

CEX'S last two releases received exuberant, fawning praise from no less visible sources *Rolling Stone*, *Spin*, and *Blender*. We now find Kidwell, at the ripe age of 21, dropping his fifth full length to a growing worldwide audience. A groundbreaking mix of glitchtronic hooks, classic party rap, NIN-inspired darkwave crunch topped with loquacious rhymes.

STATISTICS - *"Leave Your Name"*

JT 1091 LP/CD

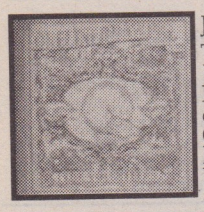
STATISTICS front man (and DESAPARECIDOS songwriter), Denver Dalley refuses to be pinned down to any one style and spans the sonic spectrum with an impressive collection of power pop song craft, steadfast hooks and textural soundscapes. A bittersweet gem, a singular vision, and lays claim to a sound that is very much it's own.

CHALLENGER - *"What They Want"*

JT 1092 LP/CD

CHALLENGER, which features MILEMARKER'S backbone and main creative forces, Al Burian and Dave Laney, is no mere project or one-off, but rather an entirely new group that builds upon MILEMARKER'S intensity, yet offers something wholly different. **CHALLENGER** songs are non-stop, scratchy, fuzzed out affairs of speed driven post-punk.

ONELINEDRAWING - *"The Volunteers"*



JT 1093 LP/CD

The follow-up to 2002's critically acclaimed *Visitor*, **ONELINEDRAWING'S** Jonah Matranga seamlessly integrates the visceral rock of his former bands FAR and NEW END ORIGINAL with the intimate, sharp lyricism that has made him one of the underground's most beloved songwriters. PEDRO THE LION - *"Achilles' Heel"*

JT 1095 CD

Achilles' Heel is crafted as a scathing glance into the crosshairs of the American dream, a heartbreaking sketch of husbandhood and ultimately an exploration of faith as told through eleven perfectly textured vignettes. As sonically mature as it is emotionally complex, *Achilles' Heel* is imbued with the hopeful sadness that only PEDRO THE LION can, and do deliver.

DESPISTADO - *"The Emergency Response"*

JT 1096 CD EP

Canadian prairie-rockers **DESPISTADO** are as much a mix of WIRE'S artful passion as perhaps MODEST MOUSES' steadfast quirk. Squelching guitars, yelping hooks, and a stabbing rhythm section unfurl with the subtly of a steamroller. Angular and driving **DESPISTADO** are just out the gate and already hold court as the band to watch out for in 2004.

www.level-plane.com
pobox 4329 philadelphia pa 19118

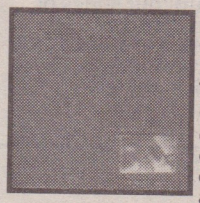
More like the taste of a schizophrenic music lover than an independent label.

THE STATE SECEDES - *"The State Secedes"*

LP 02 LP/CD

Epic debut (and only) release from Long Island's **THE STATE SECEDES.**

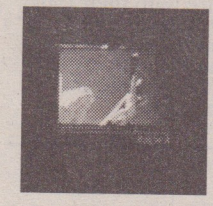
YOU & I - *"The Curtain Falls"*



LP 04 CD

The final recording from this legendary New Jersey band. Combining the greatest aspects of bands like LIFETIME, UNBROKEN, CONVERGE, to name a few, but adding their own style to the mix, more so on this album than on their earlier efforts. **YOU AND I** songs are often quite ecclectic in styles, but they seem to always pull them off so smoothly.

MAKARA - *"The Antique Dream"*



LP 12 7″

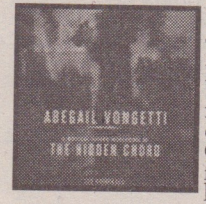
Final four songs from this legendary CA hardcore band. Also includes one track from an old and out-of-print compilation.
Released: February 2001

PG99/CITY OF CATERPILLAR - *"A Split Personality"*

LP 14 7" split

PG99 offers up two gems on this one. A more atmospheric piece that is seriously creepy (in a good way) and a FILTH cover. Sick. This is **CITY OF CATERPILLAR**'s debut release and what a tremendous entry they make. Two tracks that are hypnotic, soothing and, at times, down right scathing.
Released: June 2001

THE HIDDEN CHORD - *"Abegail Vongetti"*



LP 16 12″ EP

This is solid, no gimmicks, no frills rock and roll with plenty of melody and heart. Their blend of BEATLE-inspired rock proves that sometimes not having an overabundance of distortion and caffeinated drumming can be just as powerful. Clever lyrics, enough hooks to catch a school of fish and songs that you can't help but bob your head.

SAETIA - *"A Retrospective"*

LP 20 CD

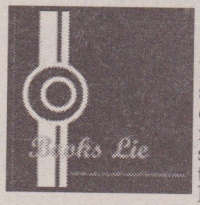
The complete and final CD release from this NYC hardcore band. It contains all 17 studio tracks that the band ever recorded. Five songs from the demo & first 7", nine songs from the LP/CD, and three songs from the last 7". It also contains five live tracks from various shows around the country. Future members of HOT CROSS.
Released: October 2001

PINES OF NOWHERE - *"Pines of Nowhere"*

LP 23 7″

PINES (who feature a member of TRANS AM) play furious and unrelenting rock n' roll in the vein of proto-punk forefathers WIRE and GANG OF FOUR with a dash of DRIVE LIKE JEHU thrown in. These three tracks are succinct and to the point, never overstaying their welcome, but rather leave you wanting more.

BOOKS LIE- *"I Felt Like Such a Loser"*



LP 24 7″

Harsh, honest and ugly hardcore from the Bowels of Brooklyn that sounds like what sugared-up kids might play if weaned on a steady diet of BORN AGAINST. **BOOKS LIE** have focused their guitar attack and have kept their sense of urgency and humor that have become their trademark.
Released: November 2001

FORSTELLA FORD - *"Quietus"*

LP 25 CD

Quietus is **FORSTELLA FORD**'s third full length. It's not merely a collection of songs, but an entire work meant to be taken in all at once. The fury and intensity of past efforts are still there but the songs are allowed to breathe and build, and the result is so much more powerful than anything they've done before.
Released: September 2001

YAGE - *"Yage"*

LP 26 7″

YAGE is a five-piece band from Cologne, Germany. They have been around for about three years and have already released a full-length LP/CD, a 10"/CDEP, and several split and full 7"s. **YAGE**'s music is driving and heartfelt. Their sound draws upon the best bands of hardcore's heyday like 400 YEARS, SHOTMAKER and CURRENT, but they have their own sound.

NORTH OF AMERICA - *"The Sepultura"*

LP 29 CD EP

NORTH OF AMERICA sound like what the bastard son of POLVO and SHOTMAKER might have developed into had they allowed themselves to mature and also incorporated elements of the heyday of Chicago's take on this whole indie, post-everything scene. Great lyrics, odd melodies and a dry wit are are but a few of the many tools in the Les Norts shed.

THE HIDDEN CHORD - *"Captain & His Entourage"*

LP 30 CD EP

THE HIDDEN CHORD come back at us with seven new tracks of urgent and pressing rock n' roll. These songs are definitely head-and-shoulders above the *Abegail* 12". Released: March 2002

TRANSISTOR *"Transistor Transistor"*

LP 32 CD EP

Straight out of New England, this is **TRANSISTOR TRANSISTOR**'s debut EP. They are a tight, fierce unit and kick ass live. Their sheer enthusiasm and sincerity for creating and playing music comes through in every live set and their sound can be described as driving screamy hardcore with rock n' roll sensibilities.

RACEBANNON - *"In the Grips of the Light"*

LP 34 LP DBL ONLY

RACEBANNON have become well-known for their relentless live shows at which they've destroyed nearly every PA they've had direct line to with their evangelical fanaticism. The band is a cross breed of CAPTAIN BEEFHEART's controlled spontaneity, MELVINS and BLUE CHEER-esque sludgy heaviosity, and MELT BANANA-like noisy spazz.

A TRILLION BARNACLE *"The Elemental Gearbot"*

LP 35 CD

RAPIDER THAN HORSEPOWER- *"Stage Fright, Stage Fright"*

LP 58 LP DBL

If you took members of US MAPLE and PAVEMENT, shrunk them into 8 years olds, threw them into a sandbox and let them simmer for about 5 hours, then finally screamed "ICE CREEEAM!" The sounds you would hear these prepubescent, veteran indie-rockers make would be something like **RAPIDER**. This is the first two CDs on one handy 2LP.

GET FUCKED - *"Get Fucked"*

LP 59 10"/CD

Described as "incendiary" and "provocative," South Philadelphia's **GET FUCKED** have done little to allow such comments to get to their head. ANODYNE - *"Lifetime of Gray Skies"*

LP 63 LP/CD

Fusing the energetic punk attack of BLACK FLAG with the ferocious metal delivery of EMPEROR and the dismal perspectives of JOY DIVISION, **ANODYNE** stands out as one of the most original heavy acts today. With production close to home by guitarist/vocalist Mike Hill, the band is able to really shine on recording as they always do in a live format.

AMANDA WOODWARD - *"Decadence de la Decadence"*

COLISEUM - *"Coliseum"*

LP 68 CD

BLACK CROSS guitarist Ryan Patterson grabbed his guitar and a microphone and formed Louisville's newest powerhouse punk outfit, COLISEUM. COLISEUM is unlike anything in Louisville's vast history of punk, hardcore and indie rock - a fast, unyielding colossus of disaffected fury and steadfast punk rock devotion.

Alternatives to music since 1993. No-fi/Hi-NRG rock and costumed shenanigans are house specialties.

THEE HYDROGEN *"Terror, Diplomacy "*

LOAD 010 CD

Terror, Diplomacy and Public Relations is like watching a bully knock a giant down with a sweet punch. It's got screech in the guitars, bump in the bass, and snap in the drums. It's thoroughly a modern record. Reference RADIO BIRDMAN, SCRATCH ACID and LES SAVY FAV.

GERTY FARISH - *"Bulks Up"*

LOAD 016 CD

Two piece casio/guitar spazz core unit. Definitely some wafer-thin guitar damage pushes this release into a real head burn, but the Casio is wooshing and zooming some heavy sonics. It boggles the mind how god damned catchy the songs on this releases are. Like BIG BLACK with more poop jokes. The band comes out of the whole axis of bands related to FAT DAY.

BRAINBOMBS - *"Singles Comp"*

LOAD 019 CD

Compiles singles from this band's long legacy of 7" tracks from their beginning in 1986. Singles are long out-of-print and emerge from your speakers like burlap-wrapped tales of horror. Tales of killing and torture set to truly head-burning STOOGE-churn. A necessary "back to school" choice for your disenfranchised child of choice. Necessary.

MEN'S RECOVERY PROJECT - *"Bolides Over Basra"*

LOAD 020 CD

Three years in the making, this is the band's eleventh release and their first LP. **MRP** founders Neil Burke and Sam McPheeters are joined by SIX FINGER SATELLITE's Jay Ryan and Rick Pelleteir. The sound is a claustrophobic mix of coked-up skronk: think weirdos like the RESIDENTS and CHROME.

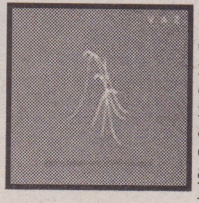
LOAD 032 CD

Sounding more like the BUTTHOLE SURFERS or MEN'S RECOVERY PROJECT than much in rap right now, this one finally makes rap as dangerous musically as you can get. No Big Pimpin' on this, just plenty of skits, damn funny raps, and over the top characters.

VAZ - *"Demonstrations "*



LOAD 033 CD

Originally released in 2000 as an LP-only release, *Demonstrations in Micronesia* drifts down like a fog. The guitar and drums spin tales fraught with doom. Science fictions themes abound on this record. Unbelievable songs combined with spooky otherworldly voices make a record you will not soon forget. Ex-HAMMERHEAD.

BRAINBOMBS/ALEC *"Cheap"*

LOAD 034 12" Split

The *Cheap* EP is not the same adrenalin lust of previous records, and is instead a - slowed-down dirge ala the SWANS or EYEHATEGOD. Still negative and bleak, *Cheap* is a complete bloodbath to clean out your happy world - just speaker - pushing, in-the-red guitar, coupled with distorted bass and inaudible drum crackle .

SIGHTINGS - *"Sightings"*

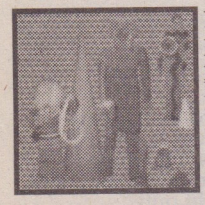
FORCEFIELD - *"Roggabogga"*



LOAD 038 CD

Providence, RI's **FORCEFIELD** play oscillators, primitive drum machines, air drums, and fog horns. Shows are marked by a throbbing mess of sludge chants cemented to the rules of dance-ocracy. Orange Sky Records
(in the Dionysus Records Empire) emulates the briefmoment in pop history when Mod was moving towards Heavy, but hadn't yet become earthy and indulgent. Think 1969 SMALL FACES, Sunset Strip, pre-country BYRDS, LOVE, BUFFALO SPRINGFIELD, scarves and flares, big sunglasses, knee-high boots, and long (yet clean!) hair.
On an **Orange Sky Records** release, you're likely to hear a new band working in a sixties pop, folk-rock, or neo-psychedelia genre.

THE SWINDLERS - *"You're Drivin' Me Wild"*

RIP OFF 020 **7"**

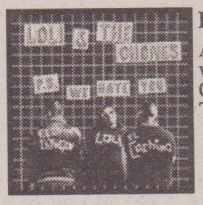
What a life it must be for **THE SWINDLERS**–French, young (only 16) and crazy as hell. These two songs punch you straight in the gut with their raw-as-red-meat vocals and a guitar sound that can only be described as sonic.

THE MOTARDS - *"Kings of Blues"*

RIP OFF 011 **7"**

These Austin, TX guys and gal are legendary, and this record will show you why. Cover art is a rip off of the RIP OFFS' LP back cover with **THE MOTARDS** pissing on a statue of Stevie Ray Vaughn (an Austin hero, but not for this band). The fun doesn't stop there...!

LOLI & THE CHONES - *"P.S. We Hate You"*



RIP OFF 023 **LP/CD**

Are you ready for pure, simple, fun punk rock without sounding like it was recorded at Wimp City? Then listen to Whittier, CA's **LOLI & THE CHONES**.

LOLI & THE CHONES - *"Make Out Party"*

RIP OFF 015 **7"**

You'll know what punk rock is when you buy this record. No lead guitar solos, and the songs barely clock in at a minute each. It's a true punk rock gem.

THE REGISTRATORS - *"T.V. Hell/Vacation"*

RIP OFF 025 **7"**

The kings of the Far East are back with their first release since last year's classic LP, *Terminal Boredom*. Look, what the "T.V. Hell" do you want Rip Off to say about this 7"? Rip Off will make it as clear as a Tokyo sunrise... It's **THE REGISTRATORS**, it rules, end of story.

THE BRIDES - *"Pushed Around"*

RIP OFF 027 **7"**

THE BRIDES put Chicago back on the punk-rock map with their young, loud (gotta say it...snotty) style of music. Take the live attitude of THE DEVIL DOGS, the recorded sound of THE HEARTBREAKERS and you will have an idea of what **THE BRIDES** are all about.

THE INFECTIONS - *"Kill..."*

RIP OFF 028 **CD**

Ever feel like killing somebody? This band thinks you haven't got the guts. Well, they are here to shake up the mediocre punk-rock world with 14 new tunes. Remember, Rip Off Records would never *Double Cross* you!

THE SPASTICS - *"Live!"*

RIP OFF 031 **CD**

THE SPASTICS were recorded live at KZSU at Stanford for a radio broadcast, but this is not the usual fucked-up sounding radio recording... Anyway, **THE SPASTICS** broke up in record time (six months), this is the only document besides the smokin' 7" Rip Off Records put out in 1997.

THE PROBLEMATICS - *"The Kids All Suck"*

RIP OFF 032 **LP/CD**

The band that doesn't understand their own name is back! 12 songs of intricate punk rock, that has people saying this sounds like THE REGISTRATORS if they did an album between Terminal Boredom and 16 Wires. VARIOUS ARTISTS - *"Third Wave of Hits"*

RIP OFF 065 LP/CD

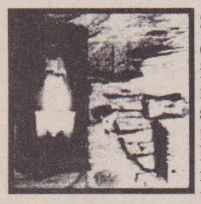
You lucky bastards. This is probably the greatest singles compilation ever assembled. Rare and out of print are the buzz words here. If you love great punk rock, and Rip Off knows you do...Then get your lazy ass down to your usually lame record store and demand they carry this incredible comp!!

SECOND·NATURE RECORDINGS

SECOND NATURE as a burgeoning label with a reputation for musical diversity, honesty and quality.

Fittingly in the course of six years, **SECOND NATURE** has gone from a *document of nothing* to an ongoing *documentation of something truly exceptional.*

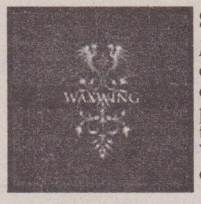
GRADE - *"And Such Is Progress"*



SN 06 **CD**

GRADE's emotional take on hardcore is undeniable in its potency, even in its infancy. Second Nature's reissue of this debut album also includes the *Chancre* seven-inch (originally released on Wheatfield Press), featuring three new songs and a cover of DAVID BOWIE's "Ziggy Stardust,"*And Such Is Progress* is a necessary and vitally important document for anyone unaware of **GRADE**'s beginnings.

WAXWING - *"For Madmen Only"*



SN 013 **LP/CD**

For Madmen Only, is a beautifully involved album of contrasting emotions set against the musical contradictions of both lush acoustic movements and propulsive dramatic rock. Sharing its members with the BLOOD BROTHERS, BUGS IN AMBER, as well as VOTOLATO's solo endeavors has done nothing to diminish **WAXWING**'s dramatic focus.

GET UP KIDS/COALESCE - *"Split 7""*

SN 08 **7" split**

A remarkably divergent split seven-inch release from **THE GET UP KIDS** and **COALESCE**, one where they pay tribute to one another by covering each other's songs.This seven-inch is a successful musical interpretation of disparate musical styles that retains each group's identity; by no means an easy feat.

ISIS - *"The Red Sea"*

SN 014 **CD**

This is **ISIS**' 1998, four-song demo. These four songs are harmful metallic shards driven by their influences (NEUROSIS, GODFLESH, etc.), yet demonstrate **ISIS**'s proficiency and potential. Incorporating nods to both vintage EARTH and the MELVINS, this record marks **ISIS**'s growth beyond that of mere comparisons.

GRADE - *"Separate The Magnets"*

SN 09 **CD**

Canada's **GRADE** were the toast of the underground and *Separate The Magnets* was the album that solidified their claim as the heir apparent to the throne of emotional hardcore. **GRADE**'s dramatic mood shifts and aggressive expulsions eventually even out into one cohesive whole, making *Separate The Magnets* their most effective release.

REGGIE AND THE FULL *"Greatest Hits '84-87"*

SN 015 **LP**

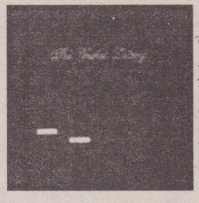
Comprised of equal elements of gut-wrenching music, pop sensibilities, humorous respites and vocal harmonies no drummer should have the right to sing. The remarkable aspect of this album is that while it never takes itself seriously, it still possesses the pathos, energy and honesty to balance its humorous nature.

COALESCE - *"Functioning "*

SN 010 **CD**

Punishing metallic riffs surge and crash, followed by crazed technical runs that throw the proceedings into utter chaos. *Functioning On Impatience* cements **COALESCE**'s place in hardcore like few albums before it or since.

THE CASKET LOTTERY - *"Choose Bronze"*



SN 016 **LP/CD**

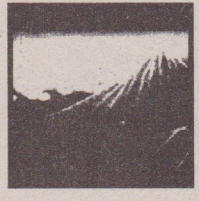
THE CASKET LOTTERY's songs are self-contained journeys, fraught with ebbs and flows, embracing a particularly lush arrangement one moment and embarking upon a noise-inspired hammering the next. *Choose Bronze* is a stunning sonic journey accompanied by startlingly sparse yet effective cover art, belying the music contained within.

COALESCE - *"002:A Safe Place"*

SN 011 **CD**

Originally released on Earache Records, **COALESCE** re-recorded the *002* EP to insure its continued survival and availability. To that end, the two-song *A Safe Place* Second Nature seven-inch was added to the re-recorded *002* to further sweeten the deal. Taken as separate entities, *002: A Safe Place* are indeed formidable offerings. Combined, they are nearly impossible to withstand.

THE CASKET LOTTERY - *"Moving Mountains"*



SN 018 **LP/CD**

Moving Mountains shows **THE CASKET LOTTERY** retaining their rock aesthetics and ability to ride the constant between harsh and mellow, wherever the song leads them. *Moving Mountains* is easily the next step in **THE CASKET LOTTERY**'s seemingly limitless creative growth.

KRAKATOA - *"Chanel Static Blackout"*

SN 019 CD

Channel Static Blackout is a metal album in the truest sense of the word, created and conceived before the current trend of death/black-influenced hardcore that is gaining notoriety. Melodic metal heroes such as IRON MAIDEN, IN FLAMES and the Gothenburg metal movement may make for easy comparisons, but **KRAKATOA**'s identity shines through.

KILL CREEK - *"Colors of Home"*

SN 026 LP/CD

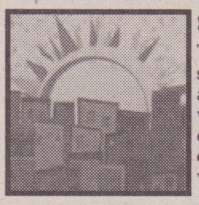
KILL CREEK's sound embodies hook burdened rock, post-slacker lament and brooding, soulful and experimental asides, explosive moments of pure bombastic excess, as well as a stringent detail paid to each song's construction and atmosphere.

KID KILLOWATT - *"Guitar Method"*

SN 020 LP

Comprisaed of CAVE IN mastermind Stephen Brodsky and bassist Adam McGrath, EULCID drum fury Matt Redmond and CONVERGE sonic terrorist Kurt Ballou, *Guitar Method* is the culmination of **KID KILLOWATT'S** existence from 1996 to 1999 and is a remarkable last will and testament.

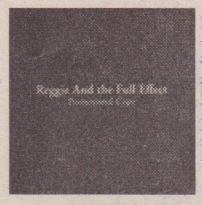
THE HIGHER BURNING *"In Plain Song"*



SN 027 CD

THE HIGHER BURNING FIRE creates ethereal rock sculptures, incorporating acoustic folk, British '70s pop and psychedelic influences into its repertoire, coupled with added orchestrated elements that give increased depth to these twelve tracks. *Plain Song* is an epic, complex and hopelessly catchy offering, for those willing to take it on.

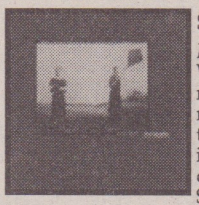
REGGIE AND THE FULL EFFECT - *"Promotional Copy"*



SN 021 LP

Far from a novelty, when each distinct facet of **REGGIE** is interspersed with the other, each becomes even more affecting. How far will **REGGIE** go? If *Promotional Copy* is any indication, only **REGGIE** knows for sure. Features members of THE GET UP KIDS.

ANASARCA - *"Discography 1994-1997"*



SN 028 LP/CD

Discography 1994-1997 collects this short-lived Washington, DC group's two seven-inch and demo recordings in one package, and presents them as memorial to a criminally overlooked hardcore band of the mid-'90s. Their sound leans towards the noisier, indie punk side of the hardcore sphere, sharing commonalties with seminal acts SPARKMARKER and SHOTMAKER.

THE BLOOD BROTHERS - *"This Adultery Is Ripe"*

SN 022 CD

Featuring members of WAXWING, SHARKS KEEP MOVING, the VOGUE and VADE, *This Adultery is Ripe* shares similar allegiances to the spastic howl and crash of the JESUS LIZARD, or the frantic contortions of vintage BLUES EXPLOSION. Noise rock, indie rock, punk rock, above all it rocks with a voracity found wanting in the majority of rock music.

KID KILOWATT - *"Hit Single"*

SN 029 7"

This seven-inch from defunct super-group, **KID KILLOWATT**, is a playful companion to their *Guitar Method* debut full-length, which spans a more emotional context. Featuring "Peeping Tom," from *Guitar Method*, and one unreleased track, "Glass of Shattered Youth."

EULCID - *"The Wind Blew"*

SN 023 LP/CD

A throwback of sorts to the post-rock/punk of early '90s DC-inspired fury and DIY ethos, yet somehow never dating itself. **EULCID** Utilizes layers of melodies, moods and tapestries of sound beneath the initial crash of their fury, interwoven with meticulous playing that is at times restrained and at others nearly frenzied.

THE CASKET LOTTERY - *"Blessed/Cursed"*

SN 030 CD

Limited to 1,500 copies *Blessed/Cursed* features divergent covers of THE CURE and KILL CREEK, ("Six Different Ways" and "Best Man," respectively) as well as one brand new offering, "Blessed/Cursed." Previously only available through the label and the band!

WAXWING - *"One For The Ride"*

SN 024 CD

One For The Ride once again harnesses ROCKY VOTOLATO's smooth, morose, world-weary vocals, coupling them with **WAXWING**'s effortless ability to mine different facets of rock's landscape, usually in a more restrained and introspective manner. Produced by the renowned Matt Bayles (BOTCH, THE BLOOD BROTHERS, etc.).

THE CASKET LOTTERY - *"Survival Is For Cowards"*

SN 031 LP/CD

One of **THE CASKET LOTTERY**'s greatest attributes is their incorporation of flailing dynamics and serene passages, which constantly contrasts between sonorous moments of contemplation and aggressive eruptions. Emo, indie, math, rock? **THE CASKET LOTTERY** eschews defined categories, incorporating touchstones yet exceeding their limitations.

VARIOUS ARTISTS - *"This Changes Everything"*

SN 025 CD

Features tracks by **KID KILOWATT, THE CASKET LOTTERY, COALESCE, EULCID, KILL CREEK, GRADE, THE HIGHER BURNING FIRE, WAXWING, ANASARCA, REGGIE AND THE FULL EFFECT,** and more. *This Changes Everything* is an eclectic and varied overview of the journey so far.

WAXWING - *"Intervention:Collection "*

SN 032 CD

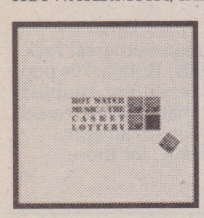
Intervention: Collection + Remix is comprised of previously released **WAXWING** gems, unreleased live tracks, covers and a lone remix. **WAXWING**'s most eclectic yet, contradictorily, unabashed rock release to date.

ROCKY VOTOLATO - *"Burning My Travels Clean"*

SN 034 LP/CD

Known as "the voice" behind WAXWING's powerfully lucid excursions and soundscapes, *Burning My Travels Clean* is by nature a different animal, even as it ephemerally recalls WAXWING's most somnambulant moments. *Burning My Travels Clean* is eleven mournful, morose and haunting songs that showcase **ROCKY** as more than just another singer-songwriter.

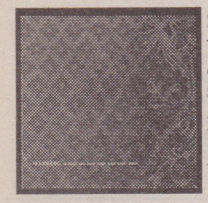
HOT WATER MUSIC/CASKET LOTTERY- *"Colors, Words, and Dreams"*



SN 036 7" split

HOT WATER MUSIC and **THE CASKET LOTTERY** come together to pay tribute to the criminally overlooked GOVERNMENT ISSUE. **THE CASKET LOTTERY** begin the tribute with their take on GOVERNMENT ISSUE's "For Ever." **HOT WATER MUSIC** convey pure hardcore punk ethos, and the competent yet sloppy playing, faux vocal accent and the simple yet effective chorus of "Jaded Eyes."

WAXWING - *"Nobody Can Take "*



SN 037 CD

With their third full-length, **WAXWING** focus on a harder musical thread not this insistent since their debut full-length, *For Madmen Only*. *Nobody Can Take What Everybody Owns* is unquestionably **WAXWING**'s most linear and aggressive work to date. Members of THE BLOOD BROTHERS and ROCKY VOTOLATO.

SMALL BROWN BIKE/THE CASKET LOTTERY - *"Small Brown /Casket Lottery"*

SN 038 10"/CD

Almost two-and-a-half years in its creation, the **SMALL BROWN BIKE/THE CASKET LOTTERY** *Riding With Death* EP isn't another split release of throwaway songs, but a six-song collaborative effort in the truest sense.

VARIOUS ARTISTS - *"Composed on Bicycles ."*

SN 039 CD

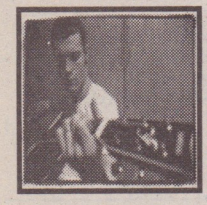
Each year, HOLIDAY MATINEE PR provides a CD compilation that has been tagged "essential" for anyone who loves independent music. *Composed...* offers a well-rounded introduction to some of the most talented indie bands around at the moment. Songs by **GLORIA RECORD, WAXWING, TRACK STAR, SUPERDRAG, CASKET LOTTERY** etc.

THE BLOOD BROTHERS - *"Burn, Piano Island, Burn"*

SN 040 LP

Produced by Ross Robinson (AT THE DRIVE-IN, GLASSJAW, SEPULTURA), **THE BLOOD BROTHERS** follow up *March On Electric Children* with a delivery of spastic but catchy indie/noise rock'n'roll driven by manic dual vocals and dissonant yet melodic riffs. Stunninga gatefold jacket with a full color 16-page booklet.

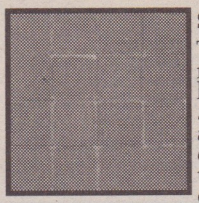
ROCKY VOTOLATO - *"The Light and the Sound"*



SN 041 CDEP

The first EP from **ROCKY VOTOLATO**'s sophomore full-length, *Suicide Medicine* . Four exquisite tracks of **VOTOLATO**'s painfully evocative but beautiful acoustic explorations. Exquisitely heartfelt singing demonstrate why the current trend of "emo" singer/songwriters simply can't touch **VOTOLATO**'s honesty craftsmanship and conviction.

ROCKY VOTOLATO - *"Suicide Medicine"*



SN 042 CD

The golden voice behind WAXWING's poignant rock crusade, **ROCKY VOTOLATO** unleashes his second solo full-length for Second Nature, *Suicide Medicine*. Laden with sombre ballads and acoustic laments intertwined with more driving fare, **VOTOLATO**'s richly unmistakable voice guides, soars over and caresses these 12 tracks.

ILYA - *"Poise Is the Architect"*

SN 043 CD

Emerging out of the vibrant San Diego underground, **ILYA** creates languishing and soothing musical textures that tap into the subconscious stream of thought. **ILYA**'s full-length debut conveys sounds and styles that are quiet and haunting one moment, a wall of sound and explosive percussion the next.

CASKET LOTTERY - *"Possibilities"*

SN 044 CD

Possiblies and Maybes takes a retrospective look at the band's growth and accomplishments, while touching on the present with it's offering of six new, unreleased tracks. Possiblies and Maybes is a comprehensive documentation of THE CASKET LOTTERY's "odds and ends" songs, conveniently packaged on CD format, complete with liner notes, lyrics, and photos.

LIVING SCIENCE *"Last Call for Nightfall "*

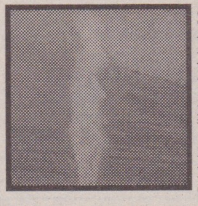
Los Angeles' **LIVING SCIENCE FOUNDATION** formed in the summer of 2002 and have created a unique hybrid of punk, dub, psychedelic rock and orchestrated noise. Members of JUHL, SUBPOENA THE PAST (GSL), THE COUNT, and KEYSTONE.

THE BLOOD BROTHERS - *"Ambulance vs. Ambulance"*

SN 047 7"

THE BLOOD BROTHERS' unsettling first single, repackaged, with an unreleased B-side – the stabbing, jerking, "Pink Tarantulas." Produced by Ross Robinson (GLASSJAW, SEPULTURA, AT THE DRIVE IN). Served on several colors of limited edition vinyl, kinda like they could make a really huge bowl of Fruity Pebbles.

THE BELLES - *"Idle Acres"*



SN 048 CD

Prospering at home between the flint hills and wheat fields of their native Kansas, **THE BELLES** are a two-piece (give or take a few friends) born of the underrepresented elements of Lawrence's music scene. **THE BELLES** include former members of NEW AMSTERDAMS and members of THE FIGGS and THE APPLESEED CAST as guest musicians.

BLUSOM - *"Go Slowly All the Way"*

SN 049 CD

Denver-based, BLUSOM (pronounced "Blue-Some") is the unique duo of Jme White and Mike Behrenhausen, veterans of the music scene who have recorded and toured with previous bands JUHL, ACROBAT DOWN and MARACA FIVE-O. It's as one journalist described, "like SUPERCHUNK meeting RADIOHEAD in APHEX TWIN's tanning booth."

KILL CREEK - *"The Will to Strike"*

SN 051 CD DBL

Since 1986, **KILL CREEK** has been a fixture in and a major influence on the Lawrence, Kansas/Kansas City music scenes. *The Will To Strike* is a document of **KILL CREEK**'s unmistakable catalog, and a testimony to 17 years of music.

SN 053 CD EP

As their final planned release, *Smoke and Mirrors* brings **THE CASKET LOTTERY** back to the studio with the ever-present Ed Rose (THE GET UP KIDS, COALESCE, REGGIE AND THE FULL EFFECT) for four new songs that reflect passionately on the breadth of their pioneering angular, arduous, and melodic five-year history.

SEELAND

You've found the sound of found sound. **SEELAND RECORDS** is the home of NEGATIVLAND and much more...

NEGATIVLAND - *"Points"*

SEELAND 002 CD

This is their hard-to-find second album, originally released in 1981. Long out of print, these are more early noise/music/text/loop pieces from the formative years of the now highly litigated four (or five) floptops. Remastered and sounding better than ever.

NEGATIVLAND - *"Fair Use"*

SEELAND 013 CD w/256-page

NEGATIVLAND's huge revised book/CD on the now-settled lawsuits over their *U2* single. The whole story of creative appropriation and the antique laws used against it by misguided music execs. CD has 45 min. of new material.

NEGATIVLAND - *"Over the Edge 1: Jamcon '84"*

SEELAND 004 CD

Illegal radio antics abound as Crosley Bendix hosts the first jammers' convention and defines "cultural jamming." With two other shows from the same mid-'80s time frame: **NEGATIVLAND**'s *4th of July Picnic* and *Body English*.

NEGATIVLAND - *"Over the Edge Vol. 2"*

SEELAND 016 CD

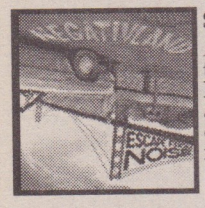
NEGATIVLAND - *"Escape From Noise"*



SEELAND 006 CD

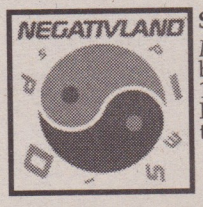
NEGATIVLAND - *"DISPEPSI"*



SEELAND 017 CD

DISPEPSI is **NEGATIVLAND**'s first brand-new stand-alone studio recording since 1993's *Free*. This CD is all about **NEGATIVLAND**'s favorite soft drink...and they're not talking club soda!! Brilliant.

BOB OSTERTAG - *"Verbatim Flesh & Blood"*

SEELAND 512 CD

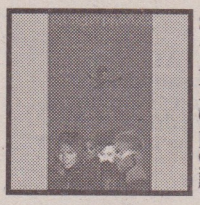
The fourth and final CD in **BOB OSTERTAG**'s 7-year "Say No More" series. This project is, without exaggeration, unique in the history of music. Featuring four virtuosos, but the group coexists with a digital mirror of itself. Changing form as it becomes virtual, then flesh and blood, then virtual again.

BOB OSTERTAG - *"Sooner Or Later"*

SEELAND 514 CD

The sounds are all from one recording of a young boy in El Salvador burying his father, who had been killed by El Salvador's US-backed army. There is the sound of the boy,Âôs voice, digging the grave as it strikes stone and dirt, and a fly buzzing nearby. Excruciatingly sad, it is also unbelievably beautiful.

PLUNDERPHONICS- *"69 Plunderphonics 96"*



SEELAND 515 CD DBL/Book

11 years after Michael Jackson forced a halt to this wild...brilliant package, **PLUNDERPHONICS** is back. 5-dozen tracks on 2 discs in this 27 year retrospective box set packed with legendary and previously banned cuts, including the first rap song ever, the first jungle track plus never-before-heard material.

BOB OSTERTAG- *"Getting A Head"*

Originally released 21 years ago as an LP, the 1,000-copy run quickly disappeared into the abyss of the collectors item.

BOB OSTERTAG - *"Say No More Volumes 1 & 2"*

SEELAND 521 CD DBL

This project is, without exaggeration, unique in the history of music: a virtuoso quartet that co-exists with a digital mirror of itself.These are re-issues of out of print titles long unavailable and never available together, packaged in a beautiful hand silk-screened steel box with color inserts. The presentation is as original and elegant as the music.

BOB OSTERTAG - *"Say No More Volumes 3 & 4"*

SEELAND 522 CD DBL

This project is unique in the history of music: First musicians went into studios and separately recorded improvisations. Then Ostertag exploded the solos into fragments . The musicans then learned the 'new' compositions, and recorded a live CD (#2). He then put the recording back into the computer, and made a new work (#3). The group then recorded recorded this piece! (#4)

SLEEPYTIME GORILLA MUSEUM - *"Grand Opening and Closing"*

SEELAND 523 CD

This MUSEUM is actually a brilliant bay area supergroup of sorts (including members of IDIOT FLESH, TIN HAT TRIO and others) belching forth an ominous musical stew between early KING CRIMSON and THE RESIDENTS. Progressive, percussive, theatrical, toy-piano, homemade- instrument doom metal?

XEROPHONICS - *"Xerophonics"*

SEELAND 524 **CD**

Recombining the sampled sounds of copying machines, ***Xerophonics*** delivers an extended pun on sampling itself, copying the sound of copying. Fans of the cut-up, reorganized sounds of CHRISTIAN MARCLAY; STOCK, HAUSEN, and WALKMAN; and NEGATIVLAND will enjoy these sonic x-rays of the ghosts in photocopying machines.

MONO PAUSE/AAVIKKO - *"El Cebo b/w Of Stomping*

SEELAND 525 **7" split**

BOB OSTERTAG - *"DJ of the Month"*

SEELAND 526 **CD**

DJ of the Month is **BOB OSTERTAG**'s second volume of solo electronic improvsation. Is he sampling? Manipulating turntables? Playing a synthesizer? To tell the truth, we don't really know, and neither will you. But he is playing it live, and it sure sounds cool.

THE EVOLUTION CONTROL *"Plagiarhythm Nation v2.0"*

SEELAND 527 **CD**

THE ECC evolved the world of music as the grandfathers of the BASTARD POP craze that swarmed the UK in 2002 with their duet of CHUCK D. (PUBLIC ENEMY) and HERB ALPERT, which got **THE ECC**'s name appearing in *The New York Times, Rolling Stone, Spin,* and elsewhere. Many bands get MTV play, but how many have C-SPAN in their credits?

POREST - *"Prude Juice "*

SEELAND 528 **CD**

The debut album from Bay Area-based composer and audio documentarian, **POREST**. *Prude Juice for the Heritage Swinger* is a collection of carefully-arranged sound weavings variously employing cut-ups, music and field recordings, and is stacked with snappy plunderphonics, exploitative pop tunes, paranormal suites, loops, drones and imaginary radio dramas.

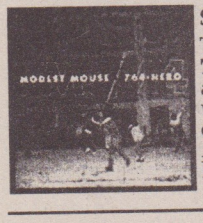
764- HERO - *"We're Solids"*

S 006 **CD EP**

Seven songs that follow up the band's first full length. Not only the perfect driving songs, but the perfect songs to feel like someone is listening to you.

MODEST *"Whenever You See Fit"*



S 008 **CD split**

The result of a national tour together: **764-HERO** and **MODEST MOUSE** team up and attack the song, "Whenever You See Fit," which includes two nasty remixes done by none other than DJ DYNOMITE and SIENTIFIC AMERICAN. No, this is not a typo, DJ DYNOMITE and SIENTIFIC AMERICAN.

RED STARS THEORY - *"Red Stars Theory"*

S 014 **CD EP**

In 1995, **RED STARS THEORY** released a 10" on Deluxe and a 7" on RxRemedy. A compiation of both releases. HELLA - *"Bitches Ain't Shit "*

S 026 12" EP/CD EP

Experimental noise rock heroes HELLA follow in a long tradition (from CAPTAIN BEEFHEART to DON CABALLERO to TRANS AM to LIGHTNING BOLT) of music-making madness with their two-piece rock. Four new tracks of blurring proficiency that will make you swear these two men are secretly hiding an army of guitars and drum lines behind the curtain!

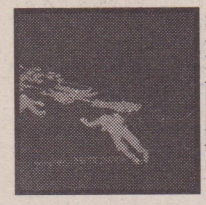
HINT HINT - *"Young Days"*



S 035 CD

HINT HINT'S first long-player makes good on the promise made by hype surrounding the NW band since their first few shows and debut EP. *Young Days* is a dark and brainy record with jerking, quirky dance grooves soaked deep in paranoia. A fine new addition to the dance-punk craze, **HINT HINT** is a touch more sinister, a tad more heavy, and certainly more on-edge.

WE RAGAZZI - *"Wolves With Pretty Lips"*

S 036 CD

Brooklyn-by-way-of-Chicago three-piece **WE RAGAZZI** return with their signature mish-mash take on dirty garage punk, dancing disco-clash, and sexy modern drone made possible by eerie organ steps, grooving and rolling drums, and the blaring ring of guitar. **WE RAGAZZI**'S third full-length record, and deliver their best-by-far album to date!

A means to put out my own records and my complete and utter salvation.

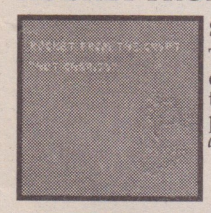
PITCHFORK - *"Eucalyptus"*

SWA 116 CD

PITCHFORK was the band before DRIVE LIKE JEHU, ROCKET FROM THE CRYPT, and, before Rick picked up a guitar and John Reis turned Speedo and started to sing. *Eucalyptus* (originally released on the hardcore label Nemesis) was deemed a quintessential slice of pre-gold rush post-punk, melodic, and indie stylings. Includes the band's debut 7".

ROCKET FROM THE CRYPT *"Hot Charity/Cut and Play"*



SWA 112 CD

Two of **ROCKET FROM THE CRYPT**'s most elusive vinyl-only releases together for the first time on one CD: 1995's *Hot Charity* LP (out of print) and the 1999 6-song 12" *Cut Carefully and Play*.

VARIOUS ARTISTS - *"Swami Sound System Vol. 1"*

THE TESTORS - *"The Testors 1976-79"*

SWA 118 LP DBL/CD

Formed NYC in 1975 at the heart of what became punk rock as we know it today. They were loud, raw as fuck, and didn't give a shit about anybody but themselves. While contemporaries the RAMONES, BLONDIE, and the HEARTBREAKERS were making history, **THE TESTORS** were lighting clubs on fire. 37 songs and 10 never-before-heard tracks.

BEEHIVE AND THE BARRACUDAS - *"Plastic Soul With The White*

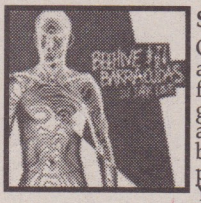
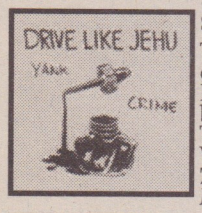
BEEHIVE AND THE BARRACUDAS *"In Dark Love"*



SWA 119 LP/CD

On their 3rd record, BEEHIVE is submerged in an array of confrontational and uncomfortable frequencies. The sound is that of plastique guitars digging into an ovulating pulse of bass and synths, fueled by a percussive commotion, boy-girl tandem vocal that asks permission to penetrate. Produced by Gar (HOT SNAKES). Yet another masterpiece from the pyres of San

DRIVE LIKE JEHU - *"Yank Crime"*



SWA 115 CD

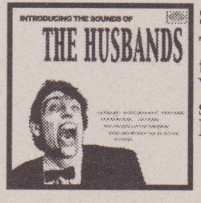
THE HUSBANDS *"Introducing the Husbands"*



SWA 120 LP/CD

THE HUSBANDS sound might be described as that of a 60s girl soul group back by CRIME. Violently executed beats and fresh slicing guitar skree. Recorded in San Diego by Swami John Reis of ROCKET FROM THE CRYPT.

DAN SARTAIN *" vs. The Serpentientes"*

SWA 121 CD

Dan Sartain VS. The Serpientes is the Swami debut for this 21-year-old Birmingham, Alabama heartthrob. He can croon with the best of them and can really tear it up when he wants as well. His sound is similar to a fusion of HANK WILLIAMS and JONATHAN RICHMAN.

THE SULTANS - *"Shipwrecked"*

SWA 122 CD

After 2 years **THE SULTANS** finally follow up their critically overlooked and criminally underappreciated debut with *Shipwrecked*, an amalgam of simplistic chord thuggery and late 70's power pop sheen. Immersed in the sounds of THE NERVES (LA), THE SAINTS, RAMONES, TESTORS and THE KIDS, THE SULTANS reinvent themselves as lovesick vermin.

THE DEMOLITION DOLLRODS - *"ON"*

SWA 123 LP/CD

Brothers and sisters, boys and girls, if you want your hair to stand on end or bust a curl, **THE DEMOLITION DOLLRODS** are here once again to rock your world. ROCKET FROM THE CRYPT *"Circa Now! "*

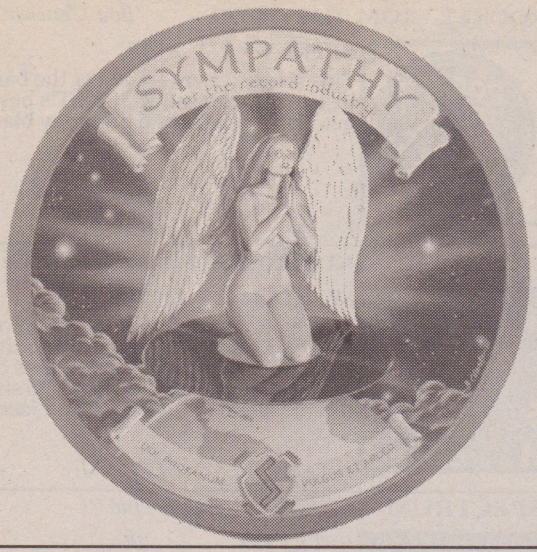
SWA 125 CD

This reissue of *Circa Now!* boasts improved mastering off of the 1/4 inch transfers, packaging with more photos of the band during this era, and 4 more songs that were not included on the original release and have never been issued until now. For those who prefer the prepubescent inclinations of **ROCKET**, this is the album that speaks to them. ROCKET'S 2nd CD, circa 1993.



"I saw the best minds
of my generation
destroyed by
a lack of Sympathy."
—LGJ

Fractured folk, hardcore jazz,
hybrid blues,
gratuitous pop, punk rock and
uneasy listening. **SYMPATHY
FOR THE RECORD
INDUSTRY**
—a name you can
pronounce since 1988.

THE LAZY COWGIRLS - *"Radio Cowgirl"*

SFTRI 001 CD

The first Sympathy release, the one that started this whole sordid mess. Recorded live, this accurately documents the unrelenting force that the **COWGIRLS** are as a live band. Bonus: includes all the Sympathy singles tracks!

CHEATER SLICKS - *"You Don't Satisfy"*

SFTRI 97 7"

A minimalist garage band from Massachusetts. Stripped bare music. In fact, by comparison to "garage" bands, these guys should be called "bathroom."

HOLE - *"Retard Girl"*

SFTRI 53 7"EP/CD

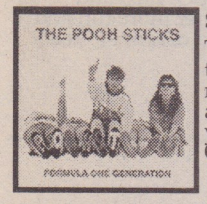
Throaty, raspy female vocals are belted out in a garagey-dirgey way (side A) and then in a garagey-thrashy way (side B). Outta Hollywood. This is the single that started it all... Their debut.

SUPERSUCKERS - *"Saddle Tramp"*

SFTRI 113 7"EP

Ground pounding, hemi-hogging, kick-in-your-teeth fucking rock'n'roll.

THE POOH STICKS - *"Formula One Generation"*



SFTRI 58 CD

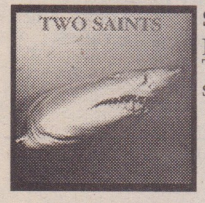
This is **THE POOH STICKS** at the height of their bubblegum phase. This was the first of their records to be released in the states (1990) and attracted the attention of the majors. If you like your pop bright-eyed you'll get off on "Formula One."

CLAW HAMMER - *"Q: Are We Not Men?*

SFTRI 119 CD

The **CLAW HAMMER** remake of the album that helped shape their feeble little brains! A remarkable tribute recorded live to 2-track in one drunken PM. Head DEVO honcho Mark Mothersbaugh was so impressed he wrote liner notes!

TWO SAINTS - *"Lost at Sea"*



SFTRI 70 7"EP

Known for doing back-up for JOHNNY THUNDERS, this band plays some straight-ahead rock'n'roll. Three songs.

CHROME CRANKS - *"Way-Out Lover"*

SFTRI 135 7"

One of NY's best kept secrets. The line-up, which boasts Jerry Teel of HONEYMOON KILLERS fame, delivers a noisy, brutal bash to yer skull. Grinding guitars stuck in overdrive. There's some serious SCIENTISTS damage going on here.

MELVINS - *"With Yo Heart Not Yo Hands"*

SFTRI 81 7"EP

Following their SubPop and Boner Records releases, this slab o' vinyl continues the MELVINS grunge-out BLACK SABBATH homicide.

SPOON - *"Trash / What Good Am I?"*

SFTRI 142 7"

Mia Ferraro has graced the line-ups of many bands in Los Angeles, including HOLE and BULIMIA BANQUET. **SPOON** is her own vehicle and this is the first offering. Nasty, venomous, drugged-out stuff. A sordid adventure down misery lane.

TRBNGR - *"Vaya Con Satan"*

SFTRI 143 **7"EP**

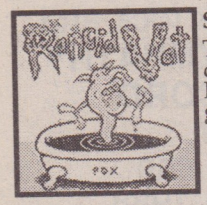
These crazy guys from Norway are back by popular demand with their heavy, psycho rock'n'roll sound. Two songs on the B-side: "Zonked Out on Hashish" and "Hand of Love."

ROCKET FROM THE CRYPT - *"Boy Chucker" reissue*

SFTRI 179 **7"**

This single was re-issued at the band's insistence. Honest! **ROCKET**'s best single. You get new graphics and a snappy black record.

RANCID VAT - *"Portland Bloodbath "*



SFTRI 148 **7"**

This depraved band dances to the beat of a different drummer; in fact, they dance on his head. Music is singable, fuzzed-out guitar-driven punk garage.

SATAN'S CHEERLEADERS - *"Roller Coaster/Outer Limits"*

SFTRI 184 **7"**

This features yet another line-up of **SATAN'S SADISTS** and a change back to their original name. Drug-drenched scavengers of rock n'roll, they put most "garage" bands to shame with their unique blend of distortion and feedback.

THEE HEADCOATEES - *"We Got 7 Inches "*

SFTRI 151 **7"**

The "girlfriends" of THEE HEADCOATS! "Fish Pie" is a flirtatious romp through double entendre and features a rather under-the-weather horn section. Side B, "Cum into My Mouth," is just what it sounds like–not for the squeamish!

SPECTRUM - *"True Love will Find"*

SFTRI 188 **7"**

SONIC BOOM and company leveling their unique treatment.

EL VEZ - *"Calling"*

SFTRI 160 **7"**

Get ready to drop them pesos for another low-ride through Graciasland. More great crooning from the Mexican King (**EL VEZ**, that is) on these two: "Maria's The Name" and "Lordy Miss Lupe."

THE NOMADS - *"Primordial Ooze"*

SFTRI 189 **7"**

Sweden's undisputed kings of garageland offer up three new tracks to give Sympathy a little class. **THE NOMADS** have been going since the early punk days and continually pump out classic, noisy tunes. A great single.

GAS HUFFER *"Mole b/w Body Buzz"*

SFTRI 171 **7"**

First there's **GAS HUFFER**, notorious overlords of supreme rock crunch covering **THE RED AUNTS'** signature "Teach Me to Kill." On the flip are those sweethearts of the drag strip, **THE RED AUNTS** doing **GAS HUFFERS'** "Cupcakes."

THE MUMMIES - *"You Must Fight "*

SFTRI 196 **7"**

Ever since their demise, the flood of vinyl has never ceased! A hybrid of THE SONICS and THE KINGSMEN, these guys offer more fun and intensity than many bands could dream of. Real surfy garage,..

BASSHOLES - *"John Henry"*

SFTRI 175 **7"EP**

A project of Don Howland's, and not too far removed from what he did in his main group, the GIBSON BROS. This is primitive, lo-fi/high energy captured with virtually no production. Three tracks.

EL VEZ - *'The Greatest Hits of El Vez..."*

SFTRI 199 **CD**

Thrill to lush renditions of cover songs. Swoon to the title track in full Broadway production and then get the CD version sung in Spanish! The Mexican Elvis lives. CD includes both singles.

GIBSON BROS. - *"Memphis Sol Today!"*

SFTRI 176 **CD**

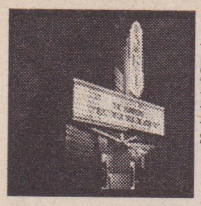
These guys, the undisputed kings of low-fi rock crunch, are joined here by John Spencer of PUSSY GALORE, BOSS HOG, etc. This is a whacked-out array of styles and attitudes. Recorded at world-famous Sun Studios in Memphis. LP now out of print.

VARIOUS ARTISTS - *"Their Sympathetic Request"*

SFTRI 200 **CD DBL**

Ten years in the making and at least seven years overdue... Compiled from Sympathy For The Record Industry's early years, this is Sympathy's personal celebration of its tenth year as a label. The double CD contains 45 tracks.

THE HUMPERS - *"Positively Sick on 4th Street"*



SFTRI 216 **CD**

By recording for the ridiculously low amount of $300, this band is doing its share to bring back the ideal for the true r'n'r ethic. Here you've got loud grinding guitars, a driving rhythm section & seething vocals with attitude and punch.

THE MUFFS - *"Big Mouth / Do the Robot"*

SFTRI 238 **7"**

A now-classic single from **THE MUFFS**, this is a good indication of what their punk/pop/noise bash is all about. "Big Mouth" is Kim's personal fave from their WB release; "Do the Robot," exclusive to this EP, is a blast through THE SAINTS song.

THE LAZY COWGIRLS - *"Another Long Goodbye"*

SFTRI 219 **10"EP**

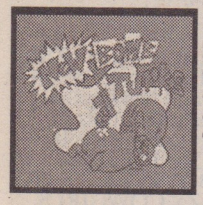
One of the finest rockin'-out bands in existence! Contains an extra track not listed on the cover.

THE TARDS - *"I'm Just Like You"*

SFTRI 239 **8"EP**

They create sounds in a way that is impossible to find outside the walls of state institutions redolent with primitive discordant dementia. Who? Adam Parfrey of Feral House Books and Boyd Rice, known for his recordings as NON. Produced by POISON IDEA's Slayer Hippy.

NEW BOMB TURKS - *"Trying to Get By "*



SFTRI 228 **7"**

Seems like the **NEW BOMB TURKS** are currently everyone's faves, destined to be the amazing, awesome, raging next big thing! They're a driven blast with just the right combination of old school punk rock and '90s hardcore mayhem.

THE JUNKYARD DOGS - *"Good Livin' Platter"*

SFTRI 246 **CD**

THE SUPERSUCKERS doing stuff with Mark Arm and others. Eight songs, including the title cut from the pic disc and covers of THE DWARVES, THE GORIES, JUDAS PRIEST and more. CD version has tons of extra songs.

WRECKLESS ERIC - *"The Donovan of Trash"*

SFTRI 230 **CD**

WRECKLESS ERIC was a hot property at Stiff Records during the late '70s/early '80s in England. His music is unique and eccentric, much in the same way as THEE HEADCOATS. This release marks the return of an intriguing songwriter.

TEENGENERATE - *"Savage"*

SFTRI 257 **CD**

This slab contains eight exclusive tracks, each one bursting with a snot-nosed know-how not rivaled by many. Three covers and five brazen originals that will surely teach you a few things about raw, fast rock'n'roll. CD has two extra tracks.

THE DEVIL DOGS - *"Saturday Night Fever"*

SFTRI 231 **CD**

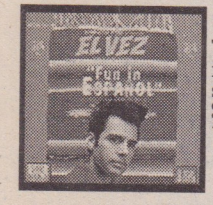
New York's finest, renowned all over the world for their blistering live punk rock antics and snappy repartee. This CD is an obnoxious party blowout soundtrack! 13 new cuts plus four from a Japanese CD-only release.

THE LUNACHICKS - *"Shit Finger Dick"*

SFTRI 262 **7"**

Just when you thought it was safe to go into the bathroom, **THE LUNACHICKS** are back. Here are two new really rockin', hair-bendin', eyeball-poppin', head-bangin', butt-gyratin' songs for the whole family.

EL VEZ - *"Fun in Español"*



SFTRI 234S **CD**

The Mexican Elvis with his first Spanish CD, all in Spanish, all fantastic! Elvis the way it's supposed to be: Norteños, Sambas, Boleros and Santana rock-a-billy style. Includes the single "Esta Bien Mamacita" plus eight other tracks.

SOUTHERN CULTURE ON THE *"Southern Culture "*

SFTRI 266 **CD**

The music of this North Carolina 3-piece powerhouse is a volatile mix-mash of styles brewed up in a rickety backwoods still. Healthy shots of surf and rockabilly with Link Wray-inspired guitar. All six tracks shred and burn.

RED AUNTS - *"Drag"*

SFTRI 237 **CD**

Garage rock punk with fucked hooks. Lots of guitar, screeching, screaming, slide and feedback. 14 originals and a cover of Ray Charles' "Hard Hearted Hannah." The LP is out of print.

THE EYELINERS - *"Confidential"*

SFTRI 484 **CD**

Their debut album blasts out of the starting gate fueled by a frantic guitar, a moving bass line and the story of discontent in the working world. This band derives much of their spirit from THE RAMONES, and their songs are pretty much of the 3-chord anthemic variety. They have been hailed as NM's only all-girl punk band.

THE STOOL PIGEONS - *"I'm the One"*

SFTRI 501 **7"**

The inversion continues! Back again and soaring to new heights as they deliver more fast and furious fun! Their continuing musical mission: to unearth forgotten songs from the First Wave of the British Invasion and revitalize them for the Youth of Today. Once again, **THE STOOL PIGEONS** deliver what you need.

SPACESHITS - *"Winter Dance Party"*

SFTRI 488 **CD**

Following a fistful of singles released in Canada, Japan and the US, this is fucked up, inspired and destined to be a classic. High-caliber teenage rock and roll: a little bit mindless and a whole lotta bad attitude. Just the way it should be.

THE STOOL PIGEONS - *"Gerry Cross the Mersey "*

SFTRI 502 **CD**

The second installment of their *British Inversion* series, **THE PIGEONS** deliver another glorious load of breakneck girl-group pop punk! It's a GERRY AND THE PACEMAKERS tribute. Known mostly for a few hit ballads, GERRY also wrote some first-rate rock'n'roll tunes, as these 13 choice cuts confirm.

MAD 3 - *"Machine Blaster"*

SFTRI 503 **7"**

The wildest, most frantic 3-piece rock'n'roll powerhouse outta Tokyo, Japan. These two blistering tracks are instrumentals, but get that surf-twerp image outta your head. **MAD 3** are closer to a higher voltage BLUE CHEER with a lethal shot of Angus Young running through their veins.

BIG FOOT CHESTER - *"Tabernaclin'"*

SFTRI 520 **CD**

13 tracks of stripped down vintage blues, boozy gospel and sonic punk complete with gnarly feedback-drenched guitar and Walter Daniels' (ex-JACK O' FIRE) terrorist harmonica tactics. These songs are evil and ugly and wrenched straight from the heart. Stand back! Watch out! You could get hurt...

HOLLY GOLIGHTLY - *"Up the Empire"*

SFTRI 506 **CD**

Captured live on tape during a rare performance in the summer of '96 at Bridgetown's premier nightspot, The Empire Ballroom. Includes a winning combination of originals and covers which had the dancers dancing, the singers singing and the rest just plain baffled, but all had a great time.

THE EMBROOKS - *"Don't Ask Me Anymore"*

SFTRI 521 **7"EP**

Volume one in Sympathy's New Musical Science Series. Some really authentic '60s-inspired garage music from Folkestone, Kent, England. **THE EMBROOKS**, a trio featuring members of THE MYSTREATED, HEAD and STEWED, pack four excellent tracks onto this 7"EP.

THE REVELATORS - *"Featuring Walter Daniels"*

SFTRI 512 **7"**

The big bad harmonica-blowin' daddy from BIG FOOT CHESTER and Crypt's premier mean machine hooked up in Austin, TX and together brutalized producer Mike Mariconda (DEVIL DOGS, NEW BOMB TURKS) until they effectively spit out these two furious blues/hillbilly scorchers.

GODZIK PINK - *"Godzik Pink"*

SFTRI 522 **7"EP**

This 4-song 7"EP is the first release from this instrumental quartet comprised of Tenor Saxophone, Electric Guitar, Electric Bass and Drums.This is Volume 002 in the New Musical Science Series adopted by Sympathy, created to bring out the more unusual sounds being conveyed through new and more observant musicians.

GREG OBLIVIAN & THE *"Head Shop"*

SFTRI 513 **LP/CD**

OBLIVIANS fans rejoice! **GREG**'s first solo offering highlights some of his moodier songwriting and guitar playing. His love for pop, country and soul has been a productive counterbalance to THE OBLIVIANS' punk blues for three albums running...

THE DETROIT COBRAS - *"The Detroit Cobras"*

SFTRI 525 **LP/CD**

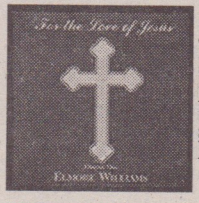
First full-length record of hard rockin', sex-charged garage r'n'b from this Detroit combo. The band's following has since grown with releases on the Black Mamba and Scooch Pooch labels, as well as a Japanese release on 1+2. Their sound is a mix of gospel, roots rhythm & blues and soul combined with classic car city guitars.

THE BASSHOLES - *"Featuring April March"*

SFTRI 514 **7"**

APRIL MARCH supplies the unapproachable vocal on the A-side, "Moody," and then about faces and nails **THE BASSHOLES'** original, "Microscope Feeling," for the B-side, which also features the frantic harmonica styling of CLAWHAMMER's John Wahl.

ELMORE WILLIAMS - *"For the Love of Jesus, One"*



SFTRI 526 **7"**

This release is steeped deep in the tradition of the delta blues with a tad more lunacy tossed into the brew. The songs are: "Hoopin' & Hollerin'" b/w "Gonna Leave." If blues from the wrong side of the tracks interests you in the least, you had better move fast.

BANANA ERECTORS - *"Teenage 3K Worker"*

SFTRI 517 **7"EP**

This punk band from Yamaguchi, Japan delivers a frantic brand of late '70s-style rock'n'roll. They are devoted disciples of THE RAMONES and accurately capture the original spit and spirit with the welcome exception of a dizzy female vocal. Three, wild debut tracks...

T-MODEL FORD - *"For the Love of Jesus, Two"*

SFTRI 527 **7"**

In these days of blues explosions, it's real refreshing to witness the authentic artifact, and **T-MODEL FORD** is as real as it gets. These two genuine blues busters on this single carry on in the super fine tradition of the rave acclaim of *Pee Wee Get My Gun* album. True blues now and forever.

EURO BOYS - *"Jet Age"*

SFTRI 519 **CD**

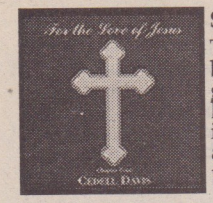
From Oslo, Norway, this instrumental-pop orchestra delivers 15 tracks (56 minutes) of delinquent chic caught somewhere between MAN OR ASTRO-MAN? and THE PHANTOM SURFERS. With a preference of '60s and '70s pop culture, they combine music and fashion with an unrivaled level of rock showmanship.

FRANK ROACH - *"For the Love of Jesus, Three"*

SFTRI 528 **7"**

This glorious single by famed Louisiana blues man delivers exactly what you expect out of the Fat Possum clan. This single is raw, emotional, way down and dirty blues (sounds like a Crypt ad). Anyway kids, this is, as they say, "The shit!" The real, no fuckin' around genuine artifact.

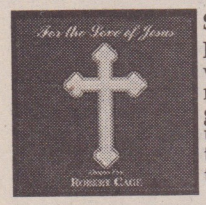
CEDELL DAVIS - *"For the Love of Jesus, Four"*



SFTRI 540 **7"**

The two tracks, "Keep On Snatchin' It Back" b/w "It's X-mas Time," feature **CEDELL** on guitar and vocals. That's the whole story kids... Direct from Pine Bluff, Arkansas, and recorded in Oxford, Mississippi, you can relish in this amazing modern day blues-guitar legend and his patented skull-fucked tunings.

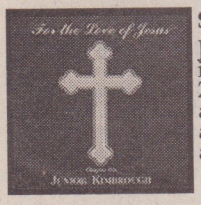
ROBERT CAGE - *"For the Love of Jesus,Five"*



SFTRI 541 **7"**

ROBERT lives in Woodville, Mississippi, where he was born and worked as a diesel mechanic until retiring last year... This is a genuine traditional blues artifact and has an unending intrigue to staunch blues followers and to the fringe fanatics that think JON SPENCER is the whole story.

JUNIOR KIMBROUGH - *"For the Love of Jesus, Six"*



SFTRI 542 **7"**

JUNIOR KIMBROUGH, possibly the most important blues guitarist of the second half of the 20th century, redefined the blues. **JUNIOR**'s approach to music was so hugely different than anything that came before him that he ranks among the greatest bluesmen of all.

BILLY CHILDISH/DAN *"Devil in the Flesh"*

SFTRI 529 **LP/CD**

A raw and exciting blues artifact circa 1997 featuring **BILLY** playing lead guitar on all tracks while **DAN** (HOLLY GOLIGHTLY) delivers the rhythm and some very inspired slide guitar. Both **DAN** and **BILLY** alternate on lead vocals. A supreme blues album done of course in the time honored Hangman style.

SPEEDBALL BABY - *"Stomp Mr. Harry Lee"*

SFTRI 531 **10" EP/CD EP**

A raunchy, dirty, rotten r'n'r massacre. Able to escape the clutches of the now defunct Fort Apache label...shaken, not stirred...this band managed to stop by the Sympathy headquarters to record another cerebral-twisting, sleazy EP platter for all the "pop" fans to enjoy. Also released two EPs on PCP Records.

THE ROYAL *"Oh Yeah Baby"*

SFTRI 532 **LP**

Debut album from your favorite keg-tappin' rock'n'roll savages. 14 songs highlighting what **THE PENDLETONS** do best, the way they do it best! 100% live without an overdub by master recording engineer Alex Chilton. Wild and raw! Pendleton Power!

THE NEW BOMB TURKS - *"Snap Decision "*

SFTRI 533 **7"**

Columbus, Ohio's favorite rag-tag sons have returned to Sympathy once again. This severe 7" blowout proves they are the original bargain basement rock gods... Forget GEEK, forget ELECTRIC FRANKFURTER, **THE NEW BOMB TURKS** still reign supreme! Both tracks are exclusive to this single.

GREG OBLIVIAN & THE TIP-TOPS - *"Greg & The Tip-Tops"*

SFTRI 534 **7"EP**

Yes, it's **GREG OBLIVIAN** of the notorious, world-famous OBLIVIANS. The A-side, "Pretty Baby" is a crazy little rocker with just a hint of that OBLIVIAN's Memphis madness and is exclusive to this single. The two tracks on the B-side are slower, slightly moodier and simply chorded.

JACK OBLIVIAN - *"So Low"*

SFTRI 535 **LP/CD**

Compiled after the breakup of the OBLIVIANS, these tracks dating from 1991-1998 are an impressive, eclectic and quirky batch. These are home recordings, replete with static, horns, piano, some doo wop back-ups and lots of nasty guitar. *So Low* is a moody, exciting and vibrant abberation.

BEACHBUGGY - *"Unsafe...At Any Speed!"*

SFTRI 539 **CD**

BEACHBUGGY: five boys always on the limit, always in the red line, beyond the ragged edge, pushing themselves way way past the line of decency and safety, where the real thrills are, where winning isn't everything...but it's damn fine fun trying! This recording is made by drivers, for drivers, for driving. Get it?... You better!

THE CHUBBIES - *"What Girls Want!""*

THE REVILLOS - *"Totally Alive! (in London)"*

SFTRI 549 **LP/CD**

THE REVILLOS were *the* seminal trash/glam/punk band of the late '70s and early '80s. They split up in 1985 but after an unexpected posthumous hit single in Japan,the band were defrosted from cryogenic storage and reformed for one final concert in London, England, in 1996.

LO-HI - *" Like a Feel Good Thing"*

SFTRI 551 **LP**

THE REVILLOS - *"The Revillos 4 Track 7"*

SFTRI 555 7"EP

What you get here is four tracks, that's why it's called a *4 Track E.P.* The "E.P." stands for "extended play" meaning it plays longer than a regular 7" single, get it? You get two tracks from the phenomenal *Totally Alive* masterpiece as well as two exclusive tracks and they're fucking great—so buy a half a dozen or so...

MAD 3 - *"Teenage Delinquent!"*

SFTRI 556 LP/CD

THE DEADLY SNAKES - *"Love Undone"*

SFTRI 562 CD

One of the last rock 'n roll bands on the face of the earth, **THE DEADLY SNAKES**, proudly present their debut LP - *Love Undone*. Produced by Memphis howler Greg "OBLIVIAN" Cartwright . The album is Stax-influenced soul and wild rock 'n roll as interpreted by city kids in 1999.

THE SPACESHITS - *"Misbehavin'"*

SFTRI 564 LP/CD

This is the highly-anticipated follow-up to the classic *Winter Dance Party* . 13 boulders just itching to crush squares dead. Just one of these songs could decimate most whole albums, but that's why passion, soul and rock 'n' roll are to **THE SPACESHITS** what "extreme sports" are to most of their peers.

THE ELECTROCUTES - *"Steal Your Lunch Money"*

SFTRI 566 CD

Before THE DONNAS stole everyone's punk rock hearts, the were known as **THE ELECTROCUTES**. *Steal Your Lunch Money* is a fun-filled frenzy of sound and food. THE BANANA ERECTORS - *"The Banana Erectors"*

SFTRI 569 CD

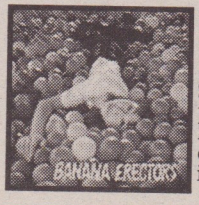
From Yamaguchi with love: it's **THE BANANA ERECTORS**. Their music is a mix of THE RAMONES and female pop singers of the early '60s. May has a pretty dizzy musical sensibility with a unique high-pitched vocal delivery and it works in perfect contrast to her band's no-frills '77-style buzzsaw punk rock assault.

THE COMPULSIVE *"Bluff City"*

SFTRI 570 CD

A true phoenix rising from the ashes, **THE GAMBLERS** spring from THE OBLIVIANS who themselves sprung from **THE COMPULSIVE GAMBLERS**! This all-new Memphis masterpiece is the result of three months of recording as the original three-piece with a bunch of guests showing up to lend a hand here and there.

THE BANANA ERECTORS - *"Fed Up With High School "*



SFTRI 571 7"

"Fed Up with High School Days" is from their debut album. What you get here is Phil Spector-era RAMONES bop graciously infused with a dizzy/quirky female vocal that works like a charm. The B-side, "Draggin' U.S.A." is exclusive to this single and, as the title might imply, it is reminiscent of early BEACH BOYS.

COMPULSIVE GAMBLERS *"Crystal Gazing "*

SFTRI 572 LP/CD

Exposing their Detroit & Memphis roots with motor city classics by THE CONTOURS and NOLAN STRONG and up-tempo country originals, Jack & Greg Oblivian are blessed with Dale's great slide guitar to create an explosive, blistering and sometimes hypnotic whole.

SWING KIDS - *"Discography"*

THREE ONE G 6 **CD**

San Diego's **SWING KIDS** existed for a couple of years during the mid '90s. Their sound is comparable to that of DRIVE LIKE JEHU, ANGEL HAIR and ANTIOCH ARROW. Noisy, fast and verging on total chaos. Members went on to form such noteworthy bands as THE LOCUST, THE CRIMSON CURSE, SPANAKORZO, and BREAD AND CIRCUITS.

FESTIVAL OF DEAD DEER/CRIMSON CURSE- *"The Festival Of Dead Deer"*

THREE ONE G 7 **7"EP split**

This record plays like a B-horror movie. With both sides equally as creepy and chaotic, you can't go wrong if you are into some serious dark drug induced hardcore horror. **THE CRIMSON CURSE** had members of THE LOCUST, SWING KIDS and GUYVER 1. **THE FESTIVAL OF DEAD DEER** had members that abused too many drugs and in a sense, themselves.

JENNY PICCOLO - *"Lowest Common*

THREE ONE G 8 **7"EP PIC**

Santa Cruz, CA's **JENNY PICCOLO**, punished their audience for the better part of the mid and late '90s. This band was formed from the ashes of the seminal hardcore trio MOHINDER. Their breed of furious hardcore punk references key players in the "Power Violence" history.

FESTIVAL OF DEAD DEER *"The Faces Of Mental*

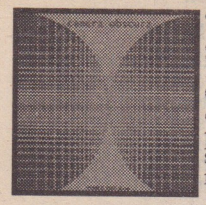
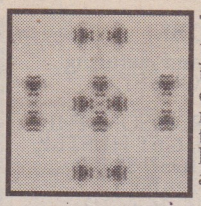
CAMERA OBSCURA - *"Writing Kodak"*



THREE ONE G 11 7" PIC

San Diego's **CAMERA OBSCURA** formed in 1998 from the ashes of THE SHORT WAVE CHANNEL and SPANAKORZO. Fusing the contemporary angular sounds of their regional post-hardcore peers with synthetic, mesmerizing synths, turntable trickery and a thunderous rhythm section.

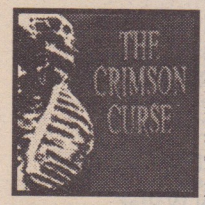
ASTERISK/JENNY PICCOLO - *"Asterisk/Jenny Piccolo "*



THREE ONE G 18 10" split

JENNY PICCOLO play simple, fast hardcore, in the vein of HERESY, CROSSED OUT and some even say CRYPTIC SLAUGHTER. Their retrogressive approach stands in stark contrast to **ASTERISK**, whose sound and ideas come largely from the progressive ranks of grindcore and philosophy.

THE CRIMSON CURSE - *"Both Feet In The Grave"*



THREE ONE G 12 LP

San Diego's **CRIMSON CURSE** featured members of THE LOCUST and TRISTEZA and is perhaps most suitably compared to the likes of the MISFITS than anything else. CAMERA OBSCURA - *"To Paint The Kettle Black"*

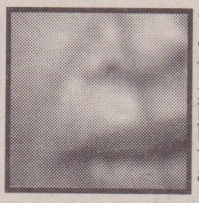
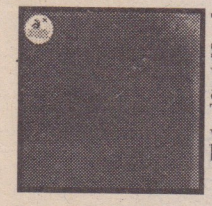
THE BLOOD BROTHERS - *"March on Electric Children"*



THREE ONE G 21 LP/CD

THE BLOOD BROTHERS have always been a band that pushes themselves to the extreme: musical mayhem, bad attitudes, bad haircuts, and bad ass riffs. Comparable to bands before them, but taking it to the next breaking point. In the vein of DRIVE LIKE JEHU, ANTIOCH ARROW, and THE CRIMSON CURSE.

ASTERISK - *"Dogma 1"*



THREE ONE G 15 LP

Swedish viking hardcore grind. No holds barred, with sounds similar to DISCORDANCE AXIS and SLAYER what more can a long hair ask for? The slick layout resembles a mental hospital ward, which would throw off any good head banger.

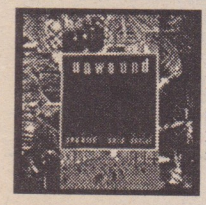
¡VIVA TROUBLEMAN!

Troubleman Unlimited was formed with the belief that there can exist new and exciting sounds outside the boundaries of our own listening potential.

UNWOUND - *"Negated"*



TMU 001 **7"**

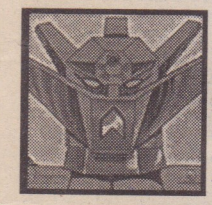
This record came out during their album *Fake Train*, but has a much rawer recording by Tim Green on an 8-track, and the songs are perfect for such a recording. These songs are some of their most chaotic, and even feature Dirty on the trombone.

WORST CASE SCENARIO - *"Blood of Christ"*

TMU 014 **7"**

This 7" is being released along with their CD on Vermiform. This band contains members of UNWOUND, but it doesn't sound like them. It's more like the exact opposite. One song was recorded live on KAOS radio by Troubleman's request in order to try to capture their live aspects. Total chaos and noise.

CARBOMB/FISTICUFFS BLUFF - *"The U.F.O. Invasion"*



TMU 007 **7" split**

CARBOMB are from Texas and can be compared to a garagey NATION OF ULYSSES without the schtick. Very energetic and young.**THE FISTICUFFS BLUFF** are from California and are temporarily on hiatus. Pure chaos. Led by Summer Mastous on vocals, they are a punk version of freedom music.

UNWOUND/VERSUS - *"split 7""*

TMU 015 **7" split**

VERSUS from New York City known for their MISSION OF BURMA-esque stylings join with **UNWOUND** to pay tribute to FLOWER (from NYC) by covering some of their hits. FLOWER was Richard from **VERSUS** old band and they are virtually unknown, but we hope not for long.

PHANTOM PREGNANCIES *"Special Child"*

TMU 010 **7"**

A true cult band from England. Free of the hot trends of the minute, they mix a raw garage/trashy sound with lo-fi, but dancy rhythms. Ex-HUGGY BEAR members.

FISTICUFFS BLUFF - *"Fisticuffs Bluff"*

TMU 020 **LP/CD**

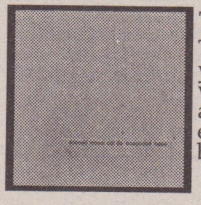
FISTICUFFS BLUFF is aggressive and unrelenting, and the lyrics are abstract and confusing. Summer Mastos (LOVE AS LAUGHTER and THE NEED) forces the demons out of her soul and snarls like a woman possessed. The music is a convoluted mess of thrash and jazz. CD contains tons of rare bonus tracks.

SPEEDKING - *"Devilina"*

TMU 012 **7"**

From New York, **SPEEDKING** are a very underrated band. Perhaps you saw them on tour with JUNE OF 44 or SIX FINGER SATELLITE? Hailed as one of the best new bands of 1996 in New York by various magazines, and even Gerard from Matador loved them. A truly original band who packs a punch.

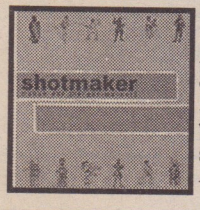
HATED - *"Desmond Outcast "*



TMU 023 **7"**

This band is not unlike the bread and wine when you go to church. It is what made many of us who we are today. They defined an era of "fancy lads" and "sensitive souls" that are seriously(?) called emo. These songs are acoustic and are beautiful, but you know that already.

SHOTMAKER - *"Mouse Ear - Forget Me Not"*



TMU 013 **LP**

Originally released in Spring of 1997, this has been one of our most requested titles for re-issue. This record will be a limited one-time color vinyl pressing and this will be the last time it will ever be made available on vinyl. Please note these songs are also on the **SHOTMAKER** *All-Inclusive* double CD.

TMU 026 **CD**

This CD contains the **KARP/RYE** split 12" (TMU 006), the **RYE** debut 7" (TMU 004) and a live **KARP** radio show. Finally available on CD with new artwork.
Contains over 65 minutes of music.

RED MONKEY - *"Make The Moment"*

TMU 028 **CD**

Troubleman continues to bring you the no-wave revolution with this collection of songs. Just what we need, more of the messages we have to hear. Like a school lesson, this is the foundation of what we can live by. More herky-jerky sounds from the band who would make Colin Newman proud.

HARRIET THE SPY - *"Unfuckwithable"*

TMU 029 **LP/CD**

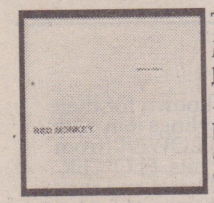
Kent, Ohio has a nice little thing happening. **HARRIET THE SPY** are one of the earliest. Music to listen to when you are on the way to the Kent, Ohio liquor store to buy a sixer of Pabst. Apathy has never smelled so good. A sonic blast of confusion and neutrality lost within the swirling guitars and lower than desired vocals.

THE HAL AL SHEDAD - *"Textures of Tomorrow"*

TMU 030 **CD**

This release finds **THE HAL AL SHEDAD** with an expanded approach, venturing into uncharted post-emo territory. Recorded by David Barbe of SUGAR in Athens, GA. As usual, impeccable designwork by Phil Dwyer at Apartment 13.

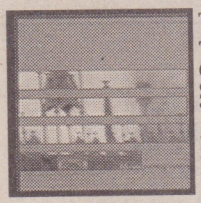
RED MONKEY - *"Difficulty is Easy"*



TMU 032 **CD**

Difficulty Is Easy finds the band treading more personal territory both lyrically and musically. They still have their roots in the '80s "no-wave/post punk" sounds made popular by bands like WIRE, THE FALL, GANG OF FOUR and more modern bands like CIRCUS LUPUS, etc...

THREE PENNY OPERA - *"Three Penny Opera"*



TMU 034 **CD**

THREE PENNY OPERA, from Ottawa, Ontario Canada, contain members of SHOTMAKER. Once SHOTMAKER broke up, **THREE PENNY OPERA** immediately formed and continued the legacy. All the rage, emotion and power remains. Plus, more solid song structure and tighter musicianship.

NUZZLE - *"San Lorenzo's Blues"*

TMU 036 **LP**

Their first release in three years marks a new era for **NUZZLE** and Troubleman. This may be the mellowest record Troubleman has ever released, but no one can deny the power of these songs. The songs are sadder than ever, but they are not going to quit.

SEAN NA NA - *"Til Your Baby Is A Man"*

TMU 037 **LP/CD**

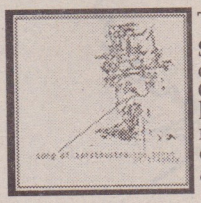
Dance 'Til Your Baby Is A Man is full of pop hooks and comes off as more of a complicated collaborative effort than an introspective solo work. Engineered at Minneapolis pop studio the Terrarium by Dave Gardner. All 10 songs are packed with hatefully inspired lyrics sung with frighteningly trained intensity.

SLAVES - *"The Devil's Pleasures"*

TMU 039 **CD**

When THE VSS abruptly imploded in 1997, the band members quickly regrouped to form **SLAVES** as a three-piece. **SLAVES** is a more melodic, song-oriented band than THE VSS, emphasizing tension and drone sounds. *The Devil's Pleasures* is at times hypnotic and glassy, and other times sharp blasts of tense vibrance.

SONG OF ZARATHUSTRA - *"Birth Of Tragedy"*



TMU 040 **CD**

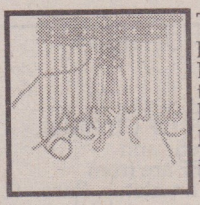
SONG OF ZARATHUSTRA formed in March of 1997. Many people refer to them as CAMERA OBSCURA's "little brother." Take the anger in hardcore and mixes it with a cannon-like drum machine (as well as a live drummer), making an odd mixture of goth/industrial, thrash, as well as NEUROSIS -esqe 'doom' breaks.

GLASS CANDY/SUBTONIX - *"Glass Candy/Subtonix"*

TMU 041 **7" split**

GLASS CANDY (from Portland) have been making quite a stir lately with their patented brand of "death disko" and notorious live shows. **SUBTONIX** (from San Fransisco) have established themselves as a force to be reckoned with. "Horror prom queen" aesthetic and keyboard-driven neo wave sounds.

BLACK DICE - *"Black Dice"*



TMU 042 **CD**

Debut full length from Brooklyn's **BLACK DICE.** This is definitely the closest you may get to actual chaos on record. They walk the fine line between noise and "music." "DIY hardcore performance art," or a mix of VOID and HARRY PUSSY. The songs are shorter and the music is less decipherable. Deluxe16 page booklet.

RED SCARE - *"Capillary Lockdown"*

TMU 043 **CD**

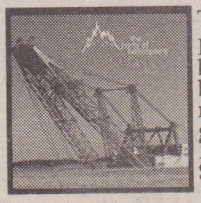
Debut full-length of **RED SCARE**, out of Knoxville, TN one of America's most popular hardcore bands! Musically influenced by SHOTMAKER and HAL AL SHEDAD but add a chaotic element that is all their own (pioneered by bands like VOID.)

PETE DALE THE WIMP- *"tmuSSS003"*

TMU 045 **7"**

PETE DALE, vocalist/guitarist for RED MONKEY, PUSSYCAT TRASH and MILKY WIMPSHAKE, hones his signature style similar to MILKY WIMPSHAKE and writes a punk love songs that are honest and raw. This single is strictly limited to 500 copies only!

PARTY OF HELICOPTERS - *"Mount Forever"*



TMU 046 **CD**

Melodic, yet heavy with tight structure looming behind the layered guitar tracks, the vocals have been described as MY BLOODY VALENTINE meets RIDE. Look out for the MAIDEN-like guitar solos and keyboards as well. A wild ride. Featuring Jamie Stillman from HARRIET THE SPY.

CAMERA OBSCURA - *"To Change The Shape "*

TMU 047 CD

CAMERA OBSCURA was formed in San Diego, 1998. Their sound ranges from "high energy aggressive keyboard driven rock" to "melodic guitar-layered drone."

THE ANASAZI - *"Calculating Components "*

TMU 055 LP

THE ANASAZI are yet another blistering hardcore band from CA. This band features members of such legendary bands as MOHINDER, JENNY PICCOLO and YAPHETT KOTO. The best way to picture this band is a much more raw version of the aforementioned bands.

PUSSYCAT TRASH- *"1992-1995: The Brat Years"*

TMU 048 CD

PUSSYCAT TRASH formed in 1992 and are members of RED MONKEY. Part of the UK riot-grrrl scene of the early 90's. Their loose punk style and boy/girl vocals added variety to the mix and worked well to create a great dynamic. 40-song cd contains every song recorded by the band. One LP, a slew of singles, and various comp. tracks are represented here.

AL BURIAN - *"War Prayers"*

TMU 057 7"

AL is in the band MILEMARKER, and is a successful zine publisher and columnist. His zine *Burn Collector* is one of the most influential zines of the 90's. The record weaves in and out of the electro-punk territory without becoming annoying or ironic. The covers are beautifully silkscreened by the Heads Of State Collective. This record is limited to 500 & hand numbered.

SEAN NA NA *"Sean Tillman Is a Star"*

TMU 049 7"

Sean's alter-ego, **HAR MAR SUPERSTAR** as well as touring with INCUBUS and THE STROKES? Well, don't let those crappy recording artists keep you away from this record! This two-song 7" is destined to be a keeper! The A-side is the title track, and the B-side is a special BOYZ TO MEN cover.

KEPLER - *"Fuck, Fight, Fail"*

TMU 058 CD

The debut album from Ottawa, Canada's **KEPLER** and is a culmination of over three years of the proverbial blood, sweat and tears. TRANCE AND THE ARCADE *"tmuSSS005"*

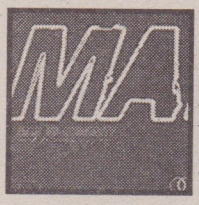
TMU 051 7"

Led by one Chuck Bettis, of the groundbreaking META*MATICS, and is currently in the ALL-SCARS (Dischord). The sounds are unexpected, in a singular auditory world created from primitive technology and deceivingly simple sound sources that defy description upon listening.

MAN VS HUMANITY- *"In The Line Of Fire"*



TMU 060 CD

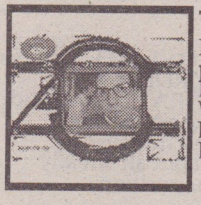
MAN VS HUMANITY are perhaps the most brutal band in Germany at the moment. They mix the most insane elements of metal and thrash with blinding results. They stand above the pack of bands playing this genre because they are harsh and agressive while being interesting and powerful at the same time.

TARA JANE O' NEIL - *"tmuSSS006"*

TMU 052 7"

TARA JANE O' NEIL is probably best known for being in some of the best bands of the 1990's (RODAN, RETSIN, SONORA PINE) or as a solo artist. We just thinks she rules. There are three exclusive/unreleased songs. The music itself is melancholy and atmospheric, and holds her trademark style of song writing.

SEAN NA NA - *"Return Of The Unicorn"*



TMU 061 CD EP

More brooding hatred masked by sugary sweet pop hooks make this new collection a winner. LUCKY JEREMY on keyboards and Ben Webster on drums and engineers Eric Olsen and Dave Gardner (DILLINGER 4, SELBY TIGERS, LIFTER PULLER, MELVINS, etc.)

RED MONKEY- *"Get Uncivilised"*

TMU 054 7"

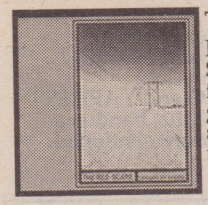
Their songs are getting longer and more intricate, while keeping their now signature sound: a mix of funky, GANG OF FOUR inspired political anthems. These songs are sure to make the kids dance!!! Troubleman hopes this will keep everyone satisfied until their new full length hits the shelves.

THE SIX PARTS SEVEN - *"Silence Magnifies Sound"*

TMU 062 CD

THE SIX PARTS SEVEN are from Kent, Ohio (home of other TMU bands like HARRIET THE SPY and PARTY OF HELICOPTERS). They play hauntingly beautiful instrumental music. Picture violin, cello, guitar, bass, drums, and a lap steel.

RED SCARE - *"Strangers Die Everyday"*



TMU 063 CD

From Knoxville, TN/Brooklyn, NY, **THE RED SCARE** returns with their second Troubleman full-length. *Strangers Die Everyday* finds the group using slightly more melody and odd time signatures to expand their sound, while keeping their signature style and overwhelming power.

VERN RUMSEY - *"Red Rumsey"*

TMU 072 7"

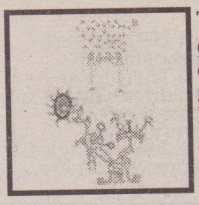
This Solo Singles Series (TMU SSS) single features the talents of **VERN RUMSEY** under the name *Red Rumsey*. **VERN** is best known as the bassist of the popular punk band, UNWOUND. He is an excellent songwriter as well! These songs find **VERN** treading the rock/folk waters with somber melodies and haunting lyrics.

TIM KINSELLAS - *"tmuSSS009"*

TMU 064 12"/CD EP

TIM KINSELLAS, vocalist of the popular indie rock outfit JOAN OF ARC (as well as the legendary CAP N' JAZZ), graces the Troubleman camp with his debut solo release. This highly-anticipated release is another fine addition to the popular *Troubleman Solo Singles Series* (*tmuSSS*). On this album, Tim plays acoustic guitar.

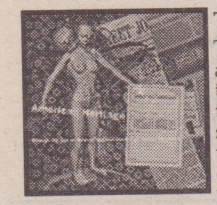
OCTIS - *"Twevim Llelengr"*



TMU 073 7"

OCTIS is Mick Barr from ORTHRELM's solo endeavor. Mick has been called one of the greatest guitarists in the underground, if not world/universe. This particular release finds Mick playing solo over programmed drum machine blast beats. The results are simply incredible. A total of 12 bursts of power. Is it thrash? Is it jazz? Is it metal? Is it "avant"?

AMERICAN HERITAGE- *"The Age Of Quarrel "*



TMU 066 CD

This instrumental three-piece from Chicago, is about writing songs that challenge the traditional song structures without falling prey to minimalist guitar rock or improvisational self-indulgence. They have 2 records in Europe, this is their debut American release. This CD contains a quicktime movie at the end for your viewing pleasure.

BLACK DICE- *"Cold Hands"*

TMU 074 CD

Brooklyn's own **BLACK DICE** return with their second CD. They are experimenting with sounds, and mixing them with their patented brand of violent hardcore. The result is an odd mixture of the experimental HARRY PUSSY, noise master MERZBOW, and violent hardcore pioneers VOID. They also added more amps to the mix.

THE ALBUM LEAF - *"tmuSSS011"*

TMU 067 10"/CD EP

On loan from Tiger Style Records for the *Troubleman Solo Singles Series* (*tmuSSS*), **THE ALBUM LEAF** is the moniker of one Jimmy Lavelle, the drummer of the instrumental outfit TRISTEZA, plus THE LOCUST and SWING KIDS. This is all about Jimmy's work as a solo artist. These instrumental songs are sparse and atmospheric.

MILKY WIMPSHAKE - *"Lovers, Not Fighters"*

TMU 075 LP/CD

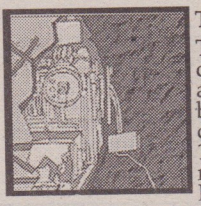
Not as "in your face" political as RED MONKEY, **MILKY WIMPSHAKE** take the romantic approach to politics without being emo or any other sappy drivel. The lyrics are smart and to the point. These songs are a call to arms! Protest songs the whole family can sing along to!

RED MONKEY - *"Gunpowder, Treason "*

TMU 068 LP/CD

Here they are experimenting with horns and vocal layers, as well as time structures. The songs sound more like THE EX than GANG OF FOUR. Lyrically, these are their most political and engaging yet. This mix of intricate (yet somehow minimal) song writing and amazing lyrics brings us their most solid release to date. A thinking person's dance band?

THE FLYING LUTTENBACHERS *"Infection and Decline"*



TMU 078 LP/CD

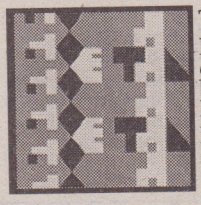
THE FLYING LUTTENBACHERS have been destroying puny earthling minds and souls for almost 10 years. *Infection and Decline*, the band's tenth album (and Troubleman debut), concludes with a devastating and faithful 16-minute version of "De Futura", originally recorded by the seminal French prog band MAGMA.

LOVE LIFE- *"The Rose He Lied By"*

TMU 070 LP/CD

Conceived in October 1998, **LOVE LIFE** features histories with UNIVERSAL ORDER OF ARMAGEDDON, GREAT UNRAVELING, and JAKS. The overall sound of the record is bolstered by piano, strings, and horn arrangements that serve to fill out an already robust and conversational composition.

PIXELTAN - *"Pixeltan"*



TMU 079 CD

Many call it "disco-punk" but Troubleman doesn't enjoy the term. Their sound is similar to bands such as LIQUID LIQUID, ESG, PIL, MEDIUM MEDIUM, or any other percussion-based bands to come out of the NYC scene of the late '70s- but with a harder, more electronic edge. And they're loud as hell!Hisham of BLACK DICE on drums.

DUNCAN BARLOW - *"D. Biddle"*

TMU 071 7"

The latest installment of the TMU Solo Singles Series (TMU SSS). **DUNCAN** (ex-ENDPOINT and BY THE GRACE OF GOD makes his debut release as a solo artist with songs that are atmospheric and light, similar to IDA or LOW, yet with a little more ambient experimentation. Ltd. to 500, hand painted, letterpressed, and silk-screened covers!

BLACK DICE/ERASE *"Black Dice/Erase Errata"*

TMU 080 7" split

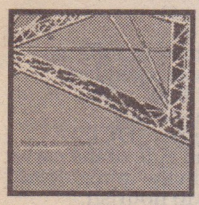
Brooklyn's **BLACK DICE** have evolved from a straight hardcore band into a very interesting and brutal noisecore unit reminiscent of HARRY PUSSY, THROBBING GRISTLE, and MERZBOW. San Fransisco's **ERASE ERRATA**'s sound blends all the best elements of punk, new wave, and disco from around the time frame when it all collided: the late '70s.

ERASE ERRATA - *"Other Animals"*

TMU 081 LP/CD

No-wave, new-wave, now-wave, whatever-wave. Their songs are propelled forward on choppy waves of jerky rhythms and guitar lines that wrap their way around your brain like a copper wire. The vocals weave in and out, from calamity to croon, all anchored by sharp-edged, tin can beats.

THE PARTY OF *"Space. How Sweet it Was"*



TMU 086 CD DBL

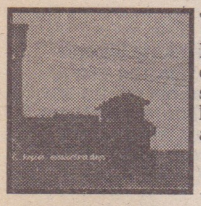
This double CD contains an EP entitled *Space... and How Sweet It Was* on one CD. The other contains the *Tundra* EP, which was previously released on limited edition vinyl on Progeria Records. **THE PARTY OF HELICOPTERS** combine their individual varied tastes to create a hybrid of metal, punk and pop for a truly original sound.

META-MATICS - *"Complete Discography"*

TMU 087 CD

The **META-MATICS** lived up to their name, destroying themselves after 1 1/2 years. The music continues to influence those coming from the punk idiom who want to break free of the self-composed constraints. Contains their LP, which was released on vinyl only on Slowdime Records (and is out of print), their tracks from their split 7" with THE MAKE-UP, as well as compilation tracks.

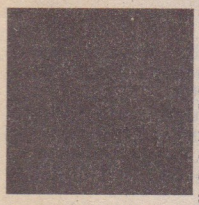
KEPLER - *"Missionless Days"*



TMU 088 CD

KEPLER employs a "less is more" philosophy that enables them to produce wonderfully sparse, lilting songs. You could liken their sound to slo-core bands like CODEINE and LOW, with a touch of modern alt-country stars SON VOLT.

THE WALKMEN - *"The Blizzard of 1996"*



TMU 089 LP

Recalling early BRIAN ENO, BRUCE SPRINGSTEEN, early U2, THE SMITHS, and THE CURE; and the point where JOY DIVISION became NEW ORDER, **THE WALKMEN** play with bracing maturity, and an impressive command of tone, seamlessly setting a consistent mood for the whole record. Limited to 750 copies. The covers are hand printed by Neil Burke in sunny New England, USA.

THE LACK - *"The Lack"*

TMU 090 CD

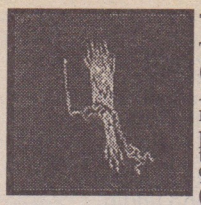
Sonically, they share a kinship with newer Troubleman bands like THE CHAMPAGNE KISS and SONG OF ZARATHUSTRA, mixing hardcore and industrial music- thus entering unchartered waters of the punk spectrum. The CD packaging is 100% see-thru and comes with a data file on the actual disc with the lyrics and song credits.

SUBTONIX - *"Tarantism"*

TMU 091 LP/CD

SUBTONIX take a new approach to a tired genre. They are heavy on the keyboards and saxophone, and light on the guitars! Their sound is a blurry mixture of new wave, goth, and disco, creating a totally original sound.

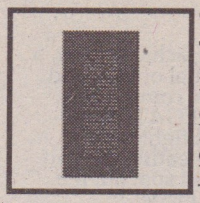
ORTHRELM - *"Asristir Vieldriox"*



TMU 093 LP/CD

The duo consists of Mick Barr on guitar/vocals (CROM-TECH) and Josh Blair on drums (of ABCS- see TMU 082). Musically, this release is more intricate than CROM-TECH (if that was possible) and takes a more "metal" approach, though slightly. Prog-hardcore. This release is a 99-song one-sided etched 12" and 99-song CD (sorry, no etching on CD).

THE WALKMEN - *"Wake Up"*



TMU 094 12"

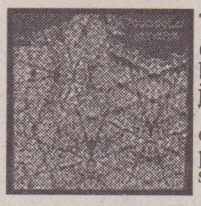
This is part two of the debut **WALKMEN** full-length, which is being released on vinyl as two separate 12"s. This record is limited to 1000 copies and covers are silkscreened by Neil Burke. Get it now, or regret it later! Contains extra tracks not available on CD! Ex - JONATHAN FIRE EATER and THE RECOYS. *

THE WALKMEN/CALLA - *"The Walkmen/Calla"*

TMU 095 LP split/CD split

This hotly anticipated release finds two of NYC's most talked-about bands together for the first time! **THE WALKMEN** (ex-JONATHAN FIRE EATER), and have been gathering intense critical acclaim over the past year. **CALLA** is on loan from Young God Records (M. Gira of the SWANS' label). An incredible band, to say the least.

ORTHRELM/TOUCHDOWN *"Orthrelm/Touchdown"*



TMU 096 LP/CD

ORTHRELM is a continuation of the popular band CROM-TECH. Avant-metal/free jazz/hardcore? You be the judge. **TOUCHDOWN** are a bass and drum duo based out of Brookyln. Emily Powers takes her bass playing to other worlds. **TOUCHDOWN**'s songs are thrash/math/avant as well.

SONG OF ZARATHUSTRA *"A View from High Tides"*

TMU 098 LP/CD

SONG OF ZARATHUSTRA return with their long-awaited sophomore release, *A View From High Tides*, clearly their strongest to date. The album contains a more varied approach to songwriting than their debut and the result is a pummeling collision of guitar-driven fury. They are an unstoppable machine!

THE PANTHERS - *"Are You Down?"*

TMU 099 CD

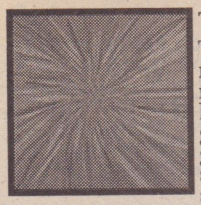
In addition to playing in TURING MACHINE, Justin Chearno had been involved with PITCHBLENDE, DOLDRUMS as well as UNREST. Jayson Green, Geoff Garlock, and Jeff Salane were all members of ORCHID. Kip Uhlhorn was a member of THE RED SCARE. This is the sound of **PANTHERS**, this is the fucking noise.

THE ROGERS SISTERS - *"Purely Evil"*

TMU 102 LP/CD

THE ROGERS SISTERS hail from Brooklyn, NY and have been taking the city by storm with their unique mix of garage/soul and post punk. Think a mixture of early B-52s/TALKING HEADS and THE SONICS. This truly unique blend of sounds works perfectly, and they have become a crowd favorite over the past year. The "first no-wave party band"?!?

TUSSLE *"Eye Contact"*



TMU 103 12"

TUSSLE formed in the spring of 2001 in SF as a mix of late 70s inspired postpunk/disco, repetitive Krautrock minimalism and Jamaican Dub-inspired electronic experimentation. The group reject trad rock posturing and do not use guitars. Instead, the emphasis is on rhythm and sound, emphasizing a propulsiveness that is somehow simultaneously stiff and liquid.

WOLF EYES - *"Dead Hills"*

TMU 104 LP PIC/CD

Finally! **WOLF EYES** crowning achievement, a piece which captures the potential of the band like no other release by them has come before. *Dead Hills* is a world where NEGATIVE APPROACH has gotten in a fist fight with THROBBING GRISTLE whlie beating the shit out of an 808 drum machine, and spat out the heaviest punk rock record ever made!

GLASS CANDY & THE SHATTERED THEATRE - *"Love Love Love"*

TMU 106 LP/CD

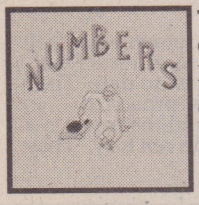
The debut album by Portland's **GLASS CANDY** is a scorcher! Recorded in Portland by the band, *Love, Love Love* brings to mind past heroes like T-REX and SYLVESTER alike! Their patented mixture of glam and disco has spawned a mini-movement in the underground. This self-proclaimed "death disko" sound has the kids literally freaking out!

ERASE ERRATA - *"The Dancing Machine "*

TMU 107 12"EP/CDEP

This is a remix record featuring some of the hottest producers around today: MATMOS (produced the last BJORK record), ADULT. (neu-electro legends!), KEVIN BLECHDOM (half of laptop noise destruction group BLECTUM FROM BLECHDOM), and KID 606 (you all know who he is!). This is a special remix record for the clubs and the punks alike!

NUMBERS - *"Ee-Uh!"*



TMU 108 12"EP/CD EP

Coming straight outta the superhot San Francisco underground (bands like ERASE ERRATA, BLECTDOM FROM BLECHDOM, KID 606, CRACK, DEERHOOF, GOLD CHAINS), **NUMBERS'** debut record on Tigerbeat 6 gets hipsters smiling (smirking?) and asses shaking. Expect the same on this EP. Reference GANG OF FOUR, DEVO, CONTORTIONS, et.c

VARIOUS ARTISTS - *"Troubleman Sampler 2003"*

TMU 109 CD

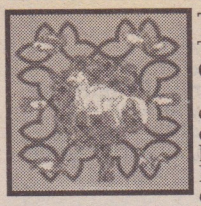
Troubleman Unlimited offers you their first budget sampler. This CD showcases all of the current (and future) Troubleman releases for your listening pleasure. Come listen and hear what the critics, kids, and other labels are talking about! Songs by: ERASE ERRATA, GLASS CANDY, NUMBERS, ROGERS SISTERS, and THE WALKMEN, etc...

THE RECOYS - *"Rekoys"*

TMU 110 LP/CD

This is a special limited edition VINYL ONLY release from this pre-WALKMEN Boston/NYC band. Two songs from this album, "That's the Punchline" and "The Blizzard of '93", were reworked by the WALKMEN for their 2002 album *Everyone Who Pretended to Like Me Is Gone*. We guarantee fans of the WALKMEN and FRENCH KICKS will wet themselves.

CALIFORNIA LIGHTENING - *"Just Broke Up"*



TMU 111 7"

This is a repressing of the debut 7" by the band **CALIFORNIA LIGHTENING**. This was originally released a few years ago in a pressing of 400 copies. The band is a two-piece, comprised of Jenny Hoysten (vocals/guitar) and Bianca Sparta (drums), of the band ERASE ERRATA. The songs were remastered from the original tapes, and features brand new cover art.

DEATH COMET CREW - *"DCC America"*

TMU 113 12"EP/CD EP

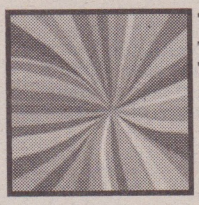
This groundbreaking group formed in 1982 in NYC, and recorded one of the most legendary hip-hop tracks of all time: "Beat Bop". This special EP is a teaser for their upcoming discography entitled *This is Riphop* . **DCC** represents a fertile, underground side of the early '80's NYC music, and operated in the unregulated interzone that gestated quickly to flourish.

DAN MELCHIOR'S BROKE REVUE- *"Garage Obituary"*

TMU 114 7"

THE BROKE REVUE'S sound is original and refreshing, marrying the best aspects of country, blues, psych, and R&B with a more extreme sonic approach utilizing the misanthropic fury of 70's punk and the drive of classic 60's catalysts like THE STOOGES and THEM. Throw in a love of the bombast of hip-hop and a unique songwriting voice and you're getting close.

TUSSLE - *"Don't Stop"*



TMU 115 12"EP/CD EP

The group recorded this ep with skate legend TOMMY GUERRERO after he saw the group and invited them to come over to his studio one afternoon in October of 2002. This ep features two live staples and two remixes from SOFT PINK TRUTH (Drew Daniel from MATMOS), and STUART ARGABRIGHT (of DEATH COMET CREW Fame).

GLASS CANDY & THE SHATTERED THEATRE- *"Excite Bike"*

TMU 116 7"

GLASS CANDY return hot on the heels of their groundbreaking, critically acclaimed debut LP Love Love Love with "Excite Bike". The band is refining their patented disco sound, and adding a little more glam elements to the mix. The band adds strings and piano to their A-side, opening new doors, the b-side is a secret ROXY MUSIC cover.

ZS - *"Zs"*

TMU 117 CD

Troubleman is proud to announce the debut cd by the NYC band Zs. This release is also the debut release from the VOTHOC series , which is curated by Mick Barr from ORTHRELM. Zs' sound ranges from loud virtuosic prog-rock counterpoint to barely audible breathing sounds. They have been described as "brutal chamber music". Their sound is very hard to pin down.

MEASLES MUMPS RUBELLA - *"Fountain of Youth"*

TMU 118 12"EP/CD EP

Troubleman announces one of their most anticipated releases of the last year- the TMU debut by Washington, DC's **MEASELS MUMPS RUBELLA**. The band has taken the east coast by storm with their beautiful, edgy, polyrhythmic sound which calls to mind early, more agressive PiL and THROBBING GRISTLE crossed with their own DC art-punk sensibility.

ERASE ERRATA - *"At Crystal Palace"*

TMU 119 LP/CD

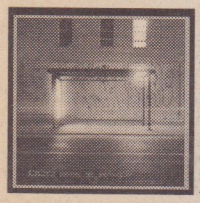
At Crystal Palace is the second full length record by San Fransisco's **ERASE ERRATA**. Recorded over two weeks at SF's Tiny Telephone Studios in Winter 2003, the album presents a more firmly realized vision of Other Animals' skeletal possibilities. Though still high-energy and rocket-fuse quick, the new songs are moodier (good and bad) and more defined.

PARADISE ISLAND - *"Paradise Island"*

TMU 120 7"

PARADISE ISLAND is the new solo project from Jenny Hoytston of the band ERASE ERRATA. She is gracing the Troubleman Solo Singles Series (tmuSSS) with her latest offering! Some of these songs are on the experimental/electronic side, and others are from the outsider/folk realm. The covers are silkscreened and the record is limited to 500.

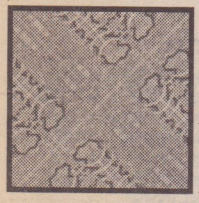
DEATH COMET CREW - *"This is Riphop"*



TMU 121 LP/CD

Listening to **DCC**, you can hear things never before used in hip hop, the sound collages, the white noise, the snippets from TV and movies. Before **DCC**, rappers were looping basslines and breakbeats and taking the loop; **DCC** added a more experimental and layered element to their sound that would be taken to the mainstream five years later with PUBLIC ENEMY.

THE FLYING LUTTENBACHERS - *"Systems Emerge "*



TMU 122 LP/CD

For more than a decade, this notorious instrumental unit has been destroying puny earthlings with a fusion of all things extreme & dissonant: hardcore punk intensity, death metal bombast, free jazz density, no wave skronk, electronic noise and modern classical abstraction. There isn't another album like *it* on this planet. Literally, this record will kill you.

KING COBRA - *"King Cobra"*

TMU 124 12"EP/CD EP

THE KING COBRA'S *self-titled* debut hisses, trills and grinds in an epic sweep, from prog to no wave to metal via found-sound artscape, through 6 songs of histrionic anti-gravity. Kwo's squalling guitar, Rachel Carns' portentious drums & Tara Jane O'Neil's precision bass descend like demon spawn from the cliffs, launching sonic assaults.

TRACY AND THE PLASTICS - *"Culture for Pigeon"*

TMU 127 CD+DVD

TRACY AND THE PLASTICS is an electronic art/new media punk band conceived and performed by Lesbian Feminist video artist Wynne Greenwood (originally from Washington State). This special release is released on both vinyl and CD, with a BONUS dvd containing two original full length films designed to be played along with the record.

THE CRAMPS - *"Stay Sick!"*

VENGEANCE 672 LP/CD

Sex-classic originally released in 1990. The dark side of rockabilly in a jugular vein. Hopped-up hog-wild covers include a version of perverse rarity "Her Love Rubbed Off'" (the only song that CARL PERKINS was admittedly ashamed of writing), plus action-packed originals. A favorite among rock'n'roll sickos worldwide. CD includes 6 Bonus tracks (3 new).

THE CRAMPS - *"Look Mom No Head!"*

VENGEANCE 673 LP/CD

Rock'n'roll in its full regalia, with celebrations of intoxication and sexual prowess. Includes "Dames, Booze, Chains and Boots", a torchy take on JACK NITZSCHE's slow-fuck blues "Hardworkin' Man","I Wanna Get In Your Pants" and a duet with IGGY POP on "Miniskirt Blues". THE CRAMPS - *"Big Beat From Badsville"*

VENGEANCE 674 LP/CD

The leaders in skull-fracturing rock'n'roll delve even deeper into a wicked nether world where few dare to tread. A haul-ass careening monster of a record with songs of mutilation, shape-shifting, she-devil-worship and pussy. The CD includes 4 rare bonus tracks: the nutty audio inkblot.

THE CRAMPS - *"Fiends of Dope Island"*

VENGEANCE 675 LP/CD

A year after launching their own Vengeance Records with six classic re-issues, the **CRAMPS** are now releasing their first new album in over five years. COLOR VINYL.

VOXX RECORDS

America's original garage music label

THE CRAWDADDYS - *"Crawdaddy Express"*

VLP 2001/VCD 2001 LP/CD

THE CRAWDADDYS are without a doubt the finest rhythm & blues combo to ever emerge from San Diego. Pioneers of the whole '60s cult, heroes to generations of California mods, their members have gone on to countless bands of wider renown, while this recording still towers miles above most everything else. CD includes several bonus tracks.

DMZ - *"Relics"*

VLP 2004 LP

When Boston emerged in the late '70s as one of the hotspots of the new music revolution, **DMZ** were already regarded as legends in the city. Sadly, their transition to the major leagues fell short, but not before Bomp had captured them at their best, in the 1976 sssions that are included here, along with outtakes and some previously unreleased demos.

DMZ - *"When I Get Off"*

VCD 2004 CD

When Boston emerged in the late '70s as one of the hotspots of the new music revolution, **DMZ** were already regarded as legends in the city. They set the standard for just how tuff rock & roll was supposed to be. Sadly, their transition to the major leagues fell short, but Bomp had captured them at their best, in the 1976 sessions included here, along with outtakes and demos.

THE BARRACUDAS - *"Drop Out"*

VLP 2009/VCD 2009 LP/CD

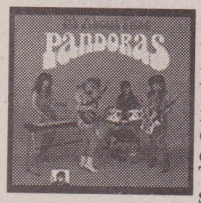
In 1981, **THE BARRACUDAS** burst into London's synth-obsessed pop scene with a simple, direct, punk-influenced yet rootsy kind of naive surf music. They enjoyed a Top 10 hit with "Summer Fun" then repaired to Rockfield to make this album, very much in the tradition of the FLAMIN' GROOVIES' *Shake Some Action* LP. CD includes bonus demo tracks.

THE HAUNTED - *"The Haunted"*

VCD 2012 CD

THE HAUNTED is arguably the best-remembered Canadian garage band of the '60s, thanks to their huge hit "1-2-5" which has become an oft-revived standard. This CD collects all their recorded output, from the two LPs previously released by Voxx (a total of 22 songs), with extensive, informative liner notes.

THE PANDORAS - *"It's About Time"*



VLP 2021/VCD 2021 LP/CD

THE PANDORAS were the first, and in many ways the most original, of L.A.'s garage revival bands. An all-girl band in wild day-glo fashions, they were openly sexual, assertive and outrageous in a time when girl bands were expected to be more like the demure BANGLES. The CD presents the complete recordings, with some demos, non-LP singles, and an interview.

THE GRAVEDIGGER V - *"All Black & Hairy"*

VCD 2025 CD

Whether tackling standards like "Night of the Phantom" or snarling out originals like "She's a Cur" and "Stoneage Stomp," it was clear that **THE GRAVEDIGGER V** had an atavistic genius unmatched in any decade. This CD combines the debut album with the live tracks, outtakes and demos from their later Voxx LP *The Mirror Cracked*.

THE TELL-TALE HEARTS - *"High Tide"*

VCD 2027 CD

Led by Mike Stax of CRAWDADDYS and UGLY THINGS fame, this foppish combo, whose sharp threads and lanky hair matched their musical roots (THE PRETTY THINGS, Dutch R&B savants THE OUTSIDERS, and Q65) TTH made one album and a monster EP for Voxx. This CD includes all these recordings, plus remixes, demos and other ephemera, and a lavish booklet.

THE MIRACLE WORKERS - *"Inside Out"*

VLP 2031/VCD 2031 LP/CD

From Portland, the MIRACLE WORKERS blew everyone away with their lineup of 3 vocalist/songwriters, powerful material and delivery, and passion for not just pure '60s garage-pop, folk-rock, and later icons like THE STOOGES. This debut album is their classic. It is without a doubt one of rock's most essential recordings.

THE TELL-TALE HEARTS- *"The Now Sound Of"*

VLP 2036 LP

Back in the days of the mid-80s "garage revival" scene, there was no doubt that the **TELL-TALE HEARTS** led the pack of "paisley underground" bands. They combined primitive and snotty mid-60s garage punk with R&B and blues influences and ioncluded Mike Stax, future publisher of the great Ugly Things fanzine. *This* was the band's second release for VOXX.

THE DWARVES - *"Horror Stories"*

VLP 2037/VCD 2037 **LP/CD**

Those who know **THE DWARVES** only from their later career on Sub-Pop and Epitaph might be surprised to learn they started out as a '60s garage band. This, the transitional recording, captured their growing irreverance for conventional styles, and was the beginning of their shock-rock persona. CD includes their rare UK 45 *Lick It*.

THE CRAWDADDYS - *"Here 'Tis"*

VLP 2046/VCD 2046 **LP/CD**

Although they were around the better part of a decade, **THE CRAWDADDYS** only ever released one album and a couple of 45s. However, after their breakup, it turned out they had spent quite a lot of time in studios, and had the demos to prove it. This posthumous release assembles the best of their unreleased work, with rare photos and documentation.

VARIOUS ARTISTS - *"Beyond the Calico Wall"*

VLP 2051/VCD 2051 **LP/CD**

For many, the best *Pebbles* album was always Vol. 3, *The Acid Gallery*, which featured some of the more drug-damaged relics of '60s garages. Picking up where that album left off, this is a mind-melting collection of demented obscurities, all previously unreissued. The vinyl is worth owning just for the incredibly trippy, insanely detailed cover painting.

THE MORLOCKS - *"Uglier than You'll Ever Be!"*

VCD 2071 **CD**

Following the breakup of the GRAVEDIGGER V, perhaps the most authentic '60s-inspired garage band on Voxx, **THE MORLOCKS** emerged from the ashes, with a heavier sound, and more murderous songs. We have unearthed a previously-unheard live recording that features 14 of their most classic tunes, performed with all the sneer and gusto you could ask for.

THE BARRACUDAS - *"Through the Mysts of Time"*

VLP 2072/VCD 2072 **LP/CD**

This fantastic compilation of demos & rarities is a perfect complement to *Drop Out* (one of the most popular Voxx albums ever), containing earlier, rawer versions of many of the same songs, plus much else, many unpublished photos, and new liner notes by ROBIN WILLS explaining all the tracks.

VARIOUS ARTISTS - *"Be a Caveman"*

VCD 2073 **CD**

This collection focuses on the Voxx label and its 70+ albums documenting the first wave of the garage revival circa 1980-1990. Many great Voxx LPs are still not (and will never be) available on CD. Songs from: **DMZ, FUZZTONES, CHESTERFIELD KINGS, BARRACUDAS, PANDORAS, THE DWARVES**, MIRACLE WORKERS, etc.

THE EMBROOKS - *"Our New Day"*

VLP 2074/VCD 2074 **LP/CD**

All-new recordings by the best new British mod-pop band in living memory. This exciting album captures them at their best, containing mostly new original songs but also some superb (and obscure) '60s covers. A superb album.

THE STOMACHMOUTHS - *"Wild Trip"*

VLP 200.040 **LP ONLY**

Sweden's garage pop **STOMACHMOUTHS** released some fine power garage, as was prolifically issued from that country during the heyday of the genre in the late eighties. The Voxx LP, released only in America, included demos and unreleased tracks.

THE BARRACUDAS - *"Drop Out With"*

VLP 2009 180 **LP 180-GRAM**

In 1981, The BARRACUDAS burst into London's synth-obsessed pop scene with a simple, direct, punk-influenced yet rootsy kind of naive surf music. They enjoyed a Top 10 hit with "Summer Fun" then repaired to Rockfield to make this album which stood the test of time as one of the classic rock & roll documents.
